UNIVERSITY LIFE ASSURANCE SOCIETY,

(ESTABLISHED 1825,)

INCORPORATED BY ROYAL CHARTER.

CAPITAL £600,000.

ASSURANCES may be effected on the lives of all Persons whose names are, or have been, during any period, however short, on the Books or Boards of any College or Hall, at OXFORD or CAMBRIDGE.

Assurances may be effected on the lives of such Persons against the lives of any Persons whatsoever.

A Division of PROFITS is made every five years, and very nearly *nine-tenths* appropriated to the Assured, either by a proportionate diminution of Premium, by an increase in the amount of the Policy, or by a present payment of the value in money, at the option of the Party.

The Society will be always ready to purchase from the Party in possession any unexpired Policy, or the Additions thereon; or to lend the *present value* of both at interest, on the deposit of the Policy with the Society.

Proposals for Assurances to be addressed to the SECRETARY, or to JOHN WRAY, Esq., Chairman of the Committee, at the Office of the Society, No. 24, Suffolk-Street, Pall Mall East, London; or to the Corresponding Directors, the Rev. J. W. HUGHES, Oxford, or H. GUNNING, Esq., Cambridge, from whom Proposals may be obtained.

* * Personal appearance at the Office is not required, except in particular cases.

Persons assured in this Office for the whole period of life may go by sea, during peace, without obtaining a License or paying an extra Premium, from any part of Europe to any other part of Europe.

TABLE OF ADDITIONS.

TABLE showing the Addition to be made to each sum of £1,000 assured by the UNIVERSITY LIFE ASSURANCE SOCIETY, when it shall become a claim, provided the Policy shall have existed 5 or more years, and 6 or more payments shall have been made.

The present value of the above sums, payable in money, amount on an average to more than 25 per cent. of the premiums paid for the respective periods.

In the event of death before the next Division of Profits in 1845, one and a-half per cent. per annum will be added for each year after 1840.

By the above Table, and according to a Resolution passed at the last Annual General Court, it will be seen that all Policies granted by the Society, for the whole duration of life, will in future be allowed to share at each Division of Profits in proportion to the duration of the same.

TERMS AND CONDITIONS.

PERSONS wishing to effect an ASSURANCE must state the Name, Residence, and Profession, of the Party on whose behalf the ASSURANCE is proposed, and of the Party whose life is proposed to be Assured; the College at which the latter party has been entered; the place and date of birth; the age next birth-day; whether married or single; whether he has resided abroad, and if so, where, and for what period; whether he has been employed in the military or naval service; whether he has had the small-pox, the cow-pox, or the gout; whether he has been, since his childhood, afflicted with rupture, fits, insanity, dropsy, asthma, or spitting of blood; whether, during the last seven years, he has been afflicted with any severe or constitutional disease or disorder; the sum proposed to be Assured; and the term for which the ASSURANCE is required.

Reference must also be given to two respectable persons (not being near relations of the party) for information as to his present and general state of health, one of whom must be (if possible) the medical person who has usually attended him.

A declaration, as to all the points contained in the above statement, will form the basis of the contract between the ASSURED and the SOCIETY; and should any untrue allegation be contained in such declaration, the Policy will become void, and all payments of Premium made on it will become forfeited.

The DIRECTORS have the power of fixing the Premium in every case, where any extra risk may attend the Life to be ASSURED. Policies will not be considered to be in force beyond 30 days after the expiration of the year, unless the Premium then due shall have been paid to the Society. But should proof be given to the satisfaction of the DIRECTORS, that a party whose life has been Assured continues in good health, the Policy may be revived at any time within six months, on the payment of a fine, to be fixed by the COURT OF DIRECTORS, not exceeding ten shillings per cent. on the sum Assured; or at any period within 13 months, on the payment of such fine as the COURT OF DIRECTORS may think reasonable.

Policies will become void if the parties whose lives have been ASSURED shall go beyond the limits of Europe, or shall

die at sea; (unless in passing direct from one part of the United Kingdom to another, or in passing from any part of the United Kingdom, in time of peace, to and from any part of the Continent situate between the Elbe and Brest, in steam or other decked vessels;) or being or becoming a military or naval man, shall be called into actual service; unless, in each case, permission shall have been granted by the DIRECTORS, which may be obtained on such parties attending personally, to give every requisite explanation, and paying a Premium adequate to the extra risk, to be settled by the Directors: but all persons Assured for a *limited term of years* may pass direct from one part of the United Kingdom to another, or from any part of the United Kingdom, in time of peace, to and from any part of the Continent situate between the Elbe and Brest, in steam or other decked vessels; and all persons whose lives are Assured for *the whole period of life* (not being sea-faring persons by occupation) may go by sea, during peace, without obtaining a license from the COURT OF DIRECTORS, and without paying any additional premium, from any part of Europe to any other part of Europe, in steam or other decked vessels; and their respective Policies will not be forfeited in case of their dying upon the seas under such circumstances.

ASSURANCES made by persons on their own lives will become void if they die at any time by their own act, whether in a state of lunacy, or otherwise; or by duelling, within a twelvemonth after the ASSURANCE is effected; or by the hands of justice. But if any person who has effected an ASSURANCE on his own life shall die by his own hands, and not be felo-de-se, the DIRECTORS shall, if they think proper to make any payment, be at liberty to pay any sum, according to their discretion, not exceeding what would have been payable in the event of natural death.

Policies may be assigned by a separate deed, without making any endorsement on the Policy, or giving any notice to the Office.

The time for payment of claims is within three calendar months, after the proof of the death of the parties whose lives are the subjects of the ASSURANCE.

OBSERVATIONS.

STATUTABLE CONGREGATIONS.—One upon the last day of each Term; two on the 10th day of October; one on the 3d, and one on the 4th of November; two on the day after the second Tripos; two on the 11th of June.

The Divinity, Law, and Physic Schools are open during the whole of every Term, and the keeping of all Acts, except the former which are confined to every other Thursday, is entirely at the discretion of the respective Professors.

All Festivals, Saints' days, and Sundays, are surplice-days, and the evening preceding are surplice-evenings; but on May 29, June 20, and November 5, surplices are worn in the morning only.

On Litany days the Doctors and Noblemen wear their robes, and the Proctors their congregation-ruffs.

Commemoration of Benefactors is at St Peter's, Clare, Pembroke, Caius, Queens', Catharine, Jesus, Christ's, and St John's Colleges, the day after the end of each Term, on which occasion there is a feast in the several college-halls.

UNIVERSITY OF CAMBRIDGE.

DEUM TIMETO: REGEM HONORATO: VIRTUTEM COLITO:
DISCIPLINIS BONIS OPERAM DATO.

Stat. Acad. Cantab.

THE UNIVERSITY of CAMBRIDGE is a society of students in all and every of the liberal arts and sciences, incorporated (13th Eliz. c. 29,) by the name of "*The Chancellor, Masters, and Scholars of the University of Cambridge.*" The frame of this little commonwealth standeth upon the union of seventeen colleges, or societies, devoted to the study of learning and knowledge, and for the better service of the Church and State. All these colleges¹, or halls, have been founded since the beginning of the reign of King Edward I.² and are maintained by the endowments of their several founders and benefactors. Each college is a body corporate, bound by its own statutes; but is likewise controlled by the paramount laws of the University. The present University Statutes were given by Queen Elizabeth in the 12th year of her reign, and, with the former privileges, were sanctioned by Parliament. They are the foundation upon which all new laws are framed.

Each of the seventeen departments or colleges, in this literary republic, furnishes members both for the executive and legislative branch of its government. The place of Assembly is the Senate-House.

All persons who are ³Masters of Arts, or Doctors in one or other of the three faculties, *viz.* Divinity, The Civil Law, or Physic, having their names upon the college-boards, holding any University Office, or being resident in the town of Cambridge, have votes in this assembly. The number of those who have a title to the appellation of Members of the Senate, is at present about two

¹ Colleges and Halls are synonymous here, though not so at Oxford. Thus Clara Hall is called "Collegium sive Domus, sive Aula de Clare."

² The first authentic charter is said to be dated

45 Henry III. and to be found among the records in the Tower.

³ Those Bachelors in Divinity who are Members of the Senate, deduce their privilege from having previously taken the degree of M.A.

thousand nine hundred. Those who erase their names from their respective college-boards, lose the privilege of being Members of the Senate, unless they *re-enter* their names, and reside the greater part of three several Terms.

The SENATE is divided into two Houses, denominated the Regents and Non-Regents House, with a view to some particular duties allotted to the members of the Regents House, by the statutes of the University.

Masters of Arts of less than five years' standing, and Doctors of less than two, compose the Regent or Upper House; or, as it is otherwise called, the White-Hood House, from its members wearing their hoods lined with white silk. All the rest constitute the Non-Regent, or lower house; otherwise called the Black-Hood House, its members wearing black silk hoods. But Doctors of more than two years' standing, and the Public Orator of the University, may vote in either House, according to their pleasure.

Besides the two Houses, there is a Council called the Caput, chosen annually upon the 12th of October, by which every University Grace must be approved, before it can be introduced to the Senate.

The CAPUT consists of the Vice-Chancellor, a Doctor in each of the faculties, Divinity, The Civil Law, and Physic, and two Masters of Arts, who are the representatives of the Regent and Non-Regent Houses. The Vice-Chancellor is a member of the Caput by virtue of his office. The election of the other members of this Council is effected in the following manner:—The Vice-Chancellor and the two Proctors severally nominate five persons properly qualified for the trust, and out of the fifteen, the heads of Colleges, Doctors, and Scrutators, choose five. In general, the Vice-Chancellor's list is honoured with the appointment: and in case any member thus appointed should afterwards be chosen Vice-Chancellor, or should die, the vacancy in the Caput is not filled up by election, but the senior in the same faculty present in the Congregation supplies his place.

A few days before the beginning of each Term, the Vice-Chancellor publishes a list of the several days on which a Congregation or assembly of the Senate will be held for transacting University business; these fixed days occur about once a fortnight; but in case of emergency, the Vice-Chancellor summons a Congregation for the dispatch of extraordinary affairs. This is done by means of a printed notice, specifying the Graces to be brought forward, which is exhibited in the halls of the several colleges two days before the time of assembly. Any number of members of the Senate, being not less than twenty-five, including the proper officers (or their legal deputies,) who, by virtue of their oaths, are obliged to be present, constitutes a Congregation, and may proceed to business. There are also Statutable Congregations, or days of assembling, enjoined by the statutes, for the ordinary routine of University affairs, such as conferring degrees, electing officers, &c. for which no notice is required. A Congregation may also be held

without three days' previous notice, provided at least *forty* Members of the Senate be present at its *first* assembling, and twenty-five at the second. Previous to every Congregation the University bell rings for the space of one hour. Every member has a right to present any proposition, or Grace, to the consideration of the Senate; but previously to its being voted upon by the two Houses, it is to be read and approved by the Council, or Caput, each member of which has a *negative* voice. After a Grace has passed the Caput, it is read in the Non-Regent House by the Senior Scrutator; and also in the Regent House by the Senior Proctor; and the Congregation is prorogued by the Vice-Chancellor. It is read in like manner in the second Congregation; and if a *non-placet* is put in by a member of the Non-Regent House, it is there voted; and in case the number of *non-placets* is equal to, or exceeds that of the *placets*, the Grace is thrown out, and can proceed no further: but if the *placets* exceed the *non-placets*, it is carried up into the Regent House, and there undergoes the same process; and if it passes through both Houses, it is considered a regular act of the Senate; and if the subject be of a public nature, it becomes a statute.

We have selected as a specimen the following Grace, which passed Feb. 28, 1806 :—

“Cum tempora, quibus hactenus haberi solita est Matriculatio, usu comperta sint incommoda, et propter hanc atque alias causas, ipsa Matriculatio ab Alumnis cæperit prætermitti;

“Placeat Vobis, ut in posterum, pro die insequente cujusque termini finem, dies instituaturs ad Matriculationem peragendam qui vel proxime vel uno interjecto sequatur mediam termini cujusque partem: Atque ut iis, qui post decimum Octobris diem, Anno Domini millesimo octingentesimo quinto, intra Academiam per tres terminos commorati, non matriculati fuerint, nullus omnino computetur terminus, nisi ab illo die, in quo Matriculationem rite perfecerint.”

An assembly of the Senate held out of Term-time is called a Convocation: in such a case a Grace is immediately passed to convert the Convocation into a Congregation, after which the business proceeds in the ordinary manner.

No degree is ever conferred without a Grace for that purpose, which undergoes the same scrutiny and process as above related: those for Bachelors of Arts, Honorary degrees, and Masters of Arts of King's College, excepted, which require reading at *one* Congregation only. After the Grace has passed, the Vice-Chancellor is at liberty to confer the degree. A grace in this instance is termed a Supplicat. It is signed by the Prælector of the college to which the candidate belongs, and the subscriber is made responsible for the assertion it contains. The penalty for subscribing a false Supplicat, is *“ipso facto,”* two years deprivation of the privilege of voting in the Senate, or holding any public office in the University. *Lib. Stat.* p. 234.

Form of a SUPPLICAT for the degree of M.A.

Col....., 5to Aprilis, 18

"*Supplicat Reverentiis vestris A. B. ut novem termini completi post finalem ejus Determinationem, in quibus ordinarias lectiones audiverit, (licet non omnino secundum formam Statuti) una cum omnibus oppositionibus, responsionibus, disputationibus, declamationibus, cæterisque exercitiis per Statuti Regia requisitis, sufficiant ei ad incipiendum in Artibus.*"

"C. D. Prælector."

For every other degree there is a proper form.

The University confers no degree whatever, unless the Candidate has previously subscribed a declaration that he is *bonâ fide* a member of the Church of England, as by law established¹.

There are different modes of Election prescribed by the Statutes of the University, or by the conditions of particular foundations: the three following are the principal:

1. By Grace: Where a Grace nominating a particular candidate is offered to the Caput, and passed through the two Houses, as in the case of Graces relating to the ordinary business of the University: if there are more Candidates than one, separate Graces may be offered, of which one only is supposed to pass: if no Grace is *passed*, then there is no election. The High Steward of the University, and two or three Professors, are elected by Grace.

2. *More Burgensium*; or by the mode adopted in the election of the Representatives of the University in Parliament: every member of the Senate, whether Regent or Non-Regent, writes down upon paper the name of the candidate he votes for, and his own, in the following form; (*Ego A.B. eligo C.D. in... (Burgensem hujus Academicæ in Parlamento)*): these papers are presented to the Vice-Chancellor and certain Scrutineers: and the candidate in whose favour the greatest number of votes are given is elected. The Chancellor of the University, and some Professors are elected in this manner: the same mode is adopted in the nomination to benefices in the gift of the University.

3. By nomination; where the Heads of Houses, or their legal deputies, nominate two candidates on the morning preceding the final election: on the following day, the members of the Senate at large choose one of the two candidates nominated, *more burgensium*.

The Vice-Chancellor, the Public Orator, Registry, Librarian, and most of the officers of the University, are chosen in this manner.

The executive branch of the University is committed to the following officers:—

A CHANCELLOR, who is the head of the whole University, and presides over all cases relating to that body. In him is placed the

¹ This suffices for B.A., M.B., and LL.B.; but should subscribe to the 36th Canon of the Church of England, inserted in the Registry's Book.

ole executive authority within the precincts, except in matters of mayhem and felony. He seals the diplomas and letters of degrees, provisions, &c., given by the University. He is to preserve and defend its rights and privileges, to convoke assemblies, and to do justice among the members under his jurisdiction.

A HIGH STEWARD, who has special power to take the trial of scholars impeached of felony within the 'limits of the University, and to hold and keep a leet according to the established charter and custom. He appoints a Deputy by Letters Patent, which are confirmed by a Grace of the Senate.

A VICE-CHANCELLOR, who is elected annually on the 4th of November, by the Senate. His office, in the absence of the Chancellor, embraces the execution of the Chancellor's powers, and the government of the University according to her statutes. He must, by an order of the Heads made in 1587, be the Head of some college; and during his continuance in office he acts as a magistrate for the University, Town and County.

A COMMISSARY, who is an officer under the Chancellor, and appointed by him. He holds a court of record for all privileged persons and scholars under the degree of M.A. In this court all causes are tried and determined by the civil and statute law, and by the custom of the University. He also is allowed a Deputy.

A PUBLIC ORATOR, who is the voice of the Senate upon all public occasions. He writes, reads, and records the letters to and from the body of the Senate, and presents to all honorary degrees with an appropriate speech. This is esteemed one of the most honourable offices in the gift of the University.

The ASSESSOR is an officer specially appointed, by Grace of the Senate, to assist the Vice-Chancellor in his court, *in causis forensibus et domesticis*.

TWO PROCTORS, who are peace-officers, elected annually. It is their especial duty to attend to the discipline and behaviour of all persons in *statu pupillari*, to search houses of *ill* fame, and to take into custody women of *loose* and *abandoned* character, and even those *de malo suspectæ*. Another part of their duty is to be present at all Congregations of the Senate, to stand in scrutiny with the Chancellor or Vice-Chancellor to take the open suffrages of the House, both by word and writing, to read them, and to pronounce the assent or dissent accordingly; to read the Graces in the Regent-House, to take secretly the assent or dissent, and openly to pronounce the same. They must be Masters of Arts of two years' standing at the least; and, of whatever standing in the University, are Regents, by virtue of their office. They determine the seniority of all Masters of Arts at the annual commencement.

A LIBRARIAN, to whom the regulation and management of the University Library is confided.

¹ The jurisdiction of the University is a mile every way round, reckoning from any part of the suburbs.

A REGISTRARY, who is obliged, either by himself, or by deputy properly authorized, to attend all Congregations, to give directions (if it be required) for the due form of such Graces as are to be propounded, to receive them when passed in both Houses, and to register them in the University records. To register also the seniority of such as proceed yearly in any of the arts and faculties, according to the schedules delivered unto him by the Proctors.

TWO TAXORS, who must be Masters of Arts, and are Regents by virtue of their office. They are appointed to regulate the markets, to examine the assize of bread, the lawfulness of weights and measures, and to call all abuses and defects thereof into the Commissary's court.

TWO SCRUTATORS, who are Non-Regents, and whose duty it is to attend all Congregations, to read the Graces in the Lower House, to gather the votes secretly, or to take them openly in scrutiny, and publicly to pronounce the assent or dissent of that House.

TWO MODERATORS, nominated by the Proctors, and appointed by a Grace of the Senate. They act as the Proctors' substitutes in the Philosophical Schools, superintending the exercises and disputations in philosophy, and the examinations for the degree of Bachelor of Arts. They are also generally appointed Deputies in the absence of the Proctors.

TWO PRO-PROCTORS, who are appointed, in consequence of the increasing magnitude of the University, to assist the Proctors in that part of their duty which relates to the discipline and behaviour of those persons who are in *statu pupillari*, and the preservation of public morals; but in the other parts of the Proctor's office they have not any concern, or control.

THREE ESQUIRE BEDELLS, whose office is to attend the Vice-Chancellor, whom they precede with their silver maces upon all public occasions and solemnities; to attend the Doctors present in the Regent House, by bringing them to open scrutiny, there to deliver their suffrages either by word or writing, according to the order of the statutes; to receive from the Vice-Chancellor and the rest of the Caput, the Graces delivered unto them, and to deliver them first to the Scrutators in the Lower House, and from thence, if they be granted, to carry them to the Proctors in the Upper House; to attend the Professors and Respondents in the three faculties from their colleges to the Schools, and during the continuance of the several acts; to collect fines and penalties from all members of the University; and to summon to the Chancellor's Court all members of the Senate.

THE UNIVERSITY PRINTER, the LIBRARY KEEPER, the UNDER-LIBRARY KEEPER and the SCHOOL KEEPER, are elected by the Senate, from two candidates previously nominated by the Heads of Houses.

THE YEOMAN BEDELL is appointed by Letters Patent under the hand and seal of the Chancellor.

The UNIVERSITY MARSHAL is appointed by Letters Patent under the hand and seal of the Vice-Chancellor.

There are two Courts of Law in this University, *viz.* the *Consistory Court of the Chancellor*, and the *Consistory Court of the Commissary*.

THE CONSISTORY COURT OF THE CHANCELLOR.

IN this Court the Chancellor, and in his absence the Vice-Chancellor, with the assistance of some of the Heads of Colleges, and one Doctor or more of the Civil Law, administers justice desired by any member of the University, or by any requiring the same to be put in execution against any of that body, in matters and causes belonging to this court.

All pleas and actions personal, as of debts, accounts, contracts, &c., or of any other injury (begun or grown within the limits of the University,) whereunto a privileged person is a party, and not concerning mayhem and felony, are solely to be here heard and decided.

The manner of the proceeding is according to the course of the civil law, *viz.* by citation, libel, &c.

In matters of delict (arising from the buying of victual or victualling, or from the trial of victual), the Chancellor in his proceeding and judgment, receiveth direction from the law given to the University by charter, or from the customs of the University, and from the statutes of the land where the charters and customs are wanting. In this proceeding he is authorized by a charter, confirmed by Act of Parliament.

From the judgment of this court there lies an appeal unto the Senate, who commit the examination thereof to certain delegates (either Doctors, or Masters of Arts,) being three at the least, and not more than five, with a power either to reverse or to ratify the appeal.

THE CONSISTORY COURT OF THE COMMISSARY.

IN this Court the Commissary doth, by authority given him by deputation under the seal of the Chancellor of the University, sit as well in the University, as at Midsummer and Stourbridge fairs, there to take knowledge, and to proceed in all causes *ad instantiam et promotionem partis ut supra*, the parties, or one of them, being privileged; saving, that within the University all causes and suits whereunto the Proctors or Taxors, or any of them, or a Master of Arts, or any other of superior degree, is a party, are reserved solely and wholly to the jurisdiction of the Chancellor, or Vice-Chancellor.

The manner of proceeding in this, is the same as in the other court, where the Chancellor himself, or the Vice-Chancellor presideth; being for the service thereof attended by the Registrary and the Yeoman Bedell, and having procurators and advocates there to plead, as in the other court required.

The party aggrieved is, by the statute, allowed his appeal unto the Chancellor's court, and so from thence to the Delegates, if the cause and grief of the party render such an application necessary.

The **TWO MEMBERS**, whom the University sends to the Imperial Parliament of the United Kingdom of Great Britain and Ireland, are chosen by the collective body of the Senate.

The **UNIVERSITY COUNSEL** are appointed by Grace of the Senate, and are consulted upon various occasions.

The **SOLICITOR** is appointed by the Vice-Chancellor.

SYNDICS are the members of special committees of members of the Senate, appointed by Grace from time to time for specific duties, such as the framing of laws, regulating fees, inspecting the library, buildings, printing, &c.

The **PROFESSORS** are paid from various sources: many of them have ancient stipends, which were considerable at the period at which they were fixed, but which have become inadequate from the diminished value of money; to some professorships foundation estates are attached, and to the Regius and Lady Margaret's professorships of Divinity the impropriate rectories of Somersham and Terrington: the others are paid by stipends from the Privy Purse, or by Government, one of them receiving £400, another £200, and the rest £100 per annum.

The **ANNUAL INCOME** of the University arises from various sources, of which the following are the principal:

The rectory of Burwell and a farm at Barton, producing about £1000 per annum.

The produce of fees at matriculation, for degrees, cautions for certain academical exercises for degrees, and other irregular sources of income not easily enumerated, the gross amount of which is very variable, but does not average more than £2000 per annum.

The trading profits of the **PITT [University] PRESS**, which have seldom been very considerable. Large sums of money have lately been expended in the extension and improvement of the printing establishment; and adequate returns for the capital thus invested can be expected only from a prosperous business for many years. Under these circumstances, we are unable to give any average amount of profits arising from the Pitt Press.

After what has been stated, it will be seen that the entire income of the University is a matter of uncertainty.

The necessary expenditure of the University for payment of officers and servants (who are not paid by specific fees) for expenses of examinations, the Observatory, for repairs of buildings, for maintenance of collections, &c. &c., does not average less than £4500. In later years the actual expenditure has greatly exceeded the average income, in consequence of a great outlay for the Observatory, Anatomical and other Museums and Lecture

rooms, for the Printing Press, and other important and most necessary academical objects: this extraordinary expenditure has almost entirely exhausted the funded and available capital of the University.

In the preceding statement of the ordinary income and expenditure of the University, no account has been taken of the amount of fees paid to the Bedells, Proctors, Moderators, Pro-proctors, their servants, the Registrary, amounting to about £2400 per annum, by which these officers, are entirely paid: nor of the Library tax of 6s. per annum upon every member of the University), which is appropriated entirely to the purchase of books for the Public Library: nor of various *trust* funds, appropriated to specific objects, over the distribution of which the University possesses no control.

The whole of the funds of the University are managed by the Vice-Chancellor, or by specific Trustees, and the accounts are examined annually by three Auditors, who are appointed annually by the Senate.

The STATUTES of the University were printed in 1785, and a copy of them may be found in the Public Library, in the Library of every College, and in the Senate-House; the Vice-Chancellor and the two Proctors for the time being have also each one.

Graces of the Senate possess generally the force of Statutes; but no grace of the Senate is considered valid which is inconsistent with the Statutes of the 12th of Elizabeth, and certain nearly cotemporary interpretations of them: or with King's Letters which have been accepted and acted upon by the University.

The TERMS of this University are three, and are fixed by inviolable rules. Michaelmas, or October, Term begins on the tenth of October, and ends on the 16th of December. Lent, or January, Term begins on the 13th of January, and ends on the Friday before Palm Sunday. Easter, or Midsummer, Term begins on the eleventh day (the Wednesday se'nnight) after Easter-day, and ends on the Friday after Commencement-day. Commencement-day is always the First Tuesday in July.

When any member of the Senate dies within the University during Term, on application to the Vice-Chancellor, the University bell rings for one hour: from which period *non term*, as to public lectures and disputations only, commences for three days.

If any member of the Senate change his college, twenty-four hours *only* are allowed for that purpose: if he exceed that time he must again keep three terms, before he can be reinstated as a member, or qualified to vote.

The seventeen Colleges which constitute this University were founded by different individuals: all the founders enjoin the cultivation of *religion*, in the first place, and next to that, polite literature and the sciences; all which combined are to set forth the glory of God in his works of Creation and Redemption. The statutes of some of the colleges require the Fellows to be born in England—in particular counties, districts, &c. The Fellowships at Clare Hall, Trinity, Sidney, Downing, are open to all the Queen's subjects, wherever born: the foundation Fellowships of St John's,

Jesus, and Trinity Hall, are *generally* open to all persons born in England and Wales; and those in the other colleges nearly so.

“Whosoever hath one English Parent, although he be born in another country, shall be esteemed as if born in that county to which his English parent belonged. But if both Parents were English, he shall be reckoned of that county to which his Father belonged.” *Stat. Acad.* p. 268.

The respective Orders in the several Colleges are as follow :

1. A HEAD of a College or House, who is generally a Doctor in Divinity; excepting of Trinity-Hall, Caius College, and Downing College, where they may be Doctors in the Civil Law or Physic. The Head of King's is styled Provost; of Queens', President; all the rest, Master.

2. FELLOWS, who generally are Doctors in Divinity, the Civil Law, or Physic; Bachelors in Divinity; Masters or Bachelors of Arts; some few Bachelors in The Civil Law or Physic, as at Trinity-Hall and Caius College. The number of Fellowships in the University is 430.

3. NOBLEMEN GRADUATES, DOCTORS in the several faculties, BACHELORS IN DIVINITY (who have been Masters of Arts), and MASTERS OF ARTS, who are not on the foundation, but whose names are kept on the boards for the purpose of being members of the Senate. The expense of keeping the name upon the boards varies in different colleges from about £2 to about £4 per annum.

4. TEN YEAR MEN; these are allowed to take the degree of Bachelor in Divinity without having been B.A. or M.A. by the 9th statute of Queen Elizabeth, which permits persons, who are admitted at any college when 24 years of age and upwards, to take the degree of Bachelor in Divinity after their names have remained on the boards *ten* years or more. After the first eight years, they must reside in the University the greater part of three several terms, and perform the exercises which are required by the statutes.

5. BACHELORS in The CIVIL LAW and PHYSIC, who sometimes keep their names upon the boards till they become Doctors. They wear the habits, and enjoy all the ordinary privileges of Masters of Arts, except that of voting in the Senate.

6. BACHELORS OF ARTS, who are in *statu pupillari*, and pay for tuition whether resident or not, and generally keep their names on the boards, either to shew their desire to offer themselves candidates for fellowships, or to become members of the Senate. If they erase their names, they save the expense of tuition and college *detrimenta*; and may nevertheless take the degree of M.A. at the usual period, by putting their names on the college boards a few days previous to incepting: but under such circumstances they cannot become members of the Senate, unless they reside again during the greater part of three several terms.

7. FELLOW-COMMONERS, who are generally the younger sons of the nobility, or young men of fortune, and have the privilege of dining at the Fellows' table, from whence the appellation originated.

8. **SCHOLARS**, who are generally foundation members of their respective colleges, and who enjoy various advantages; in some cases they have their commons paid for, their chambers rent-free, and various weekly or other allowances: in other cases they have specific stipends only, in conformity with the conditions of their foundation. They are for the most part elected, by direct examination or otherwise, at different periods subsequent to the commencement of their residence at the University, from the most promising and distinguished of the students.

9. **PENSIONERS**, who form the great body of the students, who pay for their commons, chambers, &c., and enjoy generally no pecuniary advantages from their respective colleges.

10. **SIZARS** are generally students of limited means. They usually have their commons free, and receive various emoluments.

TERMS AND EXERCISES

Required by the Statutes for the several Degrees.

THE METHOD OF PROCEEDING TO THE DEGREE OF BACHELOR OF ARTS.

IN order to take this degree at the regular time, the person must be admitted of some college before the end of the Easter term of the year in which he purposes to come into residence. The mode of admission is, either, by a personal examination before the Tutor and some of the college officers, or, which is more usual, by sending to the Tutor a recommendatory certificate, signed by some Master of Arts of this University, stating the name, age, qualifications, &c. &c. of the candidate, and transmitting with it the usual caution-money. If this certificate be considered satisfactory, the admission takes place, and the person's name is immediately entered on the boards which are suspended in the butteries of the several colleges. The person thus admitted usually comes into residence about the 20th of October following, and then commences his academical career¹.

Besides a constant attendance on lectures, the Undergraduates are examined in their respective colleges yearly, or half-yearly, in those subjects which have engaged their studies; and, according to the manner in which they acquit themselves in these examinations, their names are arranged in classes, and those who obtain the honour of a place in the first class receive, according to merit, prizes of different value.

By this mode of procedure the Students are prepared for those public Examinations and Exercises which the University requires of all candidates for degrees. The first, viz., the Previous Examination, takes place in the Lent and October Terms of the second year from that in which a student resides the major part of his first Michaelmas Term², according to the following plan, confirmed by Grace of the Senate.

¹ For Matriculation Fees see page 45.

² Vide 12th Regulation and Note, page 13.

PLAN FOR THE PREVIOUS EXAMINATION.

1. THAT the subjects of the Examination shall be one of the four Gospels in the original Greek, Paley's Evidences of Christianity, the Old Testament History, and one of the Greek and one of the Latin Classics.

2. That the appointment of the particular Gospel, and in regard to the classical subjects, the appointment both of the authors and of the portions of their works which it may be expedient to select, shall rest with the Vice-Chancellor for the time being, the three Regii Professors of Divinity, the Civil Law, and Physic, the Regius Professor of Greek, and the Public Orator (provided that not more than two of them are members of the same College) upon this clear understanding, that in the exercise of the power thus to be vested in them, they shall so limit the examination, that every one who is to be examined may be reasonably expected to shew a competent knowledge of all the subjects.

3. That in case three or more of those to whom the appointment of the subjects of examination has been assigned shall belong to the same college, deputies for any number exceeding two shall be appointed, every year, by a Grace of the Senate.

4. That every person when examined shall be required (1) to translate some portion of each of the subjects appointed as afore said; (2) to construe and explain passages of the same; and (3) to answer printed questions relating to the Evidences of Christianity and the Old Testament History.

5. That previously to the commencement of the Examination the Examiners shall prepare an alphabetical list of all the persons to be examined, and divide them into equal portions, according to the number of days of examination; and that they shall send a copy of such list to the Prælector of each College, notifying the day on which each of the persons to be examined belonging to that College shall be required to attend the Examination.

6. That the Examination shall begin on the Monday in the week before the end of the Lent Term in each year.

7. That each of the persons to be examined shall be required to attend from 8 till 11 in the morning, and from 12 till 3 in the afternoon on the day of which he has previously received notice.

8. That the persons to be examined each day shall be formed into two divisions; that each of these divisions shall be examined in the Greek subject by two of the Examiners, and in the Latin subject by the other two during the morning; and that the Greek Testament, and Paley's Evidences and the Old Testament History be the subjects of examination in the afternoon.

9. That the days of Examination shall be Monday, Tuesday, Wednesday, Thursday, and Saturday, in the first week, and Monday, Tuesday, Wednesday, and Thursday in the following week.

10. That the persons under examination shall be employed in translating the passages or answering the printed questions pro

posed, each individual being called upon in turn, during the time of examination, to construe and explain passages of the appointed subjects.

11. That the examination of each individual shall be concluded in one day, and that the result shall be notified as soon as conveniently may be to the Prælector of each College.

12. That every Undergraduate shall be required to attend the Examination in the Lent Term of the year next but one after that in which he has kept his first term¹.

13. That two classes (each of them arranged alphabetically) shall be formed out of those examined—the first consisting of those who have passed their examination with credit—and the second, of those to whom the Examiners have *only not refused* their certificate of *approval*.

14. That in case any one shall be prevented by illness, or any other sufficient cause, from attending the proper Examination of his year, a certificate of such illness or other cause shall be submitted by the Tutor of his College to the Vice-Chancellor and Proctors for the time being, for their approbation in writing.

15. That if any one shall absent himself from the proper Examination of his year, without the written approval of the Vice-Chancellor and Proctors, he shall not be allowed the Lent Term of that year.

16. That there shall be a second Examination in the same subjects, and by the same Examiners, commencing on the second Monday in the Michaelmas Term of each year, for those who have been absent with the approval of the Vice-Chancellor and Proctors from the preceding Lent Examination, and for those who have not been approved by the Examiners at that Examination.

17. That those who shall not have been approved at either the Lent or October Examination of their year, or who shall have been absent from both those Examinations, shall be required to attend the Lent Examination of the following year, subject to the same conditions as before; and that no degree of B.A., M.B., or LL.B., shall be granted, unless a certificate be presented to the Caput shewing that the candidate for such degree has passed, to the satisfaction of the Examiners, some one of these Examinations.

18. That public notice of these subjects of examination in each year shall be issued in the first week of the Lent Term of the year preceding.

19. That in every year, at the first Congregation after the 10th day of October, the Senate shall elect four Examiners, (who shall be members of the Senate, and nominated by the several Colleges

¹ For example, a Student who has kept the Michaelmas Term 1841 is required to attend the previous Examination in the Lent Term of 1843. It is a matter of indifference, as far as concerns the Previous Examination, whether he keeps the intermediate Terms or not. If he should absent himself from the University from the end of Michaelmas Term 1841 till the Lent Term 1843, he is

required to attend the Previous Examination in that Term (though only his second of actual residence), under penalty of losing the Term. In the same way if he should absent himself till the Lent Term 1844, he is required to attend the Previous Examination in that Term, under penalty of losing the Term.

according to the cycle of Proctors, and Taxors,) to conduct the Lent and October examinations of the succeeding year.

20. That each of the Examiners shall receive £20. from the University Chest.

21. That two of the Proctor's men shall be in attendance each day on the Examiners.

22. That the foregoing Regulations shall not interfere with the composition between the University and King's College.

The Student having passed this preparatory step, has next to perform the usual exercises required by the Statutes for the second, or B.A. examination. A Bachelor of Arts must have resided the greater part of twelve several terms, the first and last excepted. The statutable exercises before admission *ad Respondendum Quæstioni*, are two acts and two opponencies; these in part are sometimes dispensed with, and kept by what is termed huddling.

EXAMINATION FOR THE DEGREE OF BACHELOR OF ARTS.

IN consequence of the great increase in the number of Students in the University, this Examination, which hitherto occupied *five*, is now extended over *seventeen* days. The Moderators having formed the Questionists (this being the appellation of the Students during the last six weeks of preparation) into two alphabetical lists, of Candidates for Honors, and Questionists not Candidates for Honors, these lists are exhibited at Messrs Deighton's shop, previously to the Examination Day.

On the *Wednesday week* preceding the first Monday in the Lent Term, the Candidates for Honors enter the Senate-House a little before nine o'clock; the other Questionists enter the Senate-House on the *following Wednesday morning* at the same hour, preceded by a Master of Arts, who, on this occasion, is styled the Father of the college to which he belongs¹.

The examination of those who contend for *HONORS* then commences, according to the following *NEW REGULATIONS*, confirmed by Grace of the Senate, June 2, 1838.

Plan of Examination for Questionists who are Candidates for Honors.

That there be six days of Examination, commencing on the *Wednesday week* preceding the first *Monday* in Lent Term.

That the same Questions be proposed throughout the examination to all the persons whom the Moderators shall judge, from the public exercises in the Schools, to be qualified for examination as Candidates for Mathematical Honors:

That the examination on the first day extend only to such parts

¹ All the Questionists are required to pay their fees to the Registrar and the Junior Proctor on the Monday or Tuesday preceding the first day of the examination for Honors.

of Pure Mathematics and Natural Philosophy, as do not require the methods of the Differential Calculus;

That on the second and third days the Questions from books include, in addition to the above subjects, the parts of Natural Philosophy somewhat more advanced, and the simpler applications of the Calculus;

That on the fourth and fifth days the Examination extend to subjects of greater difficulty, care however being taken that there be in each paper a due proportion of Questions selected from the lower subjects;

That on the sixth day all the Questions proposed be selected from the higher parts of the subjects of Examination;

That there be not contained in any paper more Questions than Students well prepared have generally been found able to answer within the time allowed for that Paper;

That during the Examination the distribution of the Candidates in the Examination Rooms be left to the discretion of the Moderators:

That the days and hours of Examination be arranged according to the subjoined Plan:

That the Questions proposed on the first four days be fixed upon, and the answers to them examined, by the Moderators and Examiners according to the Plan;

That the Questions proposed on the last two days be fixed upon by the Moderators and Examiners in common; but that the duty of examining the answers to those Questions be apportioned amongst the Moderators and Examiners according to the Plan:

That the result of the Examination be published in the Senate-House on the morning of the Friday succeeding the first Monday in Lent Term, at 9 o'clock; but if it should happen that the relative merits of any of the Candidates are not then determined to the satisfaction of the Moderators and Examiners, that such Candidates be re-examined on that day.

On two pillars at the entrance of the Senate-House are hung the two Lists of the Questionists, one of the candidates for Honors, and the other of the πολλοι, and a paper denoting the hours of examination, of which the annexed is a copy.

In January, 1846, the following addition to the Plan just given will have effect.

1. THAT the Questionists who are Candidates for Honors be required to attend, with the other Questionists, the Examination in Paley's Moral Philosophy, the New Testament and Ecclesiastical History, appointed to take place on the first Monday in the Lent Term and on the following day.

2. That the names of all such Questionists, Candidates for Honors, as shall, in the judgment of the Examiners, have passed their Examination in these subjects with credit, be published, in alphabetical order, by the Proctors, in the Senate House, upon the day of the Bachelor of Arts' Commencement.

IN order to check the practice of Degradation, which has, of late years, been so frequent, a Syndicate was appointed to take the same into consideration, and they made the following Report, which was confirmed by Grace of the Senate, Feb. 27, 1829.

1.—That no person who has degraded, be permitted to become Candidate for University Scholarships or any other Academical Honors during his Undergraduateship, or for Honors in the Mathematical Tripos, unless he shall previously have obtained special permission for so doing, from a Syndicate hereafter to be appointed for that purpose.

2.—That the Syndicate do consist of the Vice-Chancellor, the Public Orator, the Greek Professor, and the two Moderators for the time being, who shall be invested with full power to examine into the cases of applicants for permission to become candidates for Honors after they have degraded, and to grant or withhold such permission, as they may think proper.

3.—That this Syndicate do meet on a certain day in October in each year, of which notice is to be given by the Vice-Chancellor, for the purpose of taking into consideration the cases of applicants; and that all applications be made in writing by the Tutor of the

person or persons making such application, accompanied with certificates of ill health, or such other certificates as he may consider necessary.

The following Report of a Syndicate, appointed to consider of what standing candidates for the degree of B.A. ought to be before they are allowed to be examined for that degree, and also to consider for what period after examination the certificate of approval signed by the Examiners shall remain in force—was confirmed by Grace of the Senate, May 8, 1833:

1.—That no person be admitted on or before Ash Wednesday in the Lent Term of each year, *ad respondendum questioni*, who shall not have been publicly examined at the usual time of examination in the month of *January* of that year, and produce a certificate from the Examiners of examination and approval; except those who in consequence of ill health may, by the permission of the Examiners, have absented themselves from such examination.

2.—That no person be admitted to examination for the degree of B.A. until he has entered into his eleventh term, he having previously kept nine terms exclusive of the term in which he was admitted, and that no certificate of approval, in the case of a person so examined in his eleventh term, shall be valid, unless it shall appear when such person applies for his admission *ad respondendum questioni*, that he has kept the said eleventh term.

SATURDAY MORNING.

Admission of the Questionists.

THIS morning there is a Congregation; the bell begins to ring at nine o'clock, and at ten the whole number of Candidates appear in the Senate-House. Two papers exhibiting a list of the Questionists arranged according to their merits, or seniority, are hung on the pillars for public inspection¹.

One of the Bedells calls up the houses, and the Senior Moderator makes a Latin speech; the Vice-Chancellor sitting in the chair, and the Moderator standing on his left hand.

The Junior Proctor delivers to the Vice-Chancellor the list of Honors and Seniority, subscribed thus "*Examinati et approbati a nobis*;" (*viz.* the Proctors, Moderators, and other Examiners.)

The Caput is then called for passing the supplicats of the Questionists².

The name of each college is written on every supplicat, which is signed by the Prælector or Father of the college.

¹ For the Honors of the present year, see p. 105.

² For a Student of King's College, who undergoes no examination for the Bachelor's degree, but claims it by prescription, no supplicat is offered. A Grace is shewn to the Vice-Chancellor, and read by the Senior Proctor in the Regent-House only.

A certificate is also given to the Caput, signed and sealed by the Master of the college (or his locum-tenens), shewing that each Questionist has kept his full number of terms; and if otherwise, the deficiency is mentioned in the supplicat, and a certificate explaining the cause is delivered to the Caput by the Father. He also delivers a certificate of his having passed *the Previous Examination*.

The Registry shews to the Caput that every Candidate has subscribed that he is *bonâ fide* a member of the Church of England.

If any Questionist have been prevented by *illness* from keeping all his terms, the certificate to be delivered to the Caput is to be in the following form :

I hereby certify to the Senate and University of Cambridge, that Mr A.B., of—College, has been under my care from the —day of—till the —day of—; and that during that time he could not with safety, on account of his health, return to Cambridge.

Witness my hand this — day of —, 18—.

C.D.

(Residence.)

(M.D. or Surgeon.)

The Vice-Chancellor reads the supplicats to the Caput, and on those that are admitted he writes *Ad*.

When they have been all read, one of the Bedells carries them into the Non-Regent House, to be read by the Scrutators; and if all are approved, the Scrutators walk, and the senior says *Omnes placent*. But if any are disapproved of, he says, *A.B. &c. non placent, reliqui placent*.

Those supplicats in which any cause is assigned for not keeping the whole number of terms are read separately; but those which are of the same kind are read together in the usual manner.

The supplicats are then carried into the Regent-House, where the Senior Proctor reads them in the same manner as the Scrutators did in the Non-Regent House. If all are approved of, the Proctors walk, and the Senior says, *Placent omnes; placeat vobis ut intrent*. If any are disapproved of, he says as above.

The supplicats are then delivered to the Registry, who writes on them, *Lect, et conces, die, — Jan—*

In the mean time the candidates put on their hoods over their undergraduate gowns, and the School-keeper gives to each of them a printed copy of the declaration he is to make at his admission.

The Vice-Chancellor takes the chair, and a Bedell having desired the respective Fathers to be in readiness with their Sons, he precedes the Father of the Senior Wrangler (the rest of the Fathers following with their Sons) to the Vice-Chancellor.

The Father, taking the Senior Wrangler by the right hand, presents him in these words:

Dignissime Domine, Domine Pro-Cancellarius et tota Universitas; præsentō vobis hunc juvenem, quem scio, tam moribus quam doctrinā, esse idoneum ad respondendum quæstioni, idque tibi fide meā præsto, totique Academicæ.

The Senior Wrangler then takes the oaths of allegiance and supremacy; and the Senior Proctor (with his colleague standing by him) reads to him the following declaration:

Affirmabis, quod nihil ex iis omnibus sciens volens prætermisisti, quæ per leges aut probatus consuetudines hujus Academicæ ad hunc gradum quem ambis adipiscendum, aut peragendu aut persolvenda requiruntur; nisi quatenus per gratiam ab Academicā concessam tecum dispensatum fuerit.

Dabis fidem quod Cancellario et Pro-Cancellario nostro comiter obtemperabis: et quod statuta nostra, ordinationes, et consuetudines approbatus observabis.

Dabis fidem etiam quod compositionem inter Academicam et Collegium Regale factam sciens volens non violabis.

The Senior Wrangler replies, *Ita affirmo et ita do fidem.*

He then kneels down before the Vice-Chancellor, who, taking his hands between his own, admits him in these words:

Auctoritate mihi commissā, admitto te ad respondendum quæstioni: in nomine Patris, et Filii, et Spiritūs Sancti. Amen.

The Father of King's next presents his Sons: then the Questionists of Trinity and St John's are presented, and after them those of the other Colleges according to the seniority of the Fathers. Four or five are presented at once, the Father saying, *Præsentō vobis hos juvenes quos, &c.*

As they are presented, they are directed by one of the Bedells to the south side of the Senate-House.

When all have been presented, they are divided into parties of ten or twelve; one of each party takes the oaths of Allegiance and Supremacy, and the Senior Proctor administers these oaths to the remainder, saying, *Eadem juramenta, quæ præstitit A.B., in suā personā, vos quoque præstabitis in vestris personis, &c.*

The Senior Proctor then repeats to the whole party the Declaration, *Affirmabis quod, &c.*, and each individual replies in succession, *Ita affirmo et ita do fidem.*

When all have been sworn, and have made the declaration, they are admitted, by the Vice-Chancellor, in the order in which their names stand in the list signed by the Proctors and Examiners.

As the Questionists are admitted, they go to the Sophs' Schools, to answer the question which is asked them by the respective Fathers.

When the admissions are concluded, The Vice-Chancellor dissolves the Congregation.

Bachelors of Arts are called either *Ordinarii* or *ad Baptistam*. The *Ordinarii* are admitted on the Saturday after the first Monday

in Lent Term, or on any day after that Saturday, and not later than Ash-Wednesday. The last day of the admission of *Ordinarii* is Ash-Wednesday. All who are admitted after Ash-Wednesday are called *ad Baptistam*. These lose their year: for example, a Bachelor admitted after Ash-Wednesday in 1840, is a Bachelor of 1841. No person (except an invalid with a certificate from the Examiners) is allowed to take a degree as an *Ordinarius* who has not undergone the general examination in the January of that year: if unsuccessful in that examination, he may be re-examined before Ash-Wednesday; and, if approved, he may be admitted on Ash-Wednesday. Those who are admitted to their degree of B.A. at any other time are said to go out in Bye Term. Their examination takes place in the Moderators' rooms, and is similar to that of the ordinary πολλοι. When "examined and approved" by the Moderators and Examiners their names are arranged alphabetically, and not according to merit. Their seniority is reserved in the class of οἱ πολλοι after those who are admitted as *Ordinarii* of the succeeding year.

IN addition to the Examination previously described, it is also necessary to insert the following Plan of Examination, confirmed by Graces of the Senate, May 28, 1822, and February 13, 1835.

*Plan of Classical Examination after Admission
ad Respondendum Quæstioni.*

1.—On the fourth Monday after the general Admission *ad Respondendum Quæstioni* in January, shall commence an Examination in classical learning of such persons as shall *voluntarily* offer themselves to be examined, provided that every person so offering himself shall have obtained an honor at the Mathematical Examination of the preceding January. Provided also that persons entitled to Noblemen's degrees, shall be competent to offer themselves for the abovenamed Classical Examination, having kept nine terms, and having passed the usual examination before Admission *ad Respondendum Quæstioni* of the preceding January.

The Examination (commencing on the fourth Monday after the general admission *ad Respondendum Quæstioni*) shall continue five days; the hours of attendance on each day being from *Nine* in the Morning till half-past Eleven; and from half-past Twelve till *half-past Three* in the Afternoon.

2.—At this Examination in classical learning, Translations shall be required of passages selected from the *best* Greek and Latin authors, as well as written answers to questions arising immediately out of such passages. No original composition, either in Greek or Latin, shall be required.

3.—The names of those persons who shall pass the Examination *with credit*, shall be arranged in three Classes, according to their respective merits.

4.—To conduct the Examination, four Examiners appointed by Colleges according to the Cycle of Proctors and Taxors, shall be elected by the Senate at the first Congregation after October 10.

5.—Each of the Examiners shall receive £10. from the University Chest.

6.—The foregoing Regulations shall not interfere with the Composition between the University and King's College.

FIRST TRIPOS DAY.

ON the day after Ash-Wednesday, at one o'clock, the bell rings for the first Tripos.

At two, the Vice-Chancellor and the Proctors meet in the vestry of Great St Mary's Church.

The whole company then proceed to the Law Schools; the Vice-Chancellor, preceded by a Bedell, goes into the gallery; the Senior Proctor with a Bedell into the Respondent's seat, and the Junior Proctor into the Opponent's seat.

The Tripos papers containing the names of the Wranglers and Senior Optimes of the year, and two copies of verses, written by two undergraduates whom the Proctors choose to honor on this occasion, are distributed among the undergraduates and the company present.

A Bedell reads from a Tripos paper :

Baccalaurei quibus sua reservatur Senioritas Comitibus prioribus.

He then pronounces the name and college of the Senior Wrangler, to which the Junior Proctor answers :

Nos reservamus ei Senioritatem suam.

To the second the Junior Proctor answers, *et ei*, and so on to all the names on the Tripos paper.

When all the names are read, the Junior Proctor says :

Nos continuamus hanc disputationem in horam primam diei Jovis post quartam Dominicam hujus Quadragesimæ.

SECOND TRIPOS DAY.

THE second Tripos is on the Thursday after Midlent Sunday ; the bell begins to ring at one. The Moderators, dressed in the Proctors' Congregation habits, meet the Vice-Chancellor in the vestry of Great St Mary's church at two o'clock, and from thence proceed to the Law Schools. The Vice-Chancellor, preceded by a Bedell, goes into the gallery; the Senior Moderator, with a Bedell, into the Respondent's seat; and the Junior Moderator into the Opponent's seat.

The Tripos papers, containing a list of the Junior Optimes of the year, and two copies of verses, written by two undergraduates at the request of the Moderators, are then distributed amongst the undergraduates and company present.

A Bedell reads from a Tripos paper, *Baccalaurei quibus sua reservatur Senioritas Comitibus posterioribus.*

He then reads the name and college of the first Bachelor, and the Junior Moderator answers, *Nos reservamus ei Senioritatem suam.*

To the second, the Junior Moderator answers, *et ei*, and so on, as in the first Tripos.

When all the names have been read he says:

Reliqui (i. e. the *οι πολλοι*, &c.) *petant Senioritatem suam e Registro.*

And lastly, *Auctoritate quâ fungimur, decernimus, creamus et pronunciamus omnes hujus anni determinatores, finaliter determinasse, ET ACTUALITER ESSE IN ARTIBUS BACCALAUREOS.*

INCEPTORS IN ARTS, ON THE DAY AFTER THE SECOND TRIPOS.

On the Friday morning following the second Tripos, the bell begins to ring at nine o'clock, for a Congregation *ex statuto*.

The Caput is called, and the several Fathers deliver to the Vice-Chancellor the supplicats of all those whose graces have passed in their respective Colleges for Inceptors in Arts.

Graces of Inceptors (being Fellows of King's,) are not presented to the Caput, but merely shewn to the Vice-Chancellor, and read in the Regent House only.

They are admitted to their degree at the *same* Congregation.

The Registry having shewed to the Caput, that each Inceptor has subscribed to the 36th Canon, the Vice-Chancellor reads the supplicats, and writes *Ad.* on all that are approved.

The Bedell takes them into the Non-Regent House, where they are read by the Senior Scrutator; and then into the Regent House, where they are read by the Senior Proctor.

If there be no other business, the Vice-Chancellor continues the Congregation to one o'clock of the same day.

The bell begins to ring at one, and the Senate meet at two.

Previously to the second Congregation, the Bedells have written the Names and Colleges of all the Inceptors on a sheet of paper, and against every one,

{ *placet*..... —
 { *non placet*..... —

At the bottom of the paper is written,

omnes { *placent* —
 { *non placent* —

At the Second Congregation the Supplicats are carried to the Scrutators, to be read a second time in the Non-Regent House.

When all have been read, a Bedell calls *ad Scrutinium*.

If all be approved, the two Scrutators and another Non-Regent mark the affirmative line against the word *placent*, whilst the Bedell calls at intervals, *Ad Scrutinium secundo—Ad Scrutinium ultimo—cessatum est a Scrutinio.*

The Senior Scrutator then says, *omnes placent.*

But if any Supplicat be objected to, by one or more persons saying *non placet* when that Supplicat is read, the Scrutators must take the votes by *placet* and *non placet*.

If the *non placets* be greater than, or equal to, the *placets* in number, the Supplicat is lost; and the Senior Scrutator says, *A. non placet; reliqui placent.*

If more than one person's Supplicat be objected to, the votes for each, to which an objection is made, must be taken in the same manner.

The Bedell takes the Supplicats to be read in the Regent-House by the Senior Proctor; and they are put to the vote precisely in the same manner as in the Non-Regent House, the Vice-Chancellor and the two Proctors standing in Scrutiny.

The Senior Proctor (the Junior standing by him) pronounces the scrutiny by saying *omnes placent*, or, (if any one have been rejected) *A. non placet; reliqui placent.*

The Vice-Chancellor then dissolves the Congregation.

The Inceptors, whose Supplicats have passed, ask leave of the Vice-Chancellor, as he quits the Senate-House, to proceed.

ADMISSION OF INCEPTORS IN ARTS.

THE Congregation for this purpose is on the Friday following at ten o'clock.

The bell begins to ring at nine.

The Bedells have prepared a Scrutiny paper in the following form:—

A.	{	<i>scio</i>	—
		<i>credo</i>	—
		<i>nescio</i>	—
B.	{	<i>scio</i>	—
		<i>credo</i>	—
		<i>nescio</i>	—

At the bottom is written,

<i>omnes</i>	{	<i>scio</i>	—
		<i>credo</i>	—
		<i>nescio</i>	—

As soon as the Senate is assembled, the Proctors go to their place, and the Senior reads from a paper prepared by the Registrar,

Placeat Vobis, ut omnes Inceptores, quibus Gratia à vobis nuper concessa fuit ad visitandum, bonâ vestrâ cum veniâ, intrent.

When this is granted, a Bedell desires the Fathers to assemble their respective Sons, who have previously received copies of their Admission Oath from the School-keeper, and have put on the Bachelor's hood over the Bachelor's gown.

The Senior Father, following the Bedell, presents four or five of his Sons at a time (holding their right hands in his own) to the Vice-Chancellor sitting in the chair, in these words:

Dignissime Domine, Domine Pro-Cancellarie, et tota Universitas, præsentò vobis hos Viros, quos scio, tam moribus, quan

doctrinâ esse idoneos ad incipiendum in Artibus; idque tibi fide meâ præsto, totique Academicæ.

The rest of the Fathers according to their Seniority, present their Sons, in the same form; and as they are presented they go to the south side of the Senate-House. When all are presented, they take the Oaths of Allegiance and Supremacy, and the Oath of Admission is administered to them by the Senior Proctor.

Jurabis, quod nihil ex iis omnibus sciens volens prætermisisti, quæ per leges aut probatas consuetudines hujus Academicæ ad hunc Gradum quem ambis adipiscendum, aut peragenda aut persolvenda requiruntur; nisi quatenus per Gratiam ab Academiâ concessam tecum dispensatum fuerit.

Jurabis etiam, quod Cancellario et Procancellario nostro comiter obtemperabis: et quod statuta nostra, ordinationes, et consuetudines approbatas observabis.

Denique jurabis, quod compositionem inter Academicam et Collegium Regale factam sciens volens non violabis: Et quod in Bibliothecam publicam et Museum Honoratissimi Domini Vice-Comitis Fitzwilliam admissus, jure isto tuo ita uteris, ut, quantum in te est, nihil inde detrimenti capiat vel Bibliotheca, vel Museum prædictum: in hæc autem verba jurabis, secundum tenorem Senatus-consulti in cautelam jurantium facti.

Ita te Deus adjuvet, et Sancta Dei Evangelia.

The Vice-Chancellor and Proctors then stand in scrutiny of

{	<i>scio</i>	—
	<i>credo</i>	—
	<i>nescio</i>	—

and if the Scrutators be unanimous in approving all the Candidates, they mark either the *scio* or *credo* line.

Then one of the Bedells precedes the Candidates round the chair, and in passing they bow to the Vice-Chancellor and Proctors.

The Bedell calls the name of each Inceptor.

The Inceptor then kneels down before the Vice-Chancellor, who, taking both his hands between his own, admits him in the following words:

Auctoritate mihi commissâ admitto te ad incipiendum in Artibus, in nomine Patris, et Filii, et Spiritûs Sancti.

If on the incepting day there be any Candidates for the degree of Master of Arts, who were of sufficient standing to have taken their degree before the incepting day, they are to be *admitted* at the second Congregation, observing the same forms as the Inceptors.

Degrees of NOBLEMEN, and of those who proceed to their Degrees 'tanquam Nobiles.'

By an interpretation made May 31, 1786, it was determined that the following persons are entitled to Honorary Degrees: viz.

1. Privy Counsellors,
2. Bishops.

3. Noblemen :—Dukes, Marquisses, Earls, Viscounts, Barons.
4. Sons of Noblemen.
5. Persons related to the Sovereign by consanguinity or affinity : provided they be also Honourable.
6. The eldest sons of such persons.
7. Baronets, }
8. Knights, } to the degree of M.A. only.

By a Grace of the Senate, passed March 18, 1825, all the above persons (before they are admitted to any degree) are to be "examined and approved" of, in the same manner as others who are admitted *ad Respondendum Quæstioni*; but they have the privilege of being examined after they have kept *nine* Terms, the first and last excepted. They are then entitled to the degree of Master of Arts.

Though no person can claim a degree in right of Nobility, who has not previously undergone the usual examination, yet the University sometimes confers degrees, without either examination or residence, on such individuals of mature age, as are illustrious, not on account of their birth only, but also for the services they have rendered to the State, or to Literature.

No person taking a degree in right of Nobility, is entitled to a vote, unless he shall previously have resided three Terms.

PROCEEDINGS IN DIVINITY¹.

THE following brief account of the state of Theological Instruction, was given in a Report made in March, 1842, to the Senate by a Syndicate appointed to consider what steps should be taken to provide a more efficient system of instruction in that department of study.

IN the Previous Examination and in the Ordinary Examination for the B.A. degree, the University requires an acquaintance with one of the Gospels, of the Acts of the Apostles in the original Greek, with Paley's Evidences and Paley's Moral Philosophy.

The other encouragements and aids to Theological studies offered at present by the University (in addition to what is done by Lectures, Examinations, Prizes, &c. in the several Colleges) consist of,

The Examinations and Disputations conducted by the Regius Professor of Divinity in order to Divinity degrees: (see Note A.)

The Lectures of the Lady Margaret Professor of Divinity: (see Note B.)

The Lectures of the Norrisian Professor of Divinity: (see note C.)

¹ All Masters of Arts who do not declare for Law or Physic within four years after the completion of their M.A. degree, are considered as be- longing to the Divinity line, and are not allowed to proceed either in Law or Physic.

The Lectures of the Knightbridge Professor of Moral Theology: (see Note D.)

The Lectures of the Regius Professor of Hebrew;

The three Crosse Theological Scholarships:

The six Tyrwhitt Hebrew Scholarships:

The prize (occasionally given on the Tyrwhitt bequest) for a Dissertation on some subject connected with Hebrew Literature:

The Prize for the Hulsean Dissertation: (about £100.)

The Prize for the Norrisian Dissertation (£12.)

NOTE A.

The superintendence of all Exercises, required for the degrees of Bachelor and Doctor in Divinity, is committed to the Regius Professor of Divinity; who also is much engaged in Examinations more or less connected with Theological studies.

NOTE B.

Memorandum of the Lectures delivered by the Lady Margaret Professor since his election in 1839.

I. On the *Early Fathers*:

Introductory Lectures shewing, 1st, from her express declarations, and 2dly, from her structure and services, the regard the Church of England pays to early antiquity:

On the Apostolical Fathers; (the Lectures on Ignatius prefaced by an abridgment of Bishop Pearson's *Vindiciæ Ignatinæ*;) On Justin Martyr; Tatian; Athenagoras; Theophilus; and Irenæus; the last, now in the course of delivery.

The object of these Lectures is to put the hearers eventually in possession of a knowledge of all the Fathers of the first three centuries: The plan, has been to go through each Father in detail; to give the substance of the author, where more than his did not seem necessary; to translate at full and explain, where a passage was remarkable; and lastly, to sum up the whole (with references) under several heads, such as Evidences, Canon of Scripture, Interpretation of Scripture, Sacraments, Ecclesiastical discipline and polity, Points of controversy with Rome, Classical illustrations, &c.

When the course is completed, it may be adjusted to the period of an undergraduate's residence in the University: meanwhile, parts of it are repeated, and advances made in it every year.

II. A Course of practical Lectures on *the acquirements, and principal obligations and duties of the Parish-Priest*:

Introductory Lecture on the ministerial character of St. Paul:

On the Reading of the Parish-Priest; (advising, (1), the study of the Scriptures in the original languages, with examples of the advantage of this, and other hints for reading them; (2), the study

of the Fathers of the first three centuries, with illustrations of the benefit to be derived from this study; (3), the study of the English Reformation in the documents set forth seriatim by the Reformers; a list of these given, with remarks on each: The whole intended to put the students on applying themselves to original authorities, as the sources of sound knowledge, and to divert them from such as are only secondary and derivative:) On the composition of Sermons: On Schools, Sunday and Daily; the method of establishing, maintaining, and conducting them: On Parochial Ministrations, especially visiting the sick: On ordinary Pastoral Intercourse: On the observance of Rubric and Canons: on the general Rule by which the Parish-Priest should be guided.

The Margaret Professor proposes to deliver this latter series of Lectures, with such alterations or additions as may suggest themselves, every second or third year, so that all students intended for Holy Orders may have an opportunity of hearing them.

NOTE C.

Outline of the Lectures delivered by the Norrisian Professor since his election in 1838.

I. The provision made by the Church of England for securing in Candidates for Holy Orders

Occasion is taken to explain what is implied in subscription to Articles of Religion generally—and in subscription to the Three Propositions contained in the 36th Canon particularly—references being at the same time given to Authors who have treated of these several subjects.

In the discussion of these several subjects references are given to such writers as treat of them respectively.

Besides the several topics which have been thus recited, it should be borne in mind that the main outlines of the Evidences and Doctrines of Christianity are discussed in such portions of Pearson on the Creed as are read and commented upon in the course of the Lectures.

NOTE D.

The Professorship of "Moral Theology or Casuistry," founded by Dr. Knightbridge, is considered by the present holder of it as a Professorship of Moral Philosophy. During the last three years, he has delivered three courses of Lectures upon the History of Moral Philosophy, especially its history in England since the Reformation. During the present year he is delivering a course of Lectures on the difficulties which attend the formation of a system of morality, and the mode of overcoming them.

Judging from the information received from the Professors and Examiners, the Syndicate consider that the amount of the attendance at the Lectures of the Professors, the number of competitors for the above-mentioned Scholarships and Prizes and the proficiency in Theological learning exhibited by those competitors, prove that the existing requirements together with the encouragements and aids above referred to are, to a very considerable extent, efficacious towards the end for which they were designed.

The Syndicate, bearing in mind the Theological knowledge at present required, and the encouragements and aids to Theological studies already afforded both by the University and by the severa

Colleges, and being anxious that whatever might be adopted, with a view to the farther advancement of Theological learning amongst the younger students of the University, should be founded on the methods of instruction already established, recommended *four* plans of Examination, three of them having reference to students before admission *ad respondendum quæstioni*; the fourth to a subsequent period in the course. These plans were adopted by the Senate, May 11, 1842; and are inserted at p. 12.

IN the Michaelmas Term, 1846, the following plan will be brought into action.

PLAN of THEOLOGICAL EXAMINATION for Students who shall have been admitted *ad respondendum quæstioni*.

1. In the first or second week of the Michaelmas Term of each year, there shall be an Examination in the Greek Testament, assigned portions of the Early Fathers, Ecclesiastical History, the Articles of Religion and the Liturgy of the Church of England; which Examination shall be open to all students who, having at any time been admitted *ad respondendum quæstioni* in conformity with the preceding regulations, shall present themselves to be examined.

2. The Examination shall be conducted by the Regius and Lady Margaret Professors of Divinity; or, in case of the illness or unavoidable absence of either or both of them, by some Member or Members of the Senate, nominated by either or both of the Professors, and confirmed by Grace of the Senate.

3. The names of those students, who shall have passed their Examination to the satisfaction of the Examiners, shall be published in alphabetical order, and registered in the usual manner.

4. Immediately after each such Examination, a portion of the Hebrew Scriptures shall form the subject of a new Examination, for such students as, having their names published as above mentioned, shall offer themselves to be examined.

5. The Examination in the Hebrew Scriptures shall be conducted by the Regius Professor of Hebrew; or, in case of his illness or absence, by some Member of the Senate, nominated by him, and confirmed by Grace of the Senate.

6. The names of the students, who shall have passed their Examination in the Hebrew Scriptures to the satisfaction of the Examiner, shall be published and registered in the manner already described.

7. Public notice of the days of Examination and also of the portions of the Early Fathers and of the Hebrew Scriptures, assigned for the aforesaid Examinations in the Michaelmas Term of any year, shall be given in the first week of the Lent Term immediately preceding.

This Examination will be open to students in the Civil Law, on producing certificates, from the Regius Professor of the Civil Law, or his Deputy, of their having performed the Exercises required for the degree of Bachelor in that Faculty.

In the mean time, the Regius and Lady Margaret Professors of Divinity and the Regius Professor of Hebrew, will commence in the Michaelmas Term of 1843, and continue in the corresponding Term of each of the two following years, Examinations somewhat similar to those proposed in that plan.

A Master of Arts must be of at least seven years' standing before he can be admitted to the Degree of Bachelor in Divinity: for which degree the requisite Exercises are, one Act, two Opponencies, a Latin Sermon (*Concio ad Clerum*), and an English Sermon. The Act cannot be kept by a Master of Arts of less than four years' standing: the other Exercises may be kept at any time after the Degree of Master of Arts has been completed.

A Master of Arts, proceeding in this faculty, calls upon the Regius Professor of Divinity, for his approbation of the Question for his Act; on which Question a Latin Thesis must be written.

A second Question is given by the Professor; who also appoints the day on which the Act is to be kept.

A copy of these Questions is to be left with the Vice-Chancellor, the Senior Doctor in Divinity resident in the University, and the Regius Professor of Divinity.

Eight days, at least, before the Act is to be kept, three copies of the Questions are to be delivered to a Bedell, for the Opponents; and one copy to the University Marshal, to be affixed to the School-doors.

The Act commences, in the Divinity Schools, a quarter before two o'clock. The Professor having addressed the Respondent with the words "*Agas Domine*"—the Respondent begins with the following prayer:

Actiones nostras singulas, Domine, clementissimo tuo favore præveni, et perpetuo auxilio prosequere, ut in omnibus operibus nostris in te inceptis, continuatis et finitis, sanctum tuum nomen glorificemus, et tandem miseratione tuâ vitam æternam consequamur per Jesum Christum Dominum nostrum. Amen.

The Respondent then states his two Questions; and reads a Thesis, which lasts about half an hour, upon the first. After this, the Opponents are in succession called up by the Professor; who, at the close of the Disputation, reads a *Determination* upon the second Question.

The regular time for proceeding to this Degree, in the case of a Master of Arts of seven years' standing, is on the eleventh of June. Masters of Arts of more than seven years' standing may be admitted on other days. For this Degree two Congregations are required; at which the Candidate must be present, in his gown and cassock, and a black hood.

BACHELOR IN DIVINITY, *by the 9th of ELIZABETH.*

A person, having been admitted of any college after the age of twenty-four years, and having continued a member for ten years at the least, during the last two of which he has resided in College the greater part of three several Terms, may proceed to the Degree of Bachelor in Divinity. The Exercises to be performed in this case are precisely the same as those required of a Master of Arts. The Candidate is moreover examined by the Regius Professor of Divinity, for the purpose of ascertaining whether he has complied with the provisions of the Statute, and actually devoted himself to the study of Theology.

It is recommended to all persons who intend to proceed to the Degree of Bachelor in Divinity under this statute, to call upon the Regius Professor of Divinity, at the commencement of their residence in the University, in order that due arrangements may be made for the performance of the requisite Exercises.

A Doctor in Divinity must be a Bachelor in Divinity of five, or a Master of Arts¹, of twelve years' standing. The exercises are one act, two opponencies, a clerum, an English sermon, and a determination.

PROCEEDINGS IN THE CIVIL LAW.

PREPARATORY to the Degree of Bachelor in the Civil Law, a student is obliged to pass the *Previous Examination*; to attend the Lectures of the Professor for the space of three terms; and to be examined by the Professor; and after four years' standing, and a residence of nine terms, he may keep his Act². Prior to this exercise, he carries his Questions to the Vice-Chancellor for his approbation; after which they are affixed to the door of the Lecture-room under the Public Library.

FORM of a Notice for an Act.

Q. S.

*Bonâ fide possessor fructus percipiendo suos facit.**Legatarius in Testamento Testis esse potest.**Coll.—4to die Maii.**A. B. Resp.*

The first question is proposed by the Respondent, the second by the Professor.

On the day of the Act, the University bell begins to ring at One in the afternoon, and twenty minutes before Two, the Respondent is waited on by a Bedell who precedes him to the Law Schools, followed by the Father and other members of his College. During this procession, the Respondent walks with his cap off, and on arriving at the Schools, he ascends a rostrum opposite the Professor.

¹ When a Master of Arts takes a Doctor's degree in any of the three faculties, he is said to graduate *per saltum*, though properly the phrase belongs only to the degree of D.D.

² Zouche's or Vinnius's Questions deserve to be consulted by a person preparing for this Act, as also the Commentaries of Vinnius and Voet.

The Professor in his robes preceded by a Bedell, then takes the chair, and the Father, seated in the Opponent's rostrum, directs the Respondent to begin—"Agas Domine."

The Respondent then commences his Exercise by reading a Latin dissertation, which occupies about half an hour on the first question. The arguments against both the questions are then propounded in syllogistic form, by a candidate for the degree of LL.D., or more usually by the Professor.

The disputation having thus proceeded for an hour, the Professor gives the Respondent an appropriate honour. The exercise then concludes with the Professor's determination upon the second question.

The Habit worn by the Respondent in the Schools, and by the candidate in both Congregations, is a full-sleeved gown, and a Bachelor of Arts' hood.

At the expiration of six years, the supplicat and the certificates of standing, residence, attendance on the Professor's Lectures, having declared for Law, and passed the Previous Examination, are presented to the Caput, and the supplicat is afterwards read in both Houses. At the next Congregation, after the supplicat has again been read, and approved in both Houses, the Candidate is admitted to the degree of Bachelor in the Civil Law.

A Bachelor of Arts of four years' standing may be admitted to this degree. His exercise is one Act, and he is not required to attend the Professor's Lectures.

Every candidate for LL.B., or LL.D., pays to the Professor £7. 7s. for each Act.

A Doctor in the Civil Law must be of five years' standing from the degree of LL.B., or a Master of Arts of seven years' standing¹. The exercises are two acts and one opponency.

PROCEEDINGS IN PHYSIC.

M. B.

A STUDENT before he can become a Bachelor of Physic must have entered on his sixth year, computed from the date of his first admission at the University (Stat. Reg.), have resided nine terms (Decree of Heads, 1684), and have passed the Previous Examination (Grace of the Senate, March, 1822).

A Bachelor of Arts may become a Bachelor of Physic after having entered on his sixth year, computed from the date of his first admission at the University, provided that one year at least has intervened between his final determination in Arts and his admission to the Degree of Bachelor of Physic (Graces, Dec. 1819, and June, 1821).

The Exercises for this Degree are one Act and one Opponency (Stat. Reg.).

¹ A Master of Arts is required to declare himself a student in the Civil Law within four years of his inauguration, in order that he may be a candidate for the degree of Doctor in the faculty.

Candidates for the Degree of Bachelor of Physic must previously to the performance of these Exercises, in addition to the Examination by the Regius Professor of Physic, be examined by the Professors of Anatomy, Chemistry and Botany, and the Downing Professor of Medicine. This Examination may take place any time in the fifth year after admission, but not earlier. (Grace, Feb. 1829). They must have diligently attended the Lectures of the Regius Professor of Physic for two Terms, (Graces, June, 1821; April, 1841), and must bring to him Certificates of Examination by the above Professors, and of attendance on their Lectures, in case the Course of Lectures of the Professor of Botany consist of not less than twenty Lectures, and the Courses of Lectures of the Professors of Anatomy and Chemistry, and of the Downing Professor of Medicine, of not less than fifty Lectures each, (Grace, Feb. 1829). They must also deliver to the Regius Professor of Physic Certificates of having been diligently employed in attendance on Medical Lectures and the Practice of some well-known Hospital for two years, or for as long a time as they have been absent from the University during their Undergraduateship (Grace, March, 1834).

L. M.

A Licence *ad practicandum in Medicina* may be granted to a Bachelor of Physic in the term subsequent to that in which he has taken the Degree, (Grace, March, 1834); or to a Master of Arts of two years' standing.

Candidates for a Licence *ad practicandum in Medicina*, being previously Bachelors of Physic, are required to produce to the Regius Professor of Physic Certificates of their having attended on Hospital practice for three years exclusive of the nine Terms which they kept by residence for the Degree of Bachelor of Physic, and of their having attended Lectures on the following subjects; namely;

Practice of Physic and Pathology.
Anatomy and Physiology.
Chemistry.
Botany.
Medical Jurisprudence.

Materia Medica and Pharmacy.
Principles of Surgery.
Principles of Midwifery.
Practical Anatomy for two seasons. (Grace, April, 1841).

Candidates for a Licence *ad practicandum in Medicina*, being previously Masters of Arts, are required to bring satisfactory evidence to the Regius Professor of Physic of their having been employed in the study of Physic for five years after they became Bachelors of Arts; and to produce to him Certificates of their having attended on Hospital practice for three of the said five years, and of their having attended Lectures on the subjects before mentioned. (Grace, April, 1841).

Every Candidate for a Licence *ad practicandum in Medicina* is required to pass an Examination to the satisfaction of the Regius Professor of Physic, the Professor of Anatomy, the Downing Professor of Medicine, and a Doctor of Physic to be nominated by the Vice-Chancellor and approved by the Senate at the first Congregation after the tenth of October in each year. (Grace, April, 1841).

There are two such Examinations in every year; one in the week immediately preceeding that in which the division of the Michaelmas Term falls; the other in the week immediately preceeding that in which the division of the Easter Term falls. (Grace, April, 1841).

A Candidate for a Licence *ad practicandum in Medicina*, being previously Bachelor of Physic, cannot be examined for the said Licence until the Examination which shall occur next but one after his having passed the Examination required for the Degree of Bachelor of Physic. (Grace, April, 1841).

M. D.

The Degree of Doctor of Physic is granted to a Bachelor of Physic of five years, or to a Master of Arts of seven years' standing. (Stat. Reg.)

The Exercises for this Degree are two Acts and one Oppnency. (Stat. Reg.)

Every Candidate for the Degree of Doctor of Physic, who has not previously obtained a Licence *ad practicandum in Medicina*, is required to produce to the Regius Professor of Physic the same Certificates and pass the same Examination as are required in the case of Candidates for a Licence *ad practicandum in Medicina*. (Grace, April, 1841).

In the Medical Act there are two Questions or Subjects for discussion (Quæstiones); the first is proposed by the Respondent, or person who keeps the Act, and submitted to the Professor for his approbation; the second is appointed by the Professor. One copy of these Questions is to be left with the Vice-Chancellor, another is to be left with the Professor, and a third copy is to be delivered to the University Marshal, who affixes it on the School-door at least three days before the Act is kept, and also gives notice to the Senior Bedell.

Q. S.

I. *Ex Rerum Vitiis oritur Diabetes.*

II. *Actio Vomendi a Musculis abdominis perficitur.*

Coll.— die 6 Jun.

A. B. Resp.

On the day of the Act the proceedings are similar to those described under the head of "Proceedings in the Civil Law." (p. 39.)

The Candidate for the M.B. degree wears a full-sleeved gown and Bachelor's hood, but if previously B.A. he wears the Bachelor's gown and hood.

The Candidate for the M.D. degree wears the Master's gown and black hood.

After the Respondent has read his thesis the Father of the College leaves the rostrum, and the Professor calls up the Opponent, who is a Candidate for the same degree.

The Opponent, who wears the same habit with the Respondent, then brings forward the arguments, three against the first Question and two against the second.

In case there should be no Opponent, the Arguments are propounded by the Professor.

After the disputation is ended the Professor reads a determination upon the second Question.

Every Candidate for M.B. pays the Professor for his Act £7, and for M.D. £11. 11s. for the two Acts.

If on or before the first of February in his fourth year, the candidate for LL.B. or M.B. does not declare, in writing, to the Master of his college, that it is not his intention to proceed to B.A. he forfeits £3 to the University Chest, over and above the usual fees; and if *after* this declaration he proceeds to B.A. he also pays £3 extra to the Senior Proctor.

A Bachelor in Music must enter his name in some college, and compose and perform a solemn piece of music, as an exercise, before the University.

A Doctor in Music is generally Mus. B., and his exercise is the same.

COMPOUNDERS.

ALL persons are reputed and reckoned Compounders, who, before admission to their degree, have presentation to, collation, institution, induction, or any manner of possession of, any Living or Livings Ecclesiastical, of what kind soever, which are rated (even though discharged) to the yearly value of £26. 13s. 4d. in the King's Books.

Every person, who is admitted to any degree, must if he be a Compounder, pay over and above the usual fees, the sum of £8. 6s. 4d.

Endowed Chapels, or other Ecclesiastical preferment not in the King's Books, are rated according to their real value.

Also any estate, annuity, or certain income for life, by whatever tenure possessed (except University, or College income) whether in the person's own right, that of his wife, or any other person, if of the annual amount of £26. 13s. 4d. makes a Compounder.

Ten-year men B.D. and persons taking a degree *per saltum* if Compounders, pay the Composition money for the degree, or degrees, passed over, as well as for that taken.

N.B. Every person, before admission to his degree, makes oath that he has not omitted to *pay* any of the fees required of him by the Statutes of the University.

CAUTION FOR EXERCISES.

THE University Statutes require certain exercises (as appears under the head Terms and Exercises) to be performed for the several degrees, which are sometimes granted to *non-gremials* with the omission of part, or of the whole, but with this condition, that they shall be performed within the following Term. The party deposits, as a pledge, the undermentioned sums with the Vice-Chancellor, which, on non-performance of the exercises, are forfeited to the University Chest:

WITH THE NAMES OF

THE MODERATORS OF THE RESPECTIVE YEARS.

ON the Tripos papers originally published, the names of the Honors, till the year 1755, seldom appeared; and in the Registry's book, where all degrees, in the order of seniority, are inserted, no mark of distinction was ever observed, previous to that time, between the Wranglers and the Senior Optimes.—As it was formerly the custom for the Vice-Chancellor and Proctors to confer Honorary Senior Optimes, a mark of distinction not then unfrequently conferred upon Wranglers, the regular order of previous years cannot be precisely ascertained, especially as these Honorary degrees were placed *ad libitum*. The years 1752 and 1753 are copies from the Registry's book of Entry. The year 1754 was arranged according to the wrangling paper. The custom of conferring Honorary Senior Optimes has for some years past been abolished.

The Chancellor's Medals were first instituted in 1752; (A) denotes senior, (B) junior.

Dr Smith's Mathematical Prizes were founded in 1769; (1) denotes senior, (2) junior.

The *Classical* Tripos was instituted in 1824; α affixed to a name in the *Mathematical* Tripos denotes that the person was in the first class of the Classical Tripos, β in second, γ in the third.

At the time of election, the two Proctors, and the junior D.D. present, stand in scrutiny with the Vice-Chancellor, who is the returning officer. Each of the two Colleges nominates one person. The person nominated may be a Regent or Non-Regent Master of Arts. If he be a Regent he must be in the third year of his Regency at least.

He must be presented to the Vice-Chancellor, in the presence of the Registrary, by the head of his College, or by some one in his name, before the 1st day of August.

When the Lectureship becomes vacant, the same person may be re-elected, but this ceremony is generally dispensed with, and the Professor continues in his office as before. When, however, an election does occur, the electors are, the Chancellor, or Vice-Chancellor, Doctors, Inceptors, and Bachelors in Divinity, who have been Regents in Arts. DR GELDART'S LECTURES.

THE Queen's Professor of the Civil Law, wishing that the system which he has always endeavoured to maintain should be more generally known, and that Persons desirous of proceeding in his Faculty should more accurately understand the course of study they are required to pursue, calls the attention of Students to the following regulations.

1. The Lectures in the Civil Law commence in the Michaelmas Term, and are continued during the Lent and Easter Terms: and it has always been the wish of the Professor that all persons desiring to proceed in his faculty should begin to attend his Lectures at the commencement of the course in their second year¹. It is essential that all candidates for the first class should commence their studies at that time.

2. According to a Statute of the University, no student can be presented to the degree of Bachelor in the Civil Law without a certificate from the Professor that he has attended his Lectures for the space of three terms: and as the Course commences in Michaelmas Term, the Professor has always required such terms to be Michaelmas, Lent, and Easter consecutively. If any person be prevented from beginning his attendance on the Lectures in the Michaelmas Term of his second year, the Professor still recommends him to attend during the other terms, as such Lectures (though they cannot form part of the course) will be allowed to supply any *unavoidable* deficiency in the succeeding year.

3. All persons desirous of being candidates for the first class must (unless under very peculiar circumstances) pass their first two examinations² in the Easter Term immediately following the Lent Term in which they have passed the (University) Previous Examination.

4. *Candidates for the first class*³ are expected to be prepared in the whole of the Analysis of the Civil Law; and *every Student* is expected to pass a satisfactory examination in the whole of the first book of the Analysis, Chapters 1, 2, 5, 6, 7, 8, 9 and 21 of the second book, and Chapter 10 of the third book⁴.

¹ For the exercises to be performed for Degrees in the Civil Law, see proceedings in the Civil Law.

² Dr Geldart upon his appointment instituted an examination in the subjects of his lectures, and all persons who have since been candidates for the degree of LL.B. have been examined previously to performing the public exercise in the Schools.

³ For the Civil Law Classes, see page 107.

⁴ Of the books prefixed to each chapter of the Analysis the following are absolutely necessary to be in the possession of every student:

Corpus Juris Civilis,
Justiniani Institutiones, 4to by Dr Harris,
Taylor's Elements of the Civil Law,
Hoececcii Antiq. Rom. Syntagma,

Heineccii Elementa Juris Civilis,
Vinnii Comment. in quatuor libros Institutionum.

Bura's Ecclesiastical Law,
Blackstone's Commentaries.

The candidate for the first class will consult the other books according to the progress he makes in the science.

The Professor has been accustomed to recommend the student to commence his reading with

(1) The Preface of the Analysis,
(2) Taylor's Introduction,
(3) Bura's Preface,
(4) The Introduction of Blackstone.

Translations from Latin into English and from English into Latin form part of every examination.

5. No student can be considered as qualified for the first class, unless he has passed the examinations required of *every student* in such a manner as to entitle him to that privilege.

6. Any student who has not passed an examination in a satisfactory manner will be re-examined in a subsequent term.

7. No person who has been re-examined can be placed in the first class.

8. No student (unless under peculiar circumstances) can be allowed to attend more than three examinations in any one term.

9. The Act is not kept till the student has, in some previous terms, passed all the necessary examinations in the subjects of the Lectures. And during the term in which the Act is to be kept, there is an examination in Logic and in the subjects of the *Responsio*.

The Lectures are read in the Law School, and the usual hour is from ten to eleven in the morning. The terms of attendance are five guineas for the first course, afterwards *gratis*. The plan of these lectures may be seen in a work, entitled, "*An Analysis of the Roman Civil Law*," in which a comparison is occasionally made between the Roman Laws and those of England, by Samuel Hallifax, late Lord Bishop of St Asaph, and formerly King's Professor of the Civil Law in this University, of which Dr Geldart published a new edition with alterations and additions, in 1836.

CHEMISTRY.

FOUNDED by the UNIVERSITY, 1702.

THE Professors, previous to the year 1773, were elected by a Grace of the Senate; but there being several competitors for the office at that time, this mode of election became impracticable; and, as it appeared that no adequate provision had been made for such cases, it was decided that the election should, on that occasion, be "*more burgensium*:" by a Grace dated 24th October, 1793, it was determined that all subsequent elections to this Professorship should be in the same manner.

The salary is £100 per annum, which is paid by the Lords Commissioners of her Majesty's Treasury, on exhibiting a certificate of the delivery of a Course of Lectures.

It appears, by the Graces appointing the first Professors, that a house and apparatus were attached to this Professorship: but there is now no house nor apparatus exclusive of what is the private property of the Professor.

The late Professor having represented to the University, that the income of the Professorship offered no adequate remuneration for the increased labours occasioned by the superintendence of the Observatory, a Grace of the Senate was passed Feb. 27, 1829, for granting annually to the Professor from the Common Chest (by Grace), such a sum as would raise the income of the Professorship to £500 per annum.

THESE Lectures are given in the Lent Term, and the object proposed by them, is to make students acquainted with the present state of the science of Astronomy, and with the practical methods of observation, which are commonly followed in modern Observatories; the most important astronomical instruments or models of them are exhibited, and the use of them explained, either in the Lecture-room, or at the Observatory. As this Professorship was designed by the Founder to comprehend Geometry as well as Astronomy, it is hereafter intended by the present Professor, to give Lectures alternately on Astronomy, and on Geometry, and the general principles of Mathematical reasoning.

MINERALOGY.

THIS Professorship was founded by the UNIVERSITY in the year 1808, and afterwards endowed by Government with a Salary of £100 per annum.

Lectures had been given by Dr Clarke for two years prior to the establishment of the Professorship, and specimens exhibited which had been collected during his travels. His principal object was to call the attention of the University to the importance of Mineralogical studies; to illustrate the natural history of the materials used by architects, sculptors, and lapidaries, both ancient and modern; the Mineralogy of the sacred Scriptures, and of the ancient poets and historians; and, finally, to suggest the means of pursuing this branch of knowledge without the expense and encumbrance which have usually been its attendants.

After the death of Dr Clarke, the Senate decreed that the Professorship should be continued, and the sum of £1500 was given for the Collection of Minerals which he had formed.

This collection was for some time kept in the room belonging to the Botanical Professor, but on the appointment of Professor Henslow to that office, he found it necessary to appropriate his apartment to the purposes of his own science. After having been deposited for some years in one of the apartments at the Pitt Press, by permission of the Syndics of the Press, it was removed in 1841 to the Mineralogical Museum under the west end of the new Library. The Museum contains, besides many rare and fine minerals presented by the Marquis of Northampton, the Rev. C. Francis, and others, a very extensive and complete collection of minerals well adapted for the purposes of instruction, presented by Professor Whewell.

Soon after the completion of the Museum, Viscount Alford gave the University the rich collection of minerals and diamonds formed by the late Sir Abraham Hume, Bart. This collection is arranged in the Mineralogical Museum, but kept distinct from the rest of the Minerals belonging to the University.

POLITICAL ECONOMY.

THE title of Professor of Political Economy was conferred by a Grace of the Senate, in May 1828, on George Pryme, Esq., M.A., late Fellow of Trinity College.

Lectures on this science had been given by him for some years previous, under the sanction of the University. They attempt to analyse the original and efficient causes of national prosperity—to shew by what measures of the legislature, and by what conduct of individuals in private life, it is augmented or diminished—and to assist the reader of history in explaining the phenomena of the strength or weakness, the rise or fall, of states.

They are of an elementary and popular nature, requiring no previous knowledge of the subject. They are intended to facilitate the study of a science, hitherto inaccessible without the most arduous perseverance; to simplify the order, explain the obscurities, and point out the errors, of A. Smith's Inquiry into the Wealth of Nations; to combine with his discoveries what the experience of subsequent events, and the researches of subsequent authors, have taught, and to place some part of the subject in a point of view different from what any writer has done. Their plan is—1st, To trace the history of national wealth from the rudest to the richest state of society, and to examine each change as it naturally arises in the progress of opulence and civilization; 2dly, Briefly to explain

the systems of the ancients, of Dr Paley, of the French economists, and what is called the commercial system; and 3dly, To explain the principles of taxation and finance.

They are usually given in the Michaelmas Term.

THIS preachership, value £10. per annum, was founded in 1503, and, according to the grant, is to be retained for only three years, but that practice is now dispensed with, and the preacher continues without a fresh election. When a vacancy does occur, an election must take place within fourteen days. The electors are the Vice-Chancellor and the Heads of Houses. Doctors, Inceptors, and Bachelors in Divinity, only are eligible to this office, and one of Christ's college is, *cæteris paribus*, to be preferred. The preacher is now required by his office to preach a *Concio ad Clerum*, before the University, on the day preceding Easter Term.

SADLERIAN LECTURES.

THE following seventeen Algebra Lectureships were founded by Lady Sadler, and the Lectures commenced in 1710.

The Lecturers, who are required to be Bachelors of Arts, at least, are severally nominated by the Masters of the respective colleges; are then examined and approved by the Plumian Professor; and before entering on the Lectureship, are required to subscribe a Declaration at Emmanuel Lodge, before the Master of that college, to the effect that they will diligently perform the duties of the office. The stipend of the Lecturer nominated by the Master of

Emmanuel college is £60, and that of each of the other Lecturers is £40, per annum. Every Lecturer produces a certificate signed by the Master of his college, that the Lectures have been by him regularly given, before payment of the stipend, which is annually at Lady-day, at Emmanuel Lodge.

The Lectureships are tenable only for ten years.

MR HULSE'S FOUNDATIONS.

THE Rev. JOHN HULSE was educated at St John's college, became Bachelor of Arts in 1728, and died in 1789, bequeathing his estates in Cheshire to the University for the advancement and reward of religious learning. The various purposes to which he appropriated the revenue of these estates, are—first, the maintenance of two Scholars at St John's College—secondly, to recompense the exertions of the Hulsean prizeman—thirdly, to found and support the office of Christian Advocate—and fourthly, that of the Hulsean Lecturer, or Christian Preacher. The salaries of these offices vary according to the annual rent of Mr Hulse's estates, different proportions of which are set apart for each, the largest belonging to the Lecturer.

The trustees and electors of Mr Hulse's bequest are, the Vice-Chancellor for the time being, the Master of Trinity college, and the Master of St John's college. If the Master of Trinity or St John's be Vice-Chancellor, the Greek Professor supplies his place. The Bishop of Ely is visitor, with power to determine, in reason and equity, in all disputes.¹

CHRISTIAN ADVOCATE.

Extract from MR HULSE'S Will, dated July 21, 1777.

THE person to be elected into such office (on Christmas Day, or within seven days after, for a term not exceeding five or six years) to be a learned and ingenious person of the degree of Master of Arts, or of Bachelor or Doctor of Divinity, of the age of 30 years, and resident in the University; who is to compose yearly, whilst in office, some proper and judicious answer or answers every year, to all such new and popular, or other cavils and objections, against the Christian or revealed religion, or against the religion of nature, as may, in the opinion of the trustees, or any two of them, seem best or most proper to deserve or require an answer, whether the same be ancient or modern objections, but chiefly such as are most

modern, and especially such as have appeared in the English language of late years against Christianity, and which may not seem to have received a full and sufficient answer, if any such there shall be, unto the year preceding his election; as likewise to be ready to satisfy any real scruples or objections in a private way, that may be brought from time to time by any fair and candid enquirer against the same: such writer to be called the Christian Advocate, and such his written answers to be in English, and only against notorious infidels, whether atheists or deists, not descending to any particular controversies or sects among Christians themselves, except some new or dangerous error, either of superstition or enthusiasm, as of popery or methodism, either in opinion or practice shall prevail: in which case only it may be necessary for that time to write or reason against the same: and such treatise or treatises to be every year printed, the expense whereof shall be deducted out of the temporary stipend or salary; and the remainder of the said stipend or salary, or rents and profits, shall be paid or given every year to the several authors successively as a reward for the same; but if the person chosen into the said office shall neglect or not discharge his office as he ought to do, he is to forfeit and lose his salary for that year, which is, in such case, to be equally divided between the six senior fellows of St John's college.

The Christian Advocate is not afterwards eligible to the office of Hulsean lecturer.

HULSEAN LECTURER OR CHRISTIAN PREACHER.

Salary, nearly £300 per annum.

THE election to this office is to take place on Christmas Day, or within eight days after. The persons eligible are, Masters of Arts of the University of Cambridge, under forty years of age. The office is only annual, but the same individual may, under certain circumstances, be continued for any successive number of years, not exceeding six. The duty of the Lecturer is, by Mr Hulse's will, to preach and *print* twenty sermons in each year, ten in April, May, and the former part of June, and ten in September, October, and the former part of November. The subject of the discourses is—to shew the evidence for revealed religion, or to explain some of the most difficult texts or obscure parts of Holy Scripture,—or both. The time and place of delivery are to be in Great St Mary's church, and either on the Friday mornings or the Sunday afternoons of each week in the above-mentioned period; and if the duties be not discharged by the person appointed, his salary is divided amongst the six senior fellows of St John's college. The Preacher is not afterwards eligible to the office of Christian Advocate.

By a decree of the Court of Chancery in 1830, it was ordered that the number of Lectures shall be reduced to *eight*, and that the time of printing be enlarged for the term of one year from the delivery of the last Lecture.

Various circumstances prevented any appointment taking place until the year 1819, when the first election was made, and Lectures have since been delivered and published in the following order :

TRAVELLING BACHELORS.

WILLIAM WORTS, M.A. of Caius College, formerly one of the Esquire Bedells of this University, gave two pensions of £100 per annum each, to two recent Bachelors of Arts, ²presented to the Vice-Chancellor by the Master of the college whose turn it is to nominate, and elected by the Senate. The Bachelors are required to visit foreign countries, to take different routes, and severally to write, during their travels, at least one Latin letter in each year, descriptive of the customs and curiosities of the places visited by them; which letters as soon as received by the Vice-Chancellor, are laid before the Senate, and afterwards deposited in the University Library.

The income of these travellers is continued for the space of three years, the period during which they are to continue abroad.

The following Regulations have been made by the Trustees, with a view to insure greater regularity in the recurrence and filling up of vacancies :

1. That no election of a Travelling Scholar shall take place in any year, excepting between the second Tripos day and the end of the Easter Term in that year.

2. That no persons shall be eligible, excepting actual Bachelors of Arts, who shall have been admitted *ad respondendum quæstioni* not later than Ash-Wednesday in that year, and subsequently to Ash-Wednesday in the preceding year.

3. That the Travelling Scholarship of each person so elected shall be deemed to expire, if not sooner vacated by resignation or otherwise, on the second Tripos day in the third year after that in which his election took place: when he will be a Bachelor of Arts of three years standing complete.

¹ Master of the Temple and Prebendary of Worcester.

² The nomination respecting the colleges is according to the cycle of Proctors.

4. That, if any college, whose turn it is to nominate, shall not do so before the end of the Easter Term next ensuing after any vacancy, provided its occurrence shall have come to the knowledge of the Master of the college or his *locum tenens*, that college shall be held to have forfeited its right of nominating for that turn, and such right shall devolve in the succeeding year upon the college, whose turn follows next according to the appointed cycle.

5. That, if a vacancy shall occur by resignation or otherwise during the Easter Term of any year, it shall be at the option of the college, which has the next turn, either to nominate in that same Term or to defer nominating until the following year.

WHITEHALL PREACHERS.

THE Whitehall Preacherships were established by GEORGE I. in the year 1724. The preachers were originally 24 in number, twelve from each University. By a recent alteration they have been reduced to two, one from each, who are to hold the office for two years. They must be Fellows of colleges during their time of holding the office, to which they are appointed by the Bishop of London, as Dean of her Majesty's Chapel.

The Cambridge preachers since the alteration have been,

COMBINATION PAPERS, &c.

THE Sermons before the University at Great St Mary's, are preached by Bachelors in Divinity and Masters of Arts who have completed their first year, beginning with the former. The two papers, one published in July, and the other in December, are made out by the Esquire Bedells and signed by the Vice-Chancellor.

The *Prior Combinatio* contains the Sunday morning turns, and is made after the following order:—The colleges are divided into seven classes, each of which (Trinity Hall and Downing excepted, which send no morning preacher) provides a preacher every seventh turn. In the first three colleges the name is omitted, in the remaining twelve the preacher's name and college are set down.

Persons of sixty years of age, and upwards, are excused from preaching.

The *Posterior Combinatio* contains the Sunday afternoon turns and Saints' days, and is made according to the order in which the members stand in the Registry's book. The names as well as the colleges are here mentioned.

The Combination Papers are, immediately on their publication, sent to the Tutors of the respective colleges, who communicate to the persons named in the Paper the time appointed for them to preach. Substitutes procured by such as omit to preach in their turn, receive three guineas a sermon. The Vice-Chancellor appoints the preachers for the Lent and Summer Assizes, and for extraordinary Fasts and Thanksgivings. The payment is five guineas a sermon.

SELECT PREACHERS.

A GRACE having passed the Senate: "That those to whom the Sunday afternoon turns at St Mary's, and the turns for Christmas Day and Good Friday, are assigned, shall, from the beginning of November to the end of May, provide no other substitute than such as are appointed in conformity with that Grace:"—The following persons have been elected, each for the month to which his name is affixed:—

MEMBERS' PRIZEMEN.

THE REPRESENTATIVES in Parliament of this University give four annual prizes of fifteen guineas each, which are adjudged by the Vice-Chancellor and Heads of Colleges, to two Bachelors of Arts, and two Undergraduates, who compose the best Dissertations

in Latin prose, which are read publicly by them in the Senate-House on a day appointed near to the Commencement, and afterwards sent by them to the aforesaid Members. The subjects are delivered out at the end of Michaelmas Term, and each candidate is to send his exercise privately to the Vice-Chancellor, on or before the 30th of April, in the same manner as the exercises for the Chancellor's Medal. The Vice-Chancellor, the Master of Clare Hall, and the Greek Professor (who are the disposers of this premium) determine the subject, which is delivered out in January, and the Poem is to be sent to the Vice-Chancellor on or before the 29th of September following. The poem is to be printed, and the expense deducted out of the product of the estate ; the remainder is given as a reward to the composer. The prize is determined a few days previous to the resignation of the Vice-Chancellor's office.*

UNIVERSITY SCHOLARSHIPS.

CRAVEN'S SCHOLARS.

JOHAN, LORD CRAVEN, founded two classical Scholarships of £25 per annum each, arising from estates vested in the hands of six trustees. The Cambridge trustees are, the Bishop of Peterborough, the Bishop of Bath and Wells, and the Master of Trinity College. Electors, the Vice-Chancellor, the five Regius Professors, and the Public Orator. Whenever a vacancy occurs, any undergraduate may offer himself a candidate by signifying his intention in a Latin letter addressed to the above electors, within the time limited by the Programma which declares the vacancy. If any one of the name or kindred of the founder should be in indigent circumstances, and a scholar of this University, he, (by the Will) is to be preferred. This annuity cannot be enjoyed after fourteen years standing in the University, nor by any one who may attain to preferment of double its value. The possessors are not allowed to be absent from the University above three months in the year, without the express permission of the Vice-Chancellor, or the major part of the electors then resident in the University.

These rules have been modified in part by the regulations enacted in 1817; which will be found at the end of this list of University Scholarships.

¹ The Examiners also gave notice, that should any poem appear to them to possess distinguished merit, a premium of 100l. would be adjudged. The above premium was this year awarded to Mr HAN-
KINSON.

² A second prize was this year adjudged to Mr J. Gorle, Clare Hall.

³ A premium of 100l. was this year adjudged instead of the ordinary prize.

By a decree of the Court of Chancery, in 1819, the income of the Scholars was augmented to £50 per annum each, and three additional Scholarships founded, under the same regulations as the preceding, except that they cannot be held for more than seven years. And by a decree of the Court of Chancery, in 1841, the Scholarships have been further augmented to £75 per annum.

A candidate for this Scholarship must offer himself for examination within a year from his Matriculation; public notice being given by the Vice-Chancellor a month before such election. The Scholarship, with all the arrears which may happen by vacancy, is tenable for seven years; but the possessor, if of another college, is obliged to remove to St Peter's and reside there every entire term during his undergraduateship. BELL's SCHOLARSHIPS.

THE REV. WILLIAM BELL, D.D. Prebendary of the collegiate church of Westminster, and late Fellow of Magdalen college in this University, in the year 1810, transferred £15,200 stock, 3 per cents., to the University of Cambridge, in trust, to found eight new Scholarships. The Scholars to be the Sons or the orphans of those Clergymen of the Church of England, whose circumstances and situations are altogether such as not to enable them to bear the whole expense of sending their sons to this University. On the receipt of this benefaction, Scholars were elected in such a manner, and for such a period, that two Scholarships will become vacant every year.

The regulations of these Scholarships are, that candidates for them must be in their first year of admission, *i. e.* they must have been admitted between the last and last but one Commencement preceding the October Term in which they begin to reside; for example, Candidates in 1839 must have been admitted between the Commencements of 1837 and 1838, and so on; and every Scholar elected on this foundation shall promise in writing to take the degree of B.A in the most regular way. The Vice Chancellor produces the certificates of admission on the day of Election. Where personal merits are equal, those are to be preferred who stand most in need of assistance. If any Scholar shall degrade or determine, and go out in a bye term, or declare for law, or be rusticated or expelled, his Scholarship shall be *ipso facto* vacant. The profits to continue for four years and no more. No persons shall ever have two sons Scholars, nor shall there be two orphans, brothers, Scholars at the same time. If no sons or orphans of clergyman shall be found properly qualified for the Scholarships, then, and then only, the electors shall elect the sons of laymen, being undergraduates, who stand in need of assistance. No Scholar to be elected from King's College, or from Trinity Hall.

The electors are, the Vice-Chancellor, the Regius Professors of Divinity and the Civil Law, the Lucasian Professor of Mathematics, and the Public Orator: and the election takes place on the Friday after Midlent Sunday.

In the following list, wherever two or more gentlemen are recorded as *æquales*, their literary merits were considered by the electors as nearly equal. In this case the choice of the Scholar or Scholars was made simply on the ground of pecuniary circumstances, according to the express direction of the Supplemental clause to Dr Bell's Deed of foundation.

2.—The Vice Chancellor or his deputy, the Public Orator, the Greek Professor, and two members of the Senate, to be appointed by the different colleges in their turn, shall be the electors. Two colleges, according to the cycle of Proctors commencing with the year 1817, shall respectively nominate an elector. But if the Vice-Chancellor, the Public Orator, and the Greek Professor, or any two of them, be members of the same college, no elector in that case shall be appointed by the college according to the cycle of Proctors, but the appointment shall be made by the University. Or if the Public Orator or the Greek Professor shall be prevented by illness or otherwise from attending the examination, or if the colleges shall have neglected to signify to the Vice-Chancellor the appointment of the electors according to their respective turns, then deputies shall be appointed by *Grace*.

3.—The first examination commenced on Monday, January, 17, 1814: and the Vice-Chancellor or his deputy, the Public Orator, and the Greek Professor, shall, in future, on or before the 1st day of December after every vacancy, cause a writing, under their hands, declaring the said vacancy and the time of examination, to be affixed to the door of the Public Schools; and they shall notify the same to the two colleges, which are to nominate the electors, and the Heads of those colleges, or their deputies, shall, within one week after such notices, signify to the Vice-Chancellor the names of the electors so appointed.

4.—The examination, which shall be solely classical, shall always take place during the week of the public examinations in the Senate-House, previous to the Bachelors' Commencement, and the Scholar elected shall receive all the dividends or rents that shall have become due subsequent to the last vacancy.

5.—Any undergraduate, of whatever rank, may be a candidate for the Pitt Scholarship, provided he be not of more than three years' standing from the time of his first residence; but he shall, on or before the 31st day of December preceding the examination, signify, in a Latin epistle to each of the electors, his intention of becoming a candidate, and in case he shall omit sending such an epistle, he shall be considered as incapable of being elected at that time.

6.—The Pitt Scholar shall not hold any other University Scholarship.

7.—Every Scholar shall, during the time of his holding this Scholarship, reside the major part of each term: and if he shall not have kept such residence, he shall vacate his Scholarship, unless he has been prevented by illness or any other cause which shall be approved of by the Vice-Chancellor, the Public Orator, and the Greek Professor.

8.—Every Scholar who shall obtain any ecclesiastical benefice or preferment, or shall be of Master of Arts' standing, shall vacate his Scholarship.

TYRWHITT'S HEBREW SCHOLARSHIPS.

THE REV. ROBERT TYRWHITT, M.A. late Fellow of Jesus college, who died in 1818, by his Will bequeathed £4000 Navy 5 per cents, for the promotion and encouragement of Hebrew learning, the mode and disposition of this bequest to be left to the University.

The Senate in 1818 decreed the foundation of three Scholarships, which decree was revised in 1826, and the number increased to six: this was again revised in 1836, when the following Regulations passed the Senate:

DECREE OF THE SENATE, *April* 29, 1836.

1.—THAT there shall in future be six Scholarships, called Tyrwhitt's Hebrew Scholarships.

2.—That the candidates for these Scholarships shall be, first, (*actualiter*) Bachelors of Arts or Inceptors who are not of sufficient standing to be created Master of Arts; or, secondly, Students in the Civil Law or Medicine, of not less than four or more than seven years' standing, who shall be required, before they are admitted to become candidates, to produce certificates from their respective Professors, that they have kept the exercises necessary for the degree of Bachelor of Law or Physic.

3.—That out of the net annual proceeds of Mr Tyrwhitt's Benefaction the sum of £150 be divided among the six Scholars, in the proportions hereinafter specified.

4.—That the electors to these Scholarships shall be the Vice-Chancellor, the Regius Professor of Hebrew, the Professor of Arabic, and two members of the Senate, to be nominated by the different colleges according to the cycle of Proctors.

5.—That if the Regius Professor of Hebrew, or the Professor of Arabic, or both of them, shall decline, or be prevented from examining, a deputy or deputies shall be appointed by a Grace of the Senate.

6. That if it shall happen at any time, that two of the offices severally constituting electors are united in the same person, the deputy for the elector in respect of one of the said offices shall be the Lord Almoner's Reader in Arabic; but if in any case the Lord Almoner's Reader shall decline the office of deputy examiner, or shall be prevented from undertaking the said office, a deputy examiner shall be appointed in his place by a Grace of the Senate.

7.—That if the Vice-Chancellor, the Regius Professor of Hebrew, the Professor of Arabic, or any two of them, shall be members of the same college, no elector shall in that case be appointed by that college according to the cycle of Proctors; but the appointment shall be made by a Grace of the Senate.

8.—That the appointment, when requisite, of an examiner or examiners by Grace of the Senate take place at the first Congregation in the Lent Term of the year, and that the examiner or examiners so appointed continue in office until the first Congregation in the Lent Term of the following year.

9.—That the examination for these Scholarships commence annually on the second Wednesday in May; and that persons intending to be candidates send in their names to the Vice-Chancellor on, or before, the first day of May.

10.—That two Scholars be elected in each year; that the first in the order of merit of these two, receive an annual stipend of £30., and the second an annual stipend of £20, for three years from the time of election. That in case of equality of merit the stipend of each be £25.

11.—That should it appear in any case to the majority of the electors that no one of the candidates is deserving of a Scholarship with the stipend of 30 a year, it shall be competent for them to elect one Scholar only, with the stipend of £20 a year.

12.—That in case there shall be a deficiency of deserving candidates for the two Scholarships in any year, the electors shall have power, in the second or third succeeding year, to elect additional Scholars into the vacancy, or vacancies, thus occasioned; after which time the stipends, belonging to the Scholarships which have not been filled up, shall be appropriated in the manner appointed in the next regulation.

13.—That the residue of the net annual proceeds of Mr Tyrwhitt's benefaction, not already disposed of by the third regulation, together with all accumulations which may arise under the twelfth regulation, shall form a fund to be expended in the promotion and encouragement of Hebrew Literature, at the discretion of the examiners, provided that not more than a third part of such fund be expended in any year.

14.—That the Accounts of this Bequest be kept distinct from the general Accounts of the University, and be annually audited by the electors in Michaelmas Term before the first of November; and being so audited, shall be laid on the Registry's Table in the Senate-House at the next Congregation, for the inspection of the Senate.

15.—That these Regulations shall be in force until the first Congregation in Lent Term, 1842.

On *December 15, 1841*, the following Grace passed the SENATE:—

“That the existing regulations of the Tyrwhitt's Hebrew Scholarships be continued.”

The following Grace passed the SENATE, *May 8, 1842*:—

“That the Examiners shall publish the names arranged in the order of merit, of such candidates as pass the examination with credit.”

LUMLEY EXHIBITIONS.

THE Right Honourable ELIZABETH, Viscountess LUMLEY, by a deed bearing date October 8, 1657, directed certain Trustees therein named, to pay and allow yearly to *ten* poor Scholars of the Universities of Oxford and Cambridge, educated in the School founded by her at *Thornton* in the county of York, or in default of such, to any other poor Scholars, not exceeding *ten* in number (subsequently reduced to *five*.) who should be nominated thereto by the respective Convocations of the said Universities for the time being: the sum of £1 a year each, to be continued until they should have time to become graduates in one of the said Universities.

By an Order of the Court of Chancery, issued in the year 1820, it was directed that, in consequence of the increased rents these five Exhibitions should in future be £15 per annum each, and that the rents not called for should accumulate.

REGULATIONS
RESPECTING
THE UNIVERSITY SCHOLARSHIPS.

[Confirmed by a Grace of the SENATE, 1817.]

ON the last Saturday in November in every year there shall be a meeting at the Vice Chancellor's of the electors to the Craven's and Davies's Scholarships, and of the *permanent* electors to the Pitt Scholarship, to consider whether any one and which of those Scholarships shall be then declared vacant; and the examination for such vacant Scholarship shall commence in the last week of January following.

At this meeting, of the Scholarships which shall have become *voidable* by non-residence, that shall be declared *vacant* which has been held for the longest time; provided that no one Scholarship shall have become *necessarily* void before the day of this meeting, in which case no other shall be declared vacant for that year.

When it is decided at this meeting which of the Scholarships is to be declared vacant, the rules pointed out by the founder for notice, examination, and election (where any such rules are particularly prescribed by the founder), will be pursued, so as to bring on the examination in the last week of January. Where no such regulations have been prescribed by the founder, the notice of the vacancy is to be affixed to the door of the Public Schools, on or before the 1st of December; and the candidates are to deliver their Latin Epistles to each of the examiners, on or before the 31st of December, as in the case of the Pitt Scholarship; and all prior regulations made by the University, inconsistent with these, are hereby repealed.

With respect to non-residence, it is to be understood that the holders of the Craven, Davies's and Pitt Scholarships, shall, generally speaking, have such leave of absence, as will enable them to retain their Scholarships until the holder becomes senior Scholar according to the above regulations.

But in case of any instance of non-residence in the University, for one whole term, before the Bachelor's degree, the electors, at their meeting, shall have the power of declaring vacant the Scholarship of the person so non-resident in preference to that of the senior Scholar: if it appear to them that such non-residence is without sufficient excuse.

UNIVERSITY AND COLLEGE PRIZES.

THE prizes for the encouragement of literature, free and open competition for the whole University, amount to upwards of £1,300, three-fourths of which are given for Classics and English Composition, the remainder for Mathematics.

The amount of the annual prizes in the different colleges is about £600, two thirds of which are given for the encouragement of Classical Literature.

CHARITIES.

CRANE'S CHARITY FOR THE RELIEF OF SICK SCHOLARS.

JOHN CRANE, Apothecary in Cambridge, and M.A. died in 1654, and left by his Will money to buy an estate of £62 per annum¹, to be settled on the five corporations following, *viz.* the University of Cambridge, the towns of Wisbech, Cambridge, Lynn, and Ipswich². The rents to be received in order, and to be applied by the University in their turn towards the relief of sick Scholars. The distribution to be made by the Vice-Chancellor, the Professors of Divinity, the Civil Law, and Physic, and the chief Apothecary of the town. The Master of Caius college is requested to assist the Distributors. Meetings of the Distributors, to consider and determine the claims of applicants for the benefit of this charity, take place on the third Tuesday of *May*, and the third Tuesday of *November*, in every year, and all applications of Scholars must be made by the Tutors of their respective colleges.

The gift to the town was to accumulate until it amounted to £200, which sum was to be disposed of in loans of £20 each, bearing no interest, to ten young men, in order to set them up in trade, they giving good security to repay the same at the end of twenty years. As each sum is repaid, it is to be again lent out in the same manner, and the persons to whom the loans are made are to be selected by the Vice-Chancellor, the three Professors of Divinity, the Civil Law, and Physic, the chief Apothecary, the Mayor, Recorder, and three Aldermen, or greater part of them.

After the sum of £200 had been set apart, Mr Crane directed that the rents of the estates should be employed in the relief of persons confined for debt, and of poor men and women of good character, at the discretion of the above-mentioned Distributors, who hold half yearly meetings in May and November to consider the claims of applicants.

FREE GRAMMAR SCHOOL.

STEPHEN PERSE, M.D. Senior Fellow of Caius College, by a clause in his Will³, dated September 27th, 1615, bequeathed certain property in charge to his executors, to purchase divers grounds and tenements, to be applied, amongst other purposes, to that of erecting and establishing within three years (if possible), after his decease, a convenient house capable of containing one hundred scholars to be used for a Free Grammar School, with apartments

¹ The present rent of the estate is above 300*l.* per annum.

² The first payment was made about the year 1660.

³ A Copy of the Will is in Baker's MSS. vol. xxvi. p. 131.

for a Master and Usher, who are required to be graduates in this University; the former a Master, the latter a Bachelor of Arts at least. The Scholars are to be natives of Cambridge, Barnwell, Chesterton, or Trumpington, and educated *gratis*. In case of a vacancy in the place of a Master or Usher, preference is to be given to one who has received his education at the School.

Scholars educated three years at least at this School, are to be admitted (*cæteris paribus*), before all others, to the Perse Fellowships and Scholarships at Caius College.

Master, Peter Mason, M.A. *St John's*.

Usher, George Barber, M.A. *Queens'*.

NEW FREE SCHOOL,

In St Peter's Parish.

THIS institution was founded in 1808, for the education of the poor of this town and the adjacent villages. It was originally established upon the plan of Dr Bell and Mr Lancaster, but is now placed wholly upon that of the former, as adopted by the National Society. The children are admitted between the ages of 6 and 11, and are instructed in reading, writing, and arithmetic, on paying 6*d.* per month each. They are also instructed in the catechism, and parts of the Liturgy of the Church of England.

The institution is under the management of Governors, who are constituted by a donation of ten guineas, or an annual subscription of one guinea. By means of a liberal subscription they have been enabled to purchase a piece of ground, and to build a spacious school-room, calculated to hold 300 boys; and by the aid of a donation of £150 from the University, donations from some of the colleges, the Members of the University, and other individuals, a house has been built for the Master contiguous to the School. A meeting of the Governors is held on the first Thursday in every month, at 2 o'clock, in the school-room. A sermon for the benefit of this institution is preached annually in the spring; and the yearly statement published in June, may be had of Messrs Deightons, booksellers, by whom subscriptions are received, and by any of the bankers in Cambridge.

OLD CHARITY SCHOOLS,

Commonly called WHISTON'S Charity Schools.

THIS institution was set on foot in the year 1703, and is supported by voluntary contributions. It owed much of its first establishment to the activity of William Whiston, M.A. and amongst its earliest patrons are found the names of Sir Isaac Newton, Bishop Patrick, Dr Bentley, &c. The design of it was to educate charity children of both sexes.

The New Free School in St Peter's Parish, for the education of boys, having been united to the National Society, June 22, 1813, it was thought expedient to transfer the boys to that institution, to which this allows in consequence the sum of £30 annually. In the year 1816, a new school-room for the girls was built in King-street, capable of containing 300 children, and likewise a house for the mistress, and the establishment was put on the plan of the National Society, to which it was then united.

The girls are taught reading, writing, something of accounts, needle-work, and knitting. They learn the catechism, and other religious books, and are required to attend divine service in their parishes on Sundays. The Lord Bishop of Ely is the patron. The Ministers and Lecturers of the parishes in Cambridge are the governors. There is also a committee of ladies, who superintend the detail of the School. The governors and subscribers nominate the girls who are educated; each guinea subscriber has the right of nominating four children, or ten guineas paid at one time entitles the donor to recommend four children annually.

Subscriptions are thankfully received by the Treasurer; by the Governors; by Messrs Deighton, booksellers; or by any of the bankers in Cambridge.

ADDENBROOKE'S HOSPITAL.

JOHN ADDENBROOKE, M.D. formerly Fellow of Catharine Hall, in the year 1719, left about £4000 to erect and maintain a small Physical Hospital; but the money being insufficient for the support of it, an act of Parliament was obtained to make it a general Hospital. It was opened at Michaelmas 1766, and the number of patients annually cured and relieved is upon an average 1700. The receipts of late years have been about £2000 per annum, of which about £900 arises from the permanent funds, and the remainder from the voluntary contributions of the public.

Mr JOHN BOWTELL, late a bookbinder and stationer in Cambridge, by his Will, bearing date the 22d day of September, 1813, bequeathed a legacy to the Hospital in the following words:—"I give and bequeath unto the President and Governors of Addenbrooke's Hospital, in the town of Cambridge, £7000 in the 3 per cent. Consolidated Bank Annuities, to be by them applied in enlarging the said Hospital, if necessary, for the purpose of receiving persons of other descriptions than those of sick patients, such as poor married women during their confinement, or otherwise, as they shall see fit and advisable."

Between three and four thousand pounds of this sum have been appropriated to the erection and furnishing of two wings to the Hospital. These are now completed and open for the reception of patients.

Benefactors of 20 guineas or upwards are governors for life; annual subscribers of two guineas or upwards are governors during

payment. Each person may recommend patients according to the amount of the subscription.

An accurate statement of the accounts and a list of subscribers is printed annually, and may be had *gratis* by any of the contributors, at Messrs Deightons, or at the Hospital.

Benefactions and annual subscriptions are thankfully received by Messrs Mortlock, bankers; Miss Wilkinson, Wisbech; Mr Edwards, Ely; and by the Apothecary and Matron of the Hospital.

This Hospital having been recently enlarged so as to contain upwards of 100 beds, Certificates of attendance upon the practice in it are recognized by the Royal Colleges of Physicians and Surgeons, and by the Society of Apothecaries in London.

UNIVERSITY ALMS HOUSES.

THESE Alms Houses, situated in King Street, were founded in 1505, by MATTHEW STOKYS, M.A. of Caius College, one of the Esquire Bedells, for six poor women, who are appointed by the Vice-Chancellor. The value of the original endowment was 7*d* a week for each poor woman, and 8*s*. a piece at Stourbridge Fair

to buy them frieze gowns and linen veils; but between the years 1695 and 1796 the annual stipend to each person was only 10s. In the latter year, a Grace passed the Senate for the increase of the stipend from 10s. to 50s. Since that time it has been materially increased, and for some years each person has been in the receipt of £9. 2s. per annum.

PERSE'S ALMS HOUSES.

THE Alms Houses, S.E. corner of Free School Lane, near the Botanic Garden, for six poor single persons, not less than forty years of age, and belonging to the parishes of St Edward, St Michael, and in failure of such being found there, of St Benedict, in the town of Cambridge, were built and endowed with a salary of £4 per annum to each person, by Dr PERSE, whose numerous acts of charity and beneficence are justly recorded on a handsome monument in the Chapel of Caius College. The present income of each person is £26 per annum.

STOREY'S ALMS HOUSES.

EDWARD STOREY, gent. left by Will (1692) all his property for founding Alms Houses: one for four clergymen's widows, another for two widows and one maiden of the parish of St Giles, and three maidens of the parish of the Holy Trinity, in the town of Cambridge. "Every of which widows and maidens to be forty years of age at the least, and of sober life and conversation. And to each widow and maiden a house to live in, and £10 per annum, payable half-yearly; and to each, one gown, two pair of shoes, and one pair of stockings."—Dr GODDARD, late Master of Clare Hall, left a legacy to augment the stipends of the four clergymen's widows, with which the trustees purchased £410 stock, 4 per cent. All the widows receive yearly other perquisites.

Mr J. MERRILL, late bookseller in this town, left by Will (Oct. 1805) £1667 in the 3 per cents. to this charity.

The Trustees are,

The Rev. William Hodgson, D.D. St Peter's.
The Rev. G. Thackeray, D.D. Provost of King's.
The Rev. W. French, D.D. Master of Jesus.

Steward and Receiver.

Mr Ernest F. Fiske.

KING'S COLLEGE ALMS HOUSES.

THESE houses, adjoining the college, are for four poor persons, who are allowed £10 per annum each, and receive the remains of the Scholars' commons.

QUEENS' COLLEGE ALMS HOUSES.

THESE Alms Houses, situate in Queens' Lane, are appropriated to eight poor widows, appointed by the President of Queens'. Each person receives 2s. and a pound of meat a week, and a chaldron of coals every year. They have also an additional gratuity of £1 on the 25th of September, and 2s. 6d. on the 24th of December.

N.B.—Most of the colleges have certain funds appropriated for charitable purposes.

PUBLIC BUILDINGS.

THE UNIVERSITY LIBRARY.

FOR the supplying this and certain other Libraries with books provision was made by statute of the 8th of Queen Anne, entitled, "An Act for the encouragement of Learning;" and by further provisions in subsequent reigns it has been enacted that the following Libraries are entitled to a copy of every book published in this country, viz. the British Museum, the Bodleian library at Oxford, the public library at Cambridge, the library of the faculty of Advocates at Edinburgh, and Trinity College library at Dublin.

To the same purpose the rents of the University's estate at Ovington in Norfolk are applied. This estate was bought with the money given to the University in 1666, by Tobias Rustat, Esq. M.A. Yeoman of the Robes to King Charles II. to be laid out in land, the rents to be applied in the purchase of *choice* books for the Public Library, and the income of it is nearly £200 per annum.

William Worts, M.A. Fellow of Caius college, formerly one of the Esquire Bedells of this University, ordered by his Will that the annual surplus of the rents and profits of his estate at Landbeach, in this county producing about £500 per annum, after the discharge of the other outgoings (*see* p. 136), should be applied to the use of the Public Library. The Rev. John Manistre, M.A. late Fellow of King's college, lately bequeathed £5000, to purchase books. A quarterly contribution of one shilling and sixpence each from all members of the University, excepting Sizars, is likewise made for the support of the Library.

The management of the Library is committed to Syndics, who are the Vice-Chancellor, the Heads of colleges, all doctors in each faculty, the Orator, and all public Professors, the Proctors and Scrutators. They meet in the Library on the first Monday after the division of every Term, and oftener if necessary; and to them, or the major part, not less than five, of whom the Vice-Chancellor must always be one, full powers are committed for the better regulating of the same.

All members of the Senate, Bachelors in the Civil Law and Physic, and Bachelors of Arts, are entitled to the use of the Library under the following restrictions, enacted by a Grace of the Senate, March 16, 1829:

That every Tutor of a College (being a Member of the Senate, or a Bachelor of Law or Physic) have the privilege of obtaining, for each resident Bachelor of Arts, who is his pupil, any number of volumes not exceeding five, from the Public Library.

That each order for the volumes so obtained, bear the titles of the books and their class marks; and be dated and subscribed as follows:

For M. N. B.A. — College.

184

C. D. Tutor.

That the books so obtained be not taken out of the Library till the day after that on which the Library is re-opened for the quarter; and that they be returned not later than the day before the next quarter-day.

That the Tutor be responsible to the Library for the books so obtained, and for the penalties prescribed by Grace of the Senate, June 11, 1751, if they are not returned at the time mentioned in these regulations.

That this privilege be not allowed to any B.A. before the second Tripas day after admission *ad respondendum questioni*.

The Syndics have at various times issued regulations to the following effect:

That no person be allowed to have in his possession at any one time, more than ten volumes belonging to the Library, except by a dispensation from the Vice-Chancellor and the Librarian, to continue in force no longer than to the end of the quarter in which it shall be granted; but upon fresh application it may be renewed by the same authority.

That no one take or borrow any book out of the Library without first delivering to one of the Library-Keepers a note for the same, in his own hand-writing, expressing his name and college, and the year and day of the month on which such book is taken or borrowed, on pain of forfeiting five pounds, or double the value of such book.

That the Library-Keepers preserve carefully all such notes, till the book so taken out be returned again to the Library, duly entering the same in a book to be kept for that purpose, together with the day of the said return, and any damage done to any book, on pain of five shillings for every omission, to be paid by them, or any of them.

That every one who shall borrow or take any book out of the Library, return it thither again on or before the next of the four following days, *viz.* Michaelmas-day, St Thomas, Lady-day, and Midsummer-day, or oftener, if the Syndics see occasion and require it, under the penalty of two shillings for every folio or quarto, and one shilling for every book of less size; the penalty to be repeated every month till the book be returned, or another of the same edition and equal value placed in its room.

That a list of the books omitted to be returned at the end of the

quarter, together with the name of the borrower, be suspended in some public place in the Library.

That no person shall have more than five volumes out of the lock-up classes of the Library, by a note countersigned by the Vice-Chancellor; and that such books be returned at the end of each quarter, as all other books are, under *double* penalties.

That for the purpose of allowing the Librarian sufficient time to inspect the books at the end of each quarter, all books be kept in the Library on the day appointed for their return, and the whole of the day following.

That no manuscript whatever be taken out of the Library, without a Grace for its removal being obtained from the Senate.

That no volume containing a collection of prints or drawings, shall be taken out of the Library on any account whatever.

That every year, on the Friday next after the Commencement, or oftener if they see occasion, the Syndics shall meet in the Senate-House, or elsewhere, at the appointment of the Vice-Chancellor, to give orders, and appoint inspectors, for a general survey of the Library the Monday following. These inspectors, with the Librarian, shall make a full and true catalogue of all books wanting or much damaged, expressing in whose custody such books are, or by whom damaged, and deliver the same, signed by them, to the Vice-Chancellor.

That all books in this catalogue be returned to the Library perfect and undamaged, or others of the same edition and equal value, placed in their room there within thirty days after notice given, on pain of forfeiting five pounds for every volume not so returned, or the full value of the same, to be paid by him who stands charged with it; or, in case no one shall be charged with it, by the Library-Keepers or their deputies, or any of them; unless it shall appear to the Vice-Chancellor that such loss or damage has not happened through any neglect or default of the said Library-Keepers, or their deputies.

That if, after the said thirty days, on enquiry and report to be made by the said inspectors, or otherwise, it appears to the Vice-Chancellor, that any books be still wanting in the Library, or much damaged, he shall order others, without delay, to be procured, at the expense of the public chest, and put in their places.

That no Undergraduate or person not belonging to the University, be allowed to examine the catalogue, or take down books unless in company of a Master of Arts, or a Member of the Senate or Bachelor of Law and Physic; and that the Library-Keepers report to the Vice-Chancellor and Proctors any persons *in statu pupillari* who come into the Library not in their Academical dress.

That all the penalties above-mentioned shall be levied as other penalties are, by the Queen's statutes, chap. 50, and go one-third to the Bedells who collect them, the rest to the public chest.

The Library is closed on Sundays, and on the following days Christmas-day; the Epiphany; the Purification; Ash-Wednes

day; Good Friday; Easter Monday and Tuesday; Holy Thursday; Whit Monday and Tuesday; November 5; appointed Fast-days and Thanksgivings; the day after each Quarter-day; and for four days immediately following September 29, exclusive of Sunday.

On Saturdays it is open from ten till one; on Saints' days from twelve till three; on other days from ten till three.

The portion of the New Library, just erected, is according to part of a design by Mr C. R. Cockerell of London, for an entire Court, which it is intended should occupy the whole site of the present Library and Schools.

The great want of accommodation for books in the present Library, and of Lecture-Rooms for the Professors, had long been complained of; and, as the University was not itself in possession of funds to supply these deficiencies, a subscription was set on foot, and above £20,000 were collected from Members of the University and others, who felt an interest in the undertaking. The funds raised by this subscription, however liberal, being no more than are requisite to the erection of one side of the proposed Court, the further completion of the design must rest for the present.

THE UNIVERSITY PRESS.

THE management of the University Press is committed by the Senate to Syndics, who meet to transact business in the Printing-office, and cannot act unless five are present, the Vice-Chancellor being always one; the Syndics are

The Vice-Chancellor,
The Lord Bishop of Hereford,
Hon. and Rev. Geo. Neville Grenville,
Dr Procter,
Dr Wordsworth,
Dr Chafy,
Dr G. Thackeray,
Dr Tatham,
Dr Webb,
Dr French,
Dr Lamb,

Dr J. W. Geldart,
The Dean of Peterborough,
Dr Hollingworth,
Professor Scholefield,
Mr Turnbull,
Mr Lodge,
Mr Gibson,
Professor Whewell,
Professor Blunt,
Professor Corrie.

On the death of the Right Honourable WILLIAM PITT, many distinguished personal friends of that statesman and admirers of his public conduct, entered into a subscription for the purpose of erecting some memorial worthy of his name.

By means of the funds thus raised, a marble statue of Mr Pitt, executed by Westmacott, was erected in Westminster Abbey; and another bronze statue of him, executed after a model by Chantry, has been more recently placed in Hanover Square, London. A large sum still remained unexpended; and the Committee at whose disposal the Funds were placed, desiring to employ the surplus in some mode that might contribute to the honour and usefulness of the University in which Mr Pitt had received his

education, offered, with a noble liberality, to erect a building, after a design by Mr Blore, which should form the front of the University Printing Offices, and be designated by the name of the **PITT PRESS**.

This munificent offer was accepted; and a large sum of money was expended by the University in purchasing the necessary site. The first stone of the New Building was laid in 1831 by the Marquis Camden, the chairman of the before-mentioned Committee, attended by the Earl of Clarendon, the Earl of Harrowby, Lord Farnborough, and Henry Banks, Esq. M.P.; also Members of that Committee.

The edifice was completed in 1833.

Strangers and persons *in statu pupillari* are admitted to this Establishment on *Tuesdays, Thursdays* and *Saturdays*, from Twelve to One o'clock, if accompanied by a Master of Arts.

THE FITZWILLIAM MUSEUM.

RICHARD, Viscount FITZWILLIAM, formerly of Trinity Hall, (M.A. 1764.) who died 5th February, 1816, bequeathed to the University his splendid collection of books, paintings, drawings, engravings, &c., together with the dividends or annual proceeds of £100,000 South Sea annuities, for the erection of a Museum for their reception.

A large room in the University Library has been fitted up for the temporary reception of this splendid collection, until the directions of his Lordship's Will (inserted in former editions of the Calendar) can be complied with.

The dividends on the above-mentioned Stock having accumulated to a sum exceeding £40,000, the University considered that it was now within its power to commence the erecting of the Museum. The competition of Architects was accordingly invited, and the choice fell on Mr George Basevi, jun.

The ceremony of laying the first stone was performed on the 2nd of November, 1837, and it is expected that the building will be fit for the reception of pictures in the course of a few years.

The Museum has been augmented by many valuable presents of Paintings, Prints, Books, Statues, Models, and Curiosities; a list of which may be seen in the donation book.

REGULATIONS of the FITZWILLIAM MUSEUM.

1. The Museum shall be open for inspection every day on which the Public Library is opened, from eleven o'clock in the morning till four in the afternoon.

2. Any Member of the Senate may introduce two persons *in statu pupillari* at one time, or any strangers or friends who do not belong to the University.

3. No pecuniary gratification shall be received by the Keeper on these occasions.

4. The Fitzwilliam Museum shall be inserted with the Library, in the oath of admission to degrees.

5. No member of the University shall be admitted into the Museum unless he appear in his Academical habit.

Curator of the Museum—William Key Ridgway.

THE MESMAN MUSEUM.

THE late Mr MESMAN bequeathed a valuable collection of Pictures to the University. His brother, the Rev. Mr Mesman (to whom they were bequeathed for his life,) having given up his life-interest in the bequest, the collection has come into the immediate possession of the University. The rooms containing the Fitzwilliam collection not having space enough for these Pictures, the Syndics of the University Press have given permission for them to be suspended in one of the apartments at the Pitt Press; where they will probably remain until the building of the Fitzwilliam Museum is sufficiently advanced for their reception. The collection amounts in number to 248 Paintings and 33 Drawings and Prints. Among the Painters are many very distinguished names, Vandyck, Schi-doni, P. Brill, Ruysdael, Canaletti, Teniers, Gerard Dow, Cnyp, Wouvermans, Tintoretto, the Carracci, Holbein, L. Van Leyden, Castiglioni, Van Goyn, &c. &c. &c. The majority of the Pictures are of the Flemish and Dutch schools; and they are considered to be a very *genuine* collection of the masters whose names they bear.

The Regulations of the Mesman Museum are the same as those of the Fitzwilliam Museum.

Keeper of the Museum—John Massey.

THE BOTANIC GARDEN

OCCUPIES between three and four acres, on the east of the Fitzwilliam Museum, conveniently disposed, and well watered. This piece of ground, with a large and ancient edifice that formerly belonged to the Augustine Friars, was purchased by the late Dr Richard Walker, Vice-Master of Trinity College, for £1600.

The old building having been sold, a new building has been erected, for the use of the Lectures in Chemistry, Botany, and Anatomy.

The present site of the Botanic Garden has long been found insufficient for the purposes for which it was intended; and a few years ago an act of Parliament was passed empowering the University to procure a fresh site, and to enable them to dispose of the old one. Thirty acres were purchased of Trinity Hall, lying to the East of the London road, and within a mile of the Town. Various

causes have hitherto delayed the completion of the project, but a plan for the disposition of the whole has been prepared; and it is intended the herbaceous ground, with its stoves and green-houses, should occupy a central position, and the surrounding parts be laid out in an ornamental style, with shrubberies and walks where such exotic trees as are capable of enduring our climate may be grown.

This garden is under the government of the Vice-Chancellor, the Provost of King's, the Masters of Trinity and St John's, and the Professor of Physic.

Curator—Arthur Biggs, F.L.S.

THE CAMBRIDGE OBSERVATORY

WAS erected in 1822-4, after the designs of Mr J. C. Mead, of London, at an expence of upwards of £18,115. About £6000 of this sum was contributed by subscriptions, and the remainder was granted from the public chest of the University.

The principal instruments in the Observatory are a Transit Instrument of 10 feet focal length, by Dollond, a Mural Circle of 8 feet diameter, by Troughton and Simms, which was graduated on its pier; and an Equatoreal of 5 feet focal length with Declination Circle of 3 feet diameter, and Hour Circle of 2 feet diameter, by Jones. The Transit Clock is by Hardy. There are also two other clocks, one by Molyneux and Cope, and one by Graham, with several smaller instruments, of which some have been purchased by the Plumian Professors according to the regulations of their foundation, and others have been bought by the University, or have been presented to the Observatory by individuals.

On Feb. 27, and March 18, 1829, Graces passed the Senate by which the former regulations for the appointment of the Assistants were revoked, and the following substituted. The Plumian Professor (under whose superintendence the Observatory is placed) is authorised to appoint, with the consent of the Vice-Chancellor, one or two Assistant Observers, as he may see necessary; and they or either of them are removable from the office by the authority of the Plumian Professor with the consent of the Vice-Chancellor: and their annual salaries are to be determined by Graces of the Senate, and to be paid out of the common chest. And on June 11, 1829, and May 14, 1834, the annual salaries of the Assistants were fixed by Grace at £80.

By the Grace of Feb. 27, 1829, it was also ordered, that on the first congregation of November in each year, a Syndicate should be appointed by Grace of the Senate, who with the Plumian Trustees and the Plumian and Lowndean Professors, should visit the Observatory at least once in each Term; and should in the month of May (after inspecting the instruments, &c., with such Members of the Senate, and strangers distinguished for their knowledge of

Astronomy, as the Vice-Chancellor and the Plumian Professor might invite to assist them) make a report to the Senate of the state of the Observatory, and the proceedings of the previous year.

The volumes of Observations made in the years 1828—1839, have been published (the expence of which was defrayed by the Press Syndicate,) and copies have been distributed to the principal Observatories and Academies in Europe, as well as to several private Observers. The Observations of 1840 are in the press.

The Observatory is open to members of the University and their friends every day (except Sunday), between half-past Twelve and half-past One. No stranger is admitted except in company with a Member of the University.

In the Spring of 1835, a magnificent telescope, of nearly twelve inches aperture and twenty feet focal length, made by M. Cauchoix of Paris, was presented to the Observatory by his Grace the Duke of Northumberland. His Grace at the same time intimated his wish to be allowed to present the telescope in a complete working state. A building has accordingly been erected near the Observatory, with a revolving dome, twenty-seven feet in diameter, and the equatoreal mounting of the telescope has been completed under the superintendence of the late Plumian Professor.

THE ANATOMICAL MUSEUM.

THIS rich and interesting Collection, now placed in commodious buildings lately erected at great cost by the University, is under the care and superintendence of the Professor of Anatomy for the time being. It is used by him and by the Regius Professor of Physic, for the illustration of their respective lectures. It originated in a small number of choice preparations which were presented to the University by Mr Lawrence. The Museum of the late Sir Busick Harwood was afterwards added to it by purchase: and further acquisitions were made at various times, with grants of money from the common chest, particularly on occasion of the sale of Mr Brooks's Museum, and when a series of models in wax was executed under the direction of the present Professor at Florence and Bologna. From these sources, and from the donations of many friends of the University, this portion of the Collection consists of more than thirteen hundred specimens.

In the year 1836, the rare and valuable collection of Dr Macartney, Professor of Anatomy in Trinity College, Dublin, was purchased by the University. This consists of more than two thousand specimens, and is an acquisition by which the riches of the Museum have in every department, except the osteological, been more than doubled.

A descriptive Catalogue of the entire Museum is in course of preparation. It will distinctly record the names of each of the donors, or authors of the works, which it enumerates.

By a Grace of the Senate, passed Nov. 16, 1836, the Museum is at all times open to the Regius Professor of Physic; to the other Professors of Medicine or Natural Science, to Doctors and Bachelors of Physic, and to all Students attending the Lectures of the Regius Professor of Physic, and of the Professor of Anatomy, or of any of the above-described Professors, from *Eleven to Twelve* every day, with the exception of Sundays, Christmas-day, and Good Friday. It is also open to all Graduates, and to Visitors introduced by any Member of the Senate, from *Two till Three* on Tuesdays, Thursdays, and Saturdays.

The Museum is visited by the Vice-Chancellor, the Regius Professor of Physic, and one other Inspector appointed by the Vice-Chancellor, on some day in the Michaelmas Term previous to the 1st of November in each year, who examine and report upon its condition to the Senate.

THE GEOLOGICAL MUSEUM.

THE original collection in the Geological Museum consisted exclusively of those specimens, English and Foreign, which are described in Dr Woodward's Catalogues, printed in 1729. The English Fossils were bequeathed by him to the University; and by a Grace of the Senate, dated Feb. 26, 1728-9, the Vice-Chancellor was empowered to purchase of his heirs, for a sum not exceeding £1000. the foreign fossils described in the above-mentioned catalogues. This purchase having been carried into immediate effect, the whole collection came into the possession of the University, and remains nearly in the same order, and in the same ancient cabinets, in which the Doctor first arranged it. Two Graduates of the University are annually appointed to inspect its condition, and their report is delivered on the 1st of May to the Heads of Houses, who form a board of Auditors under the provisions of the Founder's will.

This noble monument of the talents and unwearied labours of Dr Woodward long remained in a room ill fitted for its reception, where the specimens which formed the best part of the collection could not be well exhibited: but, during the summer of 1841, it was removed into a convenient and well-lighted closet, in the north-eastern corner of the Museum, under the new wing of the Public Library.

It not merely possesses a great historical value, as representing the condition of a progressive science during the latter half of the 17th century; but it contains such a large series of organic remains, with the locality of each specimen carefully recorded, that almost every part of secondary geology may still derive from it many important illustrations. Out of respect to the Founder it will therefore be preserved in its original state, unmixed with the more recent additions to the Museum.

Professor Green added some valuable organic remains to the Woodwardian cabinets. But Professor Hailstone, after his ap-

pointment, formed another distinct collection composed of many rare and beautiful simple minerals, and of specimens illustrative of the physical structure both of the British isles and of some portions of the Continent. In this labour he was assisted by the munificence of various friends of the University.

During the last twenty-five years continual additions have been made to the collection; partly by the personal labours of the present Professor and his friends, and partly by the purchase of specimens made from time to time by the University, under the sanction of the Board of Auditors, out of the Woodwardian surplus: so that it now contains many thousand specimens of organic remains illustrating the natural history of the British rocks, from the newest Beds above the chalk, to the lowest fossiliferous strata of Cumberland and North Wales. During the past year a magnificent *Plisto-taurus* was added to the collection by a subscription of the members of the University. It contains also a noble series of many thousand rock-specimens from the most important formations of the British Isles. A considerable time must, however, elapse before all these specimens can be permanently arranged; but there is now ample room for their accommodation in the cabinets of the New Museum.

The Museum also contains some good foreign collections, among which may be specified, (1) A miscellaneous series of many thousand fossils, purchased (in 1840) of Count Münster; (2) A beautiful series of organic remains from the Muschelkalk; (3) A series of specimens, illustrating the tertiary geology of France, partly collected, and partly purchased by the present Professor.

Several years must elapse before all the above-mentioned collections can be put in complete order, and described in catalogues. A considerable progress has, however, been already made in this labour; and during the Spring months of the past year the upper compartments of the Table-cases were covered with illustrative specimens; so that the Museum has already become available to the public, and of great value to the Geological Student.

ST PETER'S COLLEGE.

(FOUNDED 1257.¹)

Copies of the Statutes in the British Museum; Old Statutes, Mss. HARLEY, No. 7032, p. 187. New,—No. 7046, p. 132.

THIS most ancient College or House was founded by HUGH DE BALSHAM, Bishop of Ely, for a Master and fourteen Fellows.

The Fellowships are open without restriction to natives of any part of the British dominions, but no one is eligible who is M.A. or of sufficient standing to take that degree. The Bishop of Ely appoints to the Mastership one of two candidates presented to him by the society. The candidates must be Doctors or Bachelors of Divinity, and must be selected, if possible, from the Fellows on the foundation. Formerly, there could not be more than two Fellows of a county, (except of Cambridge or Middlesex); and seven Fellowships were confined to the northern, and seven to the southern division of England and Wales; but these restrictions were removed by letters patent which came into operation in June 1839.

One fourth part only of the Foundation Fellows are required to be in priest's orders. By Queen Elizabeth's licence, the five senior Clerical Fellows may hold any livings with their Fellowships, provided they are not more than £20 in the *Liber Legis*, and within 20 miles of the University of Cambridge. The bye Fellowships, which are perfectly open and unrestricted, are distinct from the former: the possessors of them are not entitled to any office or voice in the affairs of the College. Two, founded 1589, by Andrew Perne, D.D. Two, 1601, by Lady Ramsay. And four, 1637, by Thomas Parke, Esq.

Two Fellowships of £70 per annum each, and four new Scholarships of £30 per annum each, have recently been added to the College, from the donation of the Rev. Francis Gisborne, M.A. late Fellow of St Peter's.

This foundation bears the name of the donor. The two Gisborne Fellowships are tenable for seven years, and any person may be elected from either of them into a foundation Fellowship before he

¹ The date of the Charter is A.D. 1204.

is of standing to take his M.A. degree. These Fellowships are vacated by marriage, or by the possession of any permanent income amounting to £250 per annum.

The rest of the Scholarships, fifty-eight in number, of different value, are paid in proportion to residence. A few of them are in the patronage of Lord Melbourne, and preference is given to scholars from Hertford School. There is an exhibition from the Company of Cloth-workers, and one from the Ironmongers. The society elect one sizar annually, after an examination at the beginning of the October term. The candidates must be in the first year of their residence, and may have been previously admitted as pensioners.

Annual Prizes are given, together with the vacant Scholarships, to those who are most successful in the Midsummer Examination. A deserving candidate may obtain more than one Scholarship at the end of his first year, and may also be elected to others at the end of his second and third years.

CLARE HALL.

(FOUNDED 1326.)

Copies of the Statutes in the British Museum, New Mss. HARLEY, No. 7932, p. 319. Old.—No. 7041, p. 53. New University Library, Mss. Mm. 3. 5.

THIS ancient College, Hall, or House, founded by Lady ELIZABETH, sister and co-heir of GILBERT, Earl of CLARE, consists of a Master, ten Senior or Foundation Fellows, nine Junior, and three Bye-appropriation Fellows, besides Scholars, Students, and Foundation Servants. All these Fellowships, with the exception of those which are appropriated, are perfectly open to all persons who are Bachelors of Arts, or of a higher degree, no one being superannuated, or incapable of being a candidate on account of age or length of standing in the University. An election must take place within ten weeks and three days after a Fellowship has become vacant. The electors are, the Master, Senior and Junior Fellows; and, in case there be an equal division, the Master has the casting vote. The Master is elected by the above-mentioned Fellows within eleven days after a vacancy is known, and a candidate must be either a Bachelor or Doctor in Divinity. Fellows neglecting to take the degree of M.A. at the regular time, are punished by a fine; but the degree of B.D. has not of late years been required. The Seniors must all profess the faculty of Divinity except two, who, with the consent of the Master and major part of the Fellows, may practise Law and Physic. Six of the Seniors must be in Priest's Orders.

The nine Junior Fellowships were founded by different benefactors, (*viz.* three by Lord Exeter in 1612, two by John Freeman, Esq. in 1622, and four from the estates bequeathed to the college by Joseph Diggons, Esq. in 1658.) Of these, two may be held by laymen, the other seven require Priest's Orders after a certain standing. They enjoy the same privileges as the Seniors.

The Three Bye-appropriation Fellows have no voice in any college business, can hold no college office, and are incapable of being ever elected into any other Fellowship. They are obliged to take Priest's Orders within seven years after they are Bachelors of Arts. Two of these fellowships, founded by Mr Philpot, are appropriated to natives of Kent, with a preference to those born in the hundred of Blackheath. The third was founded by Mr Borage, for his

name and kindred, or a Norfolk or a Norwich man. This Fellowship is not tenable by a Non-Regent Master of Arts.

There are eight Scholarships lately increased, four of which are £50 per annum each, and the other four £20 each, besides a weekly allowance in the butteries of 3s. 3d. during residence. They are tenable by undergraduates only, and are so arranged that one on each foundation shall be vacant every year. There are also,

One founded by Sir John Trott, value £20 per annum, and tenable till M.A.

One founded by Mr Ralph Scrivener, value about £14 per annum.

Two by Mr. Cave, appropriated to Scholars from Wakefield School, value one guinea and a half each per week during residence.

One by Alexander Metcalfe, appropriated to a Scholar from Hull School, value 12s. per week during residence.

One by Benjamin Cherry, Esq. of £40 per annum, appropriated to natives of Hertford; or in case of there not being a candidate from thence sufficiently qualified, open to general competition.

Besides these there are upwards of thirty other Scholarships, varying in value from two to six shillings per week, and are allowances in the butteries during residence.

All the above Scholarships (except the four specified) are open to all competitors, and the annual examination takes place at the same time as the Senate-House Examination for the degree of B.A.

Four exhibitions of £20 per annum each, were founded by Archdeacon Johnson, with a preference to persons educated at Oakham and Uppingham Schools.

The present Society wish to admit no more than three Sizars.

ANNUAL PRIZES.

ONE of ten pounds, left by Mr Greaves of Fulbourn, to any Bachelor of Arts (not a Fellow of the college) who shall compose the best Dissertation on the character of King William III. It must be sent to the Master on or before Michaelmas-day, and that which is adjudged to be the best is recited on the 4th of November in the Hall of the college. Last year given to Ds Jones.

Two silver cups, with appropriate inscriptions, value £6 each, left by Dr Robert Green, of Tamworth; the first as the reward of regularity of conduct, the second of general learning. The first adjudged this year to Ds Haskoll, the second to Ds Glover.

Prizes are given for the best declamation and theme; and to the best reader in chapel.

There is also an annual examination immediately before the division of the Easter Term, when those who distinguish themselves are rewarded with a prize of books, bearing the college arms.

PEMBROKE COLLEGE.

(FOUNDED 1347.)

A Copy of the Statutes in the British Museum.

MS. HARLEY, No. 7034, p. 124.

THIS College was founded under the name of VALENCE-MARY, by Mary de St Paul, the widow of Aymer de Valence, Earl of Pembroke; and King Henry VI. was so liberal a benefactor to it, as to obtain the name of a second Founder.

There are *fourteen* Foundation Fellowships open to persons of every *nation*, with this limitation, that no more than three be filled by natives of the same county; London and Middlesex however being reputed separate counties. There is also in the election to that Fellowship which was established by Archbishop Grindal, formerly Master of the College, a preference given to a Scholar educated at St Begh's School in Cumberland.

Although there may be no Fellowship vacant, yet a candidate is never considered as superannuated.

When more than ten of the Fellowships are filled, six of the Fellows must be in orders.

There are also *two* Bye-Fellowships, one founded by William Smart, Esq. of Ipswich, with a preference for the Scholars on his own foundation in this College: the other founded by Benjamin Lany, D.D. formerly Bishop of Ely and Master of the College.

The Scholarships belonging to the College are,

Six Foundation of the yearly value of £28 each.

Three, founded by Archbishop Grindal, of the yearly value of £28 each, for Scholars educated at St Begh's School.

Eight Greek, seven founded by Thomas Watts, D.D. formerly Archdeacon of Middlesex, and the other by Thomas James, Esq. Of these the four Senior Scholarships are of the yearly value of £14 each, and the four Junior of the yearly value of £12 each.

Six others, two founded by William Smart, Esq., and four by Ralph Serivener, Esq. of the yearly value of £5 each, with a preference for those who have been educated at the Grammar School at Ipswich.

Six, founded by Charles Parkin, M.A. formerly Rector of Oxburgh in Norfolk, of the yearly value of £50. Of these five are for

such Scholars of Merchant Tailors' School as have been there four years at the least immediately before their removal to the University, with a preference for such of them as are superannuated; and the other for one who has been a Scholar of the Free School at Bowes in Yorkshire for two years at the least immediately before removal to the University. When there are no properly qualified Candidates from the aforesaid Schools, these Scholarships are at the free disposal of the Master of the College.

One, founded by William Stuart, D.D. formerly Chancellor of the Diocese of Exeter, of the yearly value of £80, for a superannuated Scholar of Merchant Tailors' School, who has been there five years at the least immediately before appointment.

The Exhibitions belonging to the College are—

One, of the yearly value of £70, founded by Mr. John Holmes, for a Scholar educated at Blackrode School in Lancashire. This Exhibition is given by the Governors of the School, and the Scholar who holds it also receives from the College an additional Exhibition, the gift of Mr Warren, formerly a Blackrode Scholar, of the yearly value of £5.

Several founded by Sergeant Moses, who presided over the College during the time of the Commonwealth, of the yearly value of £50 each, for Scholars educated at Christ's Hospital, which Exhibitions they hold in addition to others of the yearly value of £60 each, allowed by the Governors of the School.

One, of the yearly value of £6, founded by Roger Long, D.D. formerly Master, for a Scholar appointed by the Master to keep the key of the room in which Dr Long's sphere is placed.

Besides the above there are other Exhibitions, given to the College by Robert Mapletoft, D.D. formerly Master, and by others, to which the College have made such an addition that *three* Sizars may have £12 each yearly.

The enjoyment of one Scholarship or Exhibition does not preclude a deserving person from holding others *on different Foundations*.

There is an annual Examination at the division of the Easter Term, when prizes in books are given to the best proficient in each year.

Two prizes of books are also given annually for the best compositions in Latin Verse and Prose, for which any Junior Soph or Freshman may be a candidate.

A Copy of the Statutes in the University Library.

Mss. Mm. 4. 20.

THIS College, originally styled Gonville Hall, was founded in 1349 by EDMUND GONVILLE, son of Sir Nicholas Gonville, rector of Terrington, in Norfolk, and endowed for a Master and four Fellows; the revenues were afterward augmented by various benefactors; but were subsequently increased by the new foundation of Dr JOHN CAIUS in 1558, and a new charter obtained, by which the College was to be designated "Gonville and Caius College." There are now twenty-nine Fellowships; twelve are called Senior Fellowships, being all that were founded at the time of the second charter granted to Dr Caius, in 1558; of these, three are of the old foundation open to all counties, and to laymen; three founded by Dr Caius, to be possessed by Norfolk men, two of whom must be physicians; and the remaining six, all by different founders, two confined to the Norwich Diocese, and the other four open to all counties; one of the six is open to laymen. In all the Senior Fellowships which are not particularly confined, there is, in case of equality among the candidates, a preference given by statute to those who are born in the Norwich Diocese. Of the rest which do not belong to the Foundation, six were founded by Mrs Joyce Frankland, to be open to all counties, and to laymen; one by Mr Stokys for a priest; one by Dr Wendy, to be held by a priest born in the Norwich Diocese; of the remaining nine, six were founded by Dr Perse, open to all counties, and to laymen, with a preference to Scholars who have been three years in the Free Grammar School founded by him in Cambridge, and afterwards elected to a Perse Scholarship, and three by Mr Wortley, to one of which a part of Devon has a claim, and one is confined to Norfolk.

There are twenty-six Scholarships, of which

A Scholarship in Chemistry of £20 per annum—founded by John Mickleburgh, M.A. formerly Professor of Chemistry in this University—is given after an examination held annually at the beginning of May. All Undergraduates not entered into their sixth year are eligible: and Bachelors of Arts may be candidates in two examinations after that degree.

Four Studentships in Physic, £113. 8s. per annum each, founded by *C. Tancred, Esq., are held by members of the college. If, after a vacancy has occurred, the successful candidate be of another college, he is obliged to remove to Caius College. These Students are required to take the degree of Bachelor in Physic as soon as they are of sufficient standing for the same, and they may hold the Studentships for three years after their degree. Those therefore who are elected previous to admission at any college, can hold them eight years. The electors to the Studentships are, the Masters of Caius and Christ's Colleges, the President of the College of Physicians, the Treasurer of Lincoln's Inn, the Master of the Charter House, and the Governors of Greenwich and Chelsea Hospitals.

There are besides two Exhibitions founded by John Lyon, A.D. 1590, and two Scholarships of £52. 10s. per annum each, for Students from Harrow School; the latter founded in the year 1830, by John Sayer, Esq. M.A. Barrister at Law, formerly a Senior Fellow of this College.

ANNUAL PRIZES.

PLATE to the value of £10 to one judged worthy for proficiency in Mathematics amongst the commencing Bachelors of Arts.

The Examination in Classics and Theology is held at the end of the Lent Term. The Mathematical Examination takes place about the division of the Easter Term. After each of these examinations prizes, in books, of five and three guineas value, are given to the first and second of the Junior Sophs; and, of the same value, to the first and second of the Freshmen.

There is an Examination in Moral Philosophy also, about the division of the Easter Term, for the Junior Sophs; the first on the list obtains one of the exhibitions of £18 value.

An Examination in Anatomy and Physiology is held at the beginning of May: to the student who displays the best proficiency

* C. Tancred, Esq. (who died August 1734) also founded four Studentships of nearly the same annual value, appropriated to Law, to be held only by Students of Lincoln's Inn, who are not required to be Members of the University.

is assigned one of the exhibitions of £10, tenable for three years. All the Medical Students are expected to pass this Examination as well as the Chemical Examination, between their seventh term of residence and the period of taking the M.B. degree.

The Thruston speech, upon a medical subject, is made at Dr Wendy's commemoration. The speaker is presented with the sum of £18; he is chosen by the Master and Fellows out of the Medical Graduates, the appointment being made generally in rotation according to seniority.

The Wortley Speech, on some literary or philosophical subject, is delivered on the commemoration of Mr Wortley, by one of the Fellows on his Foundation.

The Tancred Speech, in Latin, upon the progress of Medicine since the time of Dr Caius, is delivered annually at his second commemoration by one of the Tancred Students.

TRINITY HALL.

(FOUNDED 1350.)

Copies of the Statutes in the British Museum.

Mss. HARLEY, No. 7029, p. 385.

AT this College, more peculiarly appropriated to the study of Civil Law, there are twelve Fellowships, open to persons of every nation and country without restriction. Bishop BATEMAN, the founder and noble benefactor of this institution, originally intended to have founded twenty fellowships; but dying before the designed foundation was completed, (*viz.* A.D. 1355, at Avignon,) his legacy was only deemed sufficient for the maintenance of a Master, three Fellows, and two Scholars. The nine remaining Fellowships were founded by the following benefactors:—Two by Simon Dalling; three by Bishop Nix: one by Robert Goodnape; one by Dr Hewke; one by Dr Mowse: and one by the College. It is usual that ten of the Fellows should be laymen, and two in holy orders. Graduates in Arts, not of less standing than within one year of the time of incepting as M.A., and Students of three years' standing in Civil Law, are eligible.

There are in all fifteen Scholarships, namely,

Three of the First Class of 50 guineas a year each;

Three of the Second Class of 30

Nine of the Third Class of 12

These Scholarships are awarded according to merit to Undergraduates who distinguish themselves at the College Examinations in the Lent and Midsummer Terms of their first year, and are tenable during residence.

There is also a provision, worth about £30 a year, for a Chapel Clerk, who is usually selected from the more distinguished of the Scholars.

Of the 12 guinea Scholarships two are founded by Dr Allen, with preference *cæteris paribus*—first, to founder's kin; secondly, to Scholars from the Free Grammar School at Richmond, Yorkshire; thirdly, to Scholars from any other School in Yorkshire; fourthly, to Scholars from the Norwich Diocese; and fifthly, to Scholars from the town or county of Cambridge.

ANNUAL PRIZES

Are given in Books to the best proficient at a general examination.

Prizes are also given for the best Exercises in English and Latin Composition. The subjects are proposed at the end of the Lent Term, and the exercises must be delivered in before the 12th of November following.

MANUSCRIPT LIBRARY.

THE valuable Manuscript Library, left by Archbishop Parker to this college, is under the following particular restrictions: Every year on the 6th of August, it is to be visited by the Masters or locum-tenentes of Trinity Hall and Caius College, with two scholars on Archbishop Parker's foundation, and if on examination of the library, twenty-five books are missing, or cannot be found within six months, the whole collection devolves to Caius. In that case.

the Masters or locum-tenentes of Trinity Hall and Corpus Christi College, with two scholars on the same foundation are the visitors; and if Caius College be guilty of the like neglect, the books to be delivered up to Trinity Hall: then the Master or locum-tenentes of Caius and Corpus Christi, with two such scholars, become the inspectors; and in case of default on the part of Trinity Hall, the whole collection reverts back to its former order.

KING's COLLEGE.

(FOUNDED 1441.)

Copies of the Statutes in the British Museum, Mss. HARLEY, No. 7323.—A Specimen in the University Library, Mss. BAKER. Vol. xxxii. p. 219.

THIS royal foundation consists of a Provost and seventy Fellows and Scholars; the latter are supplied by a regular succession from Eton College, which was founded and endowed about the same time by King HENRY VI. The Society of Eton now consists of a Provost, seven Fellows, and seventy Scholars; and the vacancies at King's for the last twenty years have averaged at above four in the year. The time of electing scholars into the royal foundation of Eton, is about the end of July or beginning of August; at which time a general examination as to their proficiency in classics takes place, before the Provost of each college, the Vice-Provost and Head Master of Eton, and two *posers* or examiners nominated by King's. After such examination the scholars are placed in the order of their future succession to King's, and on a vacancy in the latter, they are admitted upon that foundation; and after the expiration of three years from the day of their admission, they are chosen ¹Fellows, or are no longer Members of the College.

Some *peculiar* privileges appertain to King's. The Provost has absolute authority within the precincts, and by special composition between this Society and the University, its undergraduates are exempt from the power of the Proctors and other University Officers, within the limits of the college: and they are in no way examined by the University for their Bachelor of Art's degree.

ANNUAL PRIZES.

Dr COOKE (formerly Provost) left £6 to such scholar or scholars as shall be adjudged to have deserved well by application to their studies and general orderly behaviour.—Last year adjudged to A. Brine, Yonge, and Johnson.

Dr GLYNN bequeathed £20 to be equally divided, towards the end of Easter Term, between such scholars of the said college

¹ This and Trinity Hall are the only colleges at which undergraduates can be elected Fellows. Here, however, they are obliged to take both Bachelor's and Master's degree in the University

when of sufficient standing, or otherwise they are not entitled to the full proportion of their dividends.

as have in the course of the year been most distinguished for learning and regularity of conduct.—Last year adjudged to Brine, and Thring.

There are two £5 prizes for Latin declamations, left by Dr. James.

There are two £5 prizes for English declamations, given annually by the college.

There is also a prize of £5 given by the college to the best translation of an English subject into Greek Iambics.

QUEENS' COLLEGE.

(FOUNDED 1446—RE-FOUNDED 1465.)

The Statutes have been printed, for the use of the Society. Copies exist in the University Library, Mss. BAKER XXXII. p. 241, also British Museum, Mss. COLE, XLVII. p. 357.

THIS College was founded by the two Queens, MARGARET of Anjou, consort of Henry VI. (in 1446,) and ELIZABETH WIDVILLE, consort of Edward IV. (1465.)

The President must be elected by a majority of the whole existing body, on the eighth day after a vacancy, and must be (at least) a B.D. He must also be possessed of property to the amount of £20 per annum if not a Fellow at the time of his election.

There are nineteen Foundation Fellowships perfectly unrestricted. All the Fellows within four years from commencing B.A. must proceed to M.A.; those who are on the ecclesiastical foundation must, within two years from M.A., be in Holy Orders, and within nine years from M.A. proceed to B.D. Only two Fellows may remain laymen, who proceed to M.A. like the rest, and within twelve years from M.A. the one must proceed to LL.D. the other to M.D. The Vice-President and the five Seniors hold their Fellowships with property: the others recede from the Society when possessed of a real annual income stated in the oath before admission. The five senior Divines may hold livings not exceeding £20 per annum, and within twenty miles of Cambridge. On the petition of the Society, the Crown has frequently *dispensed* with some of the above restrictions.

A *Bye-Fellowship* was founded in 1694, by D. Edwards, gent. This is perfectly open, may be held by a Layman, and is tenable with any property or preferment, except ecclesiastical to a certain amount. Edwards' Fellow has no vote in the Society, and his privileges consist chiefly in a title to rooms and commons.

The Scholarships which were consolidated some years ago have been again consolidated and augmented by college grants; and it has been agreed by the President and Fellows that there shall in future be 15 Scholarships, tenable till B.A., two of which shall be £50 a year, two £40, and eleven £15.

The election shall take place at the general Examination, previous to the Division of the Easter Term; and the half of each Scholarship shall be considered to be due at the Midsummer immediately following the Election, and the other half at the next Bachelor's Commencement.

These Scholarships shall be disposed as follows :

To the five Freshmen who pass the best Examination at the division of the Easter Term, provided they be considered worthy of such distinction, Scholarships of £15.

To the two Second year men who pass the best Examination, provided as above, Scholarships of £40.

And to the two Senior Sophs who pass the best Examination, provided as above, Scholarships of £50.

It has been further agreed that if there be any Students deserving of Scholarships, besides those contemplated in this plan, they shall have supernumerary Scholarships:—and if any Students appear to deserve better Scholarships than those above mentioned, their Scholarships shall be increased.

Two *Stokes' Scholarships*, £15 per annum, to be given to the Chapel Clerks.

¹ Two *Sedgwick's Scholarships*, average £15 per annum, capable of increase to £20, but subject also to diminution; (sons of poor Clergymen to be preferred). Require residence of *whole* terms; vacated *ipso facto*, by absence of *two* terms.

¹ One *Clarke's Scholarship and Librarianship*, £15 per annum.

² One *Sandys' Scholarship*, £12 per annum.

The Rev. Thomas Penny White, M.A. of this College, founded in 1842, an annual prize of the value of £30 to be given to the commencing Bachelor who has taken the highest degree, provided he is among the first four Wranglers; or among the first four in the Classical Tripos.

ANNUAL PRIZES.

ONE for the best Composition in Divinity, by a Bachelor of Arts, 10 guineas.—Last year adjudged to Ds Ketley.

Two to the best proficient in Mathematics, of the third and second year, five guineas each.—Last year the prize for the third year was adjudged to Deighton. The prize for the second year was adjudged to Starley.

Two for a Latin and English Dissertation by Undergraduates, who are not Questionists, five guineas each. The former was adjudged to Thomson, jun. and the latter to W. H. Clarke.

ST CATHARINE'S HALL.

(FOUNDED 1473.)

A Copy of the Statutes of this College is not known to be lodged in any public repository.

THIS College or Hall was founded by ROBERT WODELARKE, D.D., Chancellor of the University, and Provost of King's College, for a Master and three or more Fellows. Accordingly, the Visitors who were sent down to the University by King Edward VI. ordained that there should be then six Fellows, and that for the future there should be a greater or less number in proportion to the revenues of the College. The Fellows must be natives of England, and there cannot be more than two of the same county at the same time: two of them at least must be in Priest's and one in Deacon's Orders. Whenever a vacancy occurs, the senior who is not in such Orders must take them in the course of a twelve-month, unless a junior does of his own accord, or he vacates his Fellowship.

There are also eight Bye Fellowships, founded by subsequent benefactors:—

One by Mr Frankland, which is appropriated to a man educated at Coventry School; and who is in other respects properly qualified. The Master and Fellows, who are the electors, are required by the Founder to have a careful regard also to the recommendation of the Mayor and Aldermen of Coventry.

One by Mr Holway, which is called the Conduct Fellowship.

Six by Mrs Mary Ramsden, with a preference first to natives of Yorkshire, then of Lincolnshire; and in case no such candidates duly qualified offer themselves, these Fellowships are open to men of any county. Fellows on this foundation are not required to take orders. All persons are ineligible to these Fellowships who are 24 years of age.

The Fellows on this foundation are called Skirne Fellows.

Mrs Ramsden also founded ten Scholarships, with the same preference to Yorkshire and Lincolnshire men, which are now £35 per annum each, with Chambers rent free.

Mr Frankland also founded a Scholarship of £10 per annum, which is appropriated to a person educated at Tamworth School.

Mr Holway founded two of £6 per annum each, which are appropriated to persons educated at Eton, or Merchant Taylors School.

There are also three Scholarships of £20. 14s. 4d.—eight of £20.—one of £12.—five of £5.—seven of £4.—two of £3. 6s. 8d.—two of £2. 13s. 4d.—and two of £2. per annum each; all perfectly open.

Bishop Sherlock founded the Librarianship, worth £20 per annum, with Chambers rent free. He also considerably augmented the salary of the Master's Sizar, present value £34 per annum, with Chambers rent free. The Chapel Clerk receives £16 per annum and Commons, with Chambers rent free.

ANNUAL PRIZES.

Books to the value of £5. are given on the Thursday preceding the division of Easter Term, to the best proficient in classics on Mrs Ramsden's foundation. Last year the prize was adjudged to Smyth.

There is annually a Classical and Mathematical examination of the Junior Sophs and Freshmen at the division of the Easter Term, when prizes in books are adjudged to the best proficient in each year.

JESUS COLLEGE.

FOUNDED 1496.

AT this College, founded by JOHN ALCOCK, Bishop of Ely, there are sixteen Foundation Fellowships, open to all her Majesty's subjects, without any restriction or appropriation whatsoever; five of the original foundation, four founded by Dr Fuller, Master of the College, and the rest by various benefactors. Six of the Fellows are required to be in Orders. On every vacancy of a Fellowship, the Master and Fellows nominate two candidates, of whom the Bishop of Ely elects one. There is one Fellowship founded by James Stanley, Bishop of Ely, to which the Bishop has an exclusive right both to nominate and appoint. The Mastership of this College is in the absolute appointment of the Bishop of Ely.

Mrs Sarah Jones, of Newport, Salop, bequeathed by her will, dated 21st February, 1825, the sum of £6000 in trust, the interest thereof to be paid to Mrs Mary Gregory during her life; and after her decease to be equally divided in three fellowships, to be founded at Jesus College, Cambridge, in memory of the Rev. Thomas Dummer Ley, late of Hingham, in the county of Norfolk, and formerly member of that College. Mrs Gregory died in August, 1837, and three Bye Fellowships, called "Ley" Fellowships, have in conformity with Mrs Jones' bequest, been founded.

The Ley Fellows must be graduates of this University, and they cease to be Fellows upon this foundation at the expiration of 12 years from the time at which they were of sufficient standing to complete the B.A. degree.

If a Ley Fellow be elected upon the foundation of the College, the Ley Fellowship which he holds will become vacant upon his admission into the foundation Fellowship.

The following is a list of the principal Scholarships and Exhibitions, founded by different benefactors:—

Four, £10 per annum each, appropriated to natives of Nottinghamshire and Yorkshire (*i*).

Eleven, about £30 per annum each, for clergymen's orphans of all counties in England and Wales. These Scholars must be admitted before they have completed their nineteenth year. The

possessors of these Scholarships, founded by Tobias Rustat, Esq. have a classical examination annually on the Thursday in Easter week, at which time, according to their respective merits, a gratuity to each from £20 to £30 (in addition to the above sum) is given. The Visitors are, the Vice-Chancellor, the Provost of King's, the Master of Trinity, and the Master of Jesus; and in case of the non-attendance of any of these four, the Master of St John's (*a*).

One, £40 per annum, or thereabouts, to the son of a living clergyman, with preference to a native of Nottinghamshire or Lancashire, *ceteris paribus*. The possessor of this Scholarship is subject to the same examination and rules of residence as the Rustat, but receives no gratuity (*b*).

One, £15 per annum, or thereabouts, to the son of a clergyman, with preference to an orphan, equally open to all counties. Examination and rules of residence similar to the Rustat, but no gratuity (*c*).

Three, £8 per annum each, or thereabouts, open to all (*h*).

One, £2 per annum, open to all (*l*).

One, £10 per annum, or thereabouts, for a scholar from Doncaster or Arksay Free Schools.

Two, £75 per annum each, for persons educated at Seven Oaks and Tunbridge Schools (*d*).

Two, £16 per annum each, left by Dr Gatford, open to all clergymen's orphans, and tenable from the degree of B.A. to that of M.A. (*e*).

One, £6. 8s. 6d. per annum, for persons from Caistor, Louth, or Alford Schools, or to the natives of Lincolnshire (*k*).

One, £3. 6s. 8d. per annum, to a native of Lancashire, Hertford, Cumberland, or Essex (*f*).

Two, £4. 10s. per annum, each; one to the county of Anglesea or Merioneth, the other to St Peter the Poor, or St Foster, in London.

One, of £60 or two of £30 per annum, or thereabouts, to persons educated at Loughborough School (*m*).

Fifteen foundations, perfectly open, which are generally given to those who most distinguish themselves in the College examination at the division of the Easter Term. The Scholars are allowed their commons free during residence.

ANNUAL PRIZES.

Books to the value of £6 for the best Latin and English Declamations.

Rev. Frederick Keller, formerly Fellow, left £20 per annum to one or more deserving Bachelors. Of this sum £10 in plate to the best proficient in Mathematics, if a Wrangler; (this year adjudged to Ds Röhrs); and £10 in plate or books to the best proficient in Classics, if in the first class of the Classical Tripos.

CHRIST'S COLLEGE.

(FOUNDED 1505.)

Copies of the Statutes in the British Museum, Mss. HARLEY, No. 7046, p. 155.—No. 7044, p. 61.—No. 3848, and No. 7352.

THIS College was originally founded by King HENRY VI., under the name of God's House; and consisted of a Master and three Fellows.

In 1505, Lady MARGARET, Countess of Richmond and Derby, mother of King Henry VII., changed the name, incorporated the former Society and its revenues with the present College, and endowed it liberally, to maintain a Master and twelve Fellows. This foundation is for Divinity, and the Fellows are required to take Priest's orders within twelve months after they have attained the proper age. The only appropriation of these Fellowships is to the counties of England and Wales; and the restrictions are, that there shall not be two natives of the same county Fellows at the same time, and that there shall be *six*, and only *six*, of the following nine counties, *viz.* Northumberland, Cumberland, Durham, Westmoreland, Lancashire, Derbyshire, Nottinghamshire, Yorkshire, and Richmond, (this *cum adjacentibus* the Foundress calls a county.)

King Edward VI. added another Fellow, who shares in emoluments with those on the original foundation. He may be of any county, and is not obliged to take Holy Orders.

Sir John Finch and Sir Thomas Baines founded two more Fellowships, unappropriated as to county, but with preference to the kindred of the founders; the revenues are independent of Lady Margaret's Foundation. They may be held by laymen.

These fifteen Fellows have an equal claim to the college patronage, and are allowed by the statutes to hold preferment with their Fellowships, provided it does not exceed the value of ten marks, after the deductions found in the *Liber Regis*.

The Scholarships founded by Lady Margaret are now augmented in value to 15*s.* weekly during residence. There cannot be more than three Scholars of the same county at the same time.

King Edward the Sixth founded three additional Scholarships. Besides these, various other Scholarships and Exhibitions have been founded by private benefactors; the principal of them are the following, *viz.*

Two, founded by Sir John Finch and Sir Thomas Baines, with preference to the kindred of the founders, about £10 per annum each.

Six, founded by Sir Walter Mildmay, £2 per annum each.

Three, founded by the Rev. T. Wilson, appropriated to Scholars from Kirkby Lonsdale School, Westmoreland, about £20 per annum each.

Three, founded by Bishop Otway, appropriated to Scholars from Kirkby Lonsdale School aforesaid, or in default of such, to Scholars from Sedbergh School, Yorkshire, £7 per annum each.

One, founded by Dr. Patynson, with preference to a native of Northumberland, or in default of such, to a native of the diocese of Durham. Of the same value as the foundation Scholarships.

Eight, founded by the Rev. R. Carr, appropriated to Scholars from Giggleswick School, Yorkshire, £5 per annum each.

Three, founded by Mr Petyt, with preference to Scholars from Skipton School, in Craven, Yorkshire, £6. 13s. 4d. per annum each.

Two, founded by the Rev. R. Risley, with preference to natives of Lancashire £1 per annum each.

One, founded by the Rev. R. Risley, with preference to the kindred of the founder, secondly, to the county of Huntingdon, about £25 per annum.

One, founded by Mr Broadbanke, to a native of the town of Huntingdon, £15 per annum.

Four, founded by Dr Seth Ward, Bishop of Salisbury, with preference to natives of Hertfordshire, educated at Buntingford School, £12 per annum each.

One, founded by Dr Plume, with preference to a Scholar from Malden School, or secondly, from Chelmsford School, or thirdly, from Brentford School, Essex, £5 per annum.

Two founded by Lady Drury, with preference to Scholars from Scarning, Holt, Swaffham, or Norwich Schools, about £30 per annum each.

One, founded by the Rev. C. Clarke, with preference to a native of Norfolk, educated at Norwich School, £10 per annum.

One, founded by Mr Rawlings, with preference to a native, first of Suffolk, secondly of Norfolk, £3 per annum.

One, founded by Sir Maurice Berkley, appropriated to a native of Gloucestershire. Of the same value as the Foundation Scholarships.

One, founded by Mr Harvey, with preference to a native of Bedfordshire, £5 per annum.

One, founded by C. Tancred, Esq. with preference to a native of Newmarket, secondly of the county of Cambridge, about £35 per annum.

Most of these appropriated Scholarships are tenable with the Foundation Scholarships.

Mr Tancred also founded four Divinity Studentships¹, which now amount to £107. 8s. per annum, and are tenable till M.A. The present possessors are, Ds Domville, Girdlestone, Roberts, and Cust.

¹ For the Electors to these Studentships, see Caius College.

1 The college nominates two Fellows, Lord Berkeley must present one of them.

ST JOHN'S COLLEGE.

(FOUNDED 1511.)

Copies of the Statutes in the British Museum. MSS. HARLEY, No. 7050, (printed in the 5th Report of the House of Commons on Education, p. 404) and in the University Library, MSS. BAKER. Vol. XXIX. p. 1.

THIS College was founded by Lady MARGARET, Countess of Richmond and Derby, mother of King Henry VII. and foundress of Christ's College. The original endowment was for fifty Fellows; but part of the foundation estates having been seized by King Henry VIII. the funds were found to be sufficient for thirty-two only. These Fellowships are (by Letters Patent from George IV.) now open to natives of England and Wales, *without any restriction or appropriation whatsoever*; one only excepted, which is in the appointment of the Bishop of Ely: but the Bishop is required, agreeably to an arrangement between James Stanley, Bishop of Ely, and the Executors of the Countess of Richmond, to elect according to the statutes in every respect. In this case, the Master is Visitor to the Bishop.

There are also 21 Fellowships founded by different benefactors, which have all the privileges of the former, and give an equal claim to the College patronage.

Candidates for Fellowships must be B.A. at least; and no person is superannuated, provided he has proceeded regularly to his degrees. This being a Divinity college, all the Fellows are obliged to be in Priest's Orders within six years from the degree of M.A. except four, who are allowed by the Master and Seniors to remain Laymen; two for the practice of Physic, and two for Law. The rest must proceed to the degree of B.D. at the regular time. The electors are, the Master and eight Senior resident Fellows, in whom is vested the entire management of all college concerns. The day of election is the second Monday after Mid-lent Sunday.

The following are the appropriated Fellowships, with their founders:

Four by Mr Ashton; two appropriated to the county of Lancaster or Diocese of Chester; one to the county or Diocese of York; and one to the Bishopric or Diocese of Durham.

One by Mr Bailey, which was augmented by his executor, to the parish of Tamworth, or to the county of Stafford or Derby, or the Diocese of Lichfield and Coventry. The person elected must be a Priest at 24 years of age, or within twelve months after.

Two by Mr Beresford, to the name and kin of the founder; then to the parishes of Chesterfield, Wirksworth, and Ashbourne, Derbyshire; or Alconfield, Staffordshire; and next to the counties; and for default of such, to the most apt and able within the University, after the form of the statutes of the college.

One by Sir M. Constable, to a priest of the county of York.

One by Bishop Dee, to his name and kin from Peterborough or Merchant Taylors' School.

One by Dr Fell, to Furness Fell, Lancashire.

Two by Mr Gregson, one to the county of Lancaster, and one to the county of Norfolk.

Two by Dr Lupton, and one by Mr Hebblethwaite, to scholars on their foundation from the Free Grammar School of Sedbergh, Yorkshire.

Two by Dr Keyton, to the choristers of Southwell, Notts.

One by Lady Rokeby, to Beverley, or the county of York. The person elected must be in Priest's Orders within six months after election.

One by Mr Halytreholm, to Beverley, or any place in the county of York adjacent to the same. The Fellow must be in Priest's Orders within twelve months from the time of election.

One by Mr Simpson to Cumberland, Northumberland, Westmoreland, or Richmond, Yorkshire.

One by Dr Thimbleby, to the county of Cambridge.

To most of the preceding appropriations, however, is added the following, or a similar limitation:—"If any such person in learning and manners be found, and virtuous, and disposed to learning," &c. and in default of these qualifications, then the said Fellows to be chosen of such persons "as be most singular in manners and learning, of what county soever they be, and be then abiding in the said college and University."

In addition to the preceding Fellowships there are three founded by Mr Platt, which have been increased in number by the college; open to all candidates, but perfectly distinct from the rest. These Fellows are not entitled to the same privileges as the others; they cannot hold any college office, or succeed to a Foundation Fellowship or Living.

All livings under £30 in the King's books, are tenable with College Preacherships, which are thirteen in number.

A Sermon is preached by one of the Fellows every year at Hatfield, on the second Sunday after the Feast of St Michael, and at Burleigh on the Sunday after St Luke's day.

SCHOLARSHIPS, EXHIBITIONS, &c.

THE number of Scholarships at this College is one hundred and fourteen, twenty-seven of which were founded by Lady Margaret. Four founded by Mr Platt have been since increased by the college to nine; and are tenable, like the Fellowships founded by him, by candidates born in any county. Those founded by the Duchess of Somerset have been augmented by the Society to six-

teen; five of which are appropriated to Scholars from Hereford School, with preference to natives of Somersetshire, Wilts, and Herefordshire; or to natives of the three said counties, though of any other School. The rest are appropriated to those educated at Marlborough, Hereford, or Manchester Schools.

The remaining Scholarships were founded by various benefactors.

There are also a considerable number of Exhibitions of different value, the principal of which are the following:—

One, about £100 and two £15 per annum each, founded by Mr Nadin, for students in Divinity; founder's kin, or men born in the province of Canterbury.

One, £12 per annum, left by Mrs Jones, to her kindred, or natives of Shropshire.

Two, about £10 per annum each, founded by Mr Robins, to founder's kin, or men born in Kent, with preference to scholars from Sutton Valence School.

Two, £20 per annum each, for scholars from Grantham School, Lincolnshire.

Four, about £9 per annum each, left by Mr Hewytt, for scholars from Linton School, Yorkshire.

Two, about £10 per annum each, by Dr Gower, for Clergymen's sons, with preference to those educated at St Paul's, London, or the Free School, Dorchester.

Four, about £20 per annum each, by Archdeacon Johnson, for scholars educated at Oakham, or Uppingham Schools.

Thirty unrestricted, about £20 per annum each, left by Sir Ralph Hare, Knight of the Bath.

Six, about £8 per annum each, left by Mr Baker, with preference to founder's kin.

Four, about £14 per annum each, for scholars from Shrewsbury School.

Three, about 7s. per week during residence, by Mr Mount Stephen, with preference to scholars from Peterborough School.

Four, £70 per annum each, for seven years, for scholars from Shrewsbury School. Electors, the Trustees of that School.

One, of £4 per annum, payable by the Fishmongers' Company, who generally considerably augment this exhibition.

Mr Wright left about £120 per annum, to be disposed of at the discretion of the Master and four Seniors.

Sir Isaac Pennington directed by his Will that good Exhibitions should be given to students born in the parishes of Hawkshead and Colton. Their number and value are at the discretion of the Master and Seniors.

The Very Rev. Dr Wood, Dean of Ely, and late Master of the College, founded nine Exhibitions of £40 per annum each. The Exhibitioners are to be chosen annually at Midsummer, from those students of the College, (not being either Bachelors of Arts, or of standing sufficient for that degree), "who are most in want of pecuniary assistance, and who are at the same time most distinguished for their regularity of conduct, industry, and learning."

An Exhibition, called the St John Port Latin Exhibition, value £ 50 per annum, has been founded for the best proficient in Classical learning among the Freshmen, whose names shall have been entered on the College boards before the end of the Easter Term next preceding their residence. The Examination will take place annually in the early part of the Michaelmas Term.

The Sizars at this College are chosen by an Examination, which takes place early in the October previous to their commencing residence. The Subjects are the Elements of Geometry, Arithmetic, and Algebra, and a few Classical Authors fixed upon in the preceding January.

There are nine Sizars, called *Proper Sizars*, on Dr Dowman's Foundation, who have their Commons free, and usually hold Exhibitions. They are chosen from the other Sizars, (after a residence of, at least, three terms,) by the Master and Seniors, preference being usually given to those who have ranked high in the classes at the general examinations, and by their conduct have obtained the approbation of the College.

ANNUAL PRIZES.

FIVE pounds to the best proficient in Moral Philosophy, among the commencing Bachelors of Arts, whose names have appeared in the list of honours. The examination, and decision of the prize, are usually before the publication of the first Tripos.

Those who are in the first class of the two general College examinations, one about the 16th of December, the other about the 1st of June, are entitled to a prize of books.

Those whose Themes, Verses, and Declamations, are thought deserving of notice, receive a similar reward.

There is also a Voluntary Classical Examination of those who are in their second and third years, at the beginning of the Easter Term; and such as distinguish themselves in this, and the two general Examinations of the same year, receive additional prizes of books.

About £150 is allotted annually for the above purposes.

The Rev. W. Wilson, B.D. formerly Fellow, has given prizes of books to the best readers of the Lessons in Chapel, whose general good conduct entitles them to the approbation of the College.

TRINITY COLLEGE.

(FOUNDED 1546.)

Copies of the Statutes in the British Museum, MSS. SLOANE. No. 659.—(Printed in the 5th Report of the House of Commons on Education, p. 363.) MSS. HARLEY, No. 3890. And in the University Library, MSS. BAKER, Vol. XXIX. p. 131. 179.—Vol. XXXI. p. 277.

THIS noble and magnificent College, the Mastership of which is in the appointment of the Crown, was originally endowed by King HENRY VIII. and afterwards augmented by his daughter Queen MARY, for the maintenance of a Master, sixty Fellows, and sixty-nine Scholars.

The government of the College is vested in the Master and the eight senior Fellows; and to such of these as are absent, the resident Fellows next in seniority are considered as deputies, without any express appointment.

The Fellows of this Society are chosen from the Scholars, ineligible if M.A. or of sufficient standing to take that degree: there is no appropriation whatsoever: all are required to go into Priest's Orders within seven years after they commence Masters of Arts, except two, who are appointed by the Master, and permitted to remain Laymen. The one is supposed to study Law, the other Physic. The Scholarships are open to men of any county, but two or three are usually filled up annually by Scholars chosen from Westminster School: and one of £50 per annum, founded by Mr Newman, for a native of Kent and Cambridgeshire alternately, at present held by Wickes, a native of Kent.

Of the value and number of the Exhibitions, the following is a statement.¹

† Four, Dr Lewis, £8. 6s. per annum each, to four Scholars who are natives of North Wales.

One, Mr Elwes, £6 for a Scholar appointed by the Master.—W. Smith.

Five, Mr Perry, £13 per annum each, to Scholars from St Paul's School, London. If the number is incomplete, the £65 is shared equally amongst them.—Webb, S. N. Stokes, Burnaby, Kingdon and Cooper.

Three, Mr Jeston, £6. 13s. 4d. each, for poor scholars.—Richardson, Butland and Gibbins.

¹ Exhibitions marked † are paid by the Representatives of their respective founders.

†One, Mr. Hope, £3. 8s. 8d. for Scholars from Lynn School.

†Two, Lady Verney, (estate at S. Littleton,) for Scholars from Cranbrook, or Warwick School.

Lady Campden founded several exhibitions from St Paul's School to Trinity College, some of which are of £100 per annum, and others of £70 per annum: they are selected by examination from the Foundation Scholars of St Paul's School.

Various benefactions to the amount of £136 are consolidated and divided among the resident Sizars; to whom also all Noblemen pay two guineas, and Fellow-Commoners one guinea each per quarter.—There are also sixteen Sizars upon the foundation, who are entitled to commons, rooms, and the principal part of the emoluments: to these the Sub-sizars succeed in the order of their places in the classes at the annual Examination.

ANNUAL PRIZES.

Dr Paris left a prize of £4 for the best Latin Declamation. The successful student delivers on the 6th of December (the day after the audit) a panegyric upon some illustrious character. A second Latin Declamation prize has been instituted by the college.—These prizes were last year adjudged to Newman and Gell.

Ds Hooper left three silver goblets as prizes, one of £20, the other two of £10 value each, for the three best English Declamations, upon subjects relating to the History of England. The person who gains the first prize, delivers on the Commemoration-day another Declamation on a general subject. Last year adjudged to Gibbs, Young and Johnson.

Any Junior Bachelor of Arts who writes the best Essay on the conduct and character of King William III. is entitled to a prize of £10 left by Mr Greaves of Fulbourn.—Last year no prize adjudged.

Three Prizes are given by the College, for the best compositions in Latin Verse, in Lyrical, Heroic, and Elegiac metres: a subject is proposed at the beginning of each term, and a prize is awarded to the author of the best Exercise in each subject. An additional prize is awarded if there be a second Exercise of especial merit on any of the subjects.—Last year two prizes were adjudged to Holden and Hotham.

Dr Walker gave £10 to purchase books for one or more poor Scholars, who shall appear to the Master, Vice-Master, and Senior Dean, most deserving at the time of taking the Bachelor's degree.—Last year adjudged to R. D. Harris.

The best reader in Chapel receives £4, the second ditto £2, at the discretion of the Senior Dean.—Last year adjudged to Gell and Twining.

A prize has been instituted by the College for the best English Essay, by a senior Soph, on some Literary, Moral, or Antiquarian subject.—Last year adjudged to Johnson.

Archdeacon Wrangham in the year 1842, founded a Prize to be given to one of the commencing Bachelors of Arts, who should have been in the first Class at each of the three College Examinations, and also in the first Class of the Mathematical and Classical Triposes.

Immediately after the division of the Easter Term, the Sophs, Junior Sophs, and Freshmen, are publicly examined in the hall, and divided into classes according to their respective merits; those who are in the *first class* of each year, are entitled to a prize of books, which are distributed on the Commemoration-day. The examiners are, the Head-Lecturer, the Greek, Latin, Greek Grammar, and Mathematical Lecturers, and the four Sub-Lecturers. The following are the respective first classes, as settled at the last Examination. The names are arranged alphabetically:—

EMMANUEL COLLEGE.

(FOUNDED 1584.)

Copies of the Statutes in the British Museum.

MSS. SLOANE, No. 1739.

THIS College was founded by Sir WALTER MILD MAY, Chancellor of the Exchequer and Privy Counsellor in the reign of Queen Elizabeth. The number of Foundation Fellowships is twelve; besides one founded by Mr Gillingham, the possessor of which receives a dividend arising from a distinct estate, but is in most other respects on an equality with the Foundation Fellows. These thirteen Fellowships are open to Englishmen of all counties, with this restriction, that there cannot be more than one Fellow of the same county at the same time; and no man can be a candidate till he has taken the degree of M.A., or is at least B.A. of the third year. He must be twenty-one years of age, and have been six years a member of the University. All the Fellows are obliged to proceed to the degrees of M.A. and B.D. as soon as they are of sufficient standing. The four Seniors are obliged to take Priest's Orders.

Beside these thirteen there are two on Sir Wolstan Dixie's foundation, who are obliged to proceed to their degrees equally with those on the original foundation, but they have no vote in any college affairs, nor any claim to the offices or dividends of the college. Candidates for these Fellowships must have taken the degree of B.A. and must be related to the Founder, or have been educated at Market-Bosworth School in Leicestershire. The heirs of the founder nominate and the College admits the nomination. There are likewise four Scholarships of Sir W. Dixie's foundation of £10 per annum, subject to the same restrictions.

The Foundation Scholarships are open to Englishmen of all counties; but there cannot be more than three Scholars of the same county at the same time. The Scholars receive upwards of £12 per annum in addition to the weekly payment of 10s. during residence¹. Besides these there are many Scholarships and Exhibitions, founded by various benefactors, to be given to the candidates most distinguished for learning and exemplary conduct.

Five by Dr Thorpe, of £24 per annum, with a preference, *cæteris paribus*, to the sons of orthodox clergymen.

One by Mr Hubbard, of £12 per annum, to the best of Dr Thorpe's scholars.

¹ N.B. Foundation Scholars are required to reside twenty-six weeks.

Ten by Mr Ash, of £10 per annum.

Four by Archdeacon Johnson, of £24 per annum, with a preference to candidates from Oakham and Uppingham Schools.

One by Dr Smith, of £16 per annum, with a preference to Durham and Newcastle Schools.

Two by Mr Richards of £12 per annum, with a preference to Christ's Hospital. The Scholars receive an allowance towards the expense of their B.A. and M.A. degrees.

Four by Dr Whichcot, of 4s. per week during residence, who are entitled to the same privileges of those of the foundation.

One by Sir Busick Harwood, of £10 per annum, with a preference to a medical student.

Two by Lady Romney, of £12 per annum each.

Two by the Rev. J. Brown, of 7s. 6d. per week during residence.

There are likewise exhibitions founded by the Rev. H. Aspinall, Rev. W. Branthwaite, Mr Hobbs, Lady G. Mildmaye, Mr J. Wells, Mrs Titley, &c., which in addition to the former, are given to the most deserving candidates.

DOWNING COLLEGE.

(FOUNDED SEPT. 22, 1800.)

The Charter and Statutes are printed.

THIS College will consist of a Master, two Professors (one of the Laws of England, and one of Medicine), sixteen Fellows, (two of which only are Clerical), and six Scholars. The objects of the foundation are stated in the Charter to be students in Law, Physic, and other useful arts and learning. At present only the Master, Professors, and three Fellows, are appointed, for the purpose of taking possession of the estates, administering the revenues, superintending the building of the College, and for the other necessary purposes. The appointment of the remaining Fellows is reserved until after the erection of the buildings necessary for the College.

The Scholars will also be elected after that period; but not more than two in each year. There are also two Chaplains, nominated by the Master.

The Master is elected by the Archbishops of Canterbury and York, and the Masters of St John's and Clare Hall, from among those who are or have been Professors or Fellows. The electors to the Professorships are the same as to the Mastership, with the addition of the Master.

The Professor of Law must be, at the time of his election, LL.D., M.A., or LL.B., of Cambridge or Oxford, of ten years' standing from matriculation, and a barrister at law. The Professor of Medicine must be M.A. licensed to practise Physic for two years, or M.D. or M.B. of Cambridge or Oxford, or a Member of a Scotch University of seven years' standing, and twenty-five years of age, and who shall have attended the medical lectures in one of the Scotch Universities for four years. The Professors are bound to read a course of lectures in their respective faculties, on the usual terms upon which public lectures are given in the University. The Professorships are not vacated by marriage, or by the possession of any property, and the Professors are capable of holding any of the lay offices in the College.

The electors to the Fellowships are, the Master, Professors, and Fellows of the degree of M.A. After the building of the College

is completed, the election will be annually on the 21st of February. All graduates of Cambridge or Oxford are eligible: but after the completion of the College, Lay Fellows must be under the age of 24, and Clerical Fellows under 30, and above 23, at the time of election. The only restriction is, that there shall never be eight Fellows natives of the same county at one time. While the College remains uncompleted, the elections to Fellowships are at uncertain times, depending upon the vacancies, and not subject to the conditions of the statutes.

The Clerical Fellowships will be tenable for life; and subject to residence for a certain part of each term. The Lay Fellowships continue only for twelve years, and are not subject to any residence. Every Lay Fellow must declare either for Law or Physic. Those who declare for Law must be called to the bar within eight years after their election; and the Medical Fellows must take the degree of M.D. within two years after they are of sufficient standing. A Lay Fellow may also take orders after six years, without thereby vacating his Fellowship. Under certain circumstances, the four electors to the Mastership have a power to suspend the vacancy of a lay Fellowship; but this power is limited to two Fellows living at any one time.

The sole founder of this College was Sir GEORGE DOWNING, Bart.¹ of Gamlingay Park, in this county; who, by a will, dated 20th December, 1717, devised his estates in the counties of Cambridge, Bedford, and Suffolk, first to Sir Jacob Gerrard Downing, and afterwards to other relations in succession, and in failure thereof, to build and found a College in this University, upon a plan to be approved by the two Archbishops and the Masters of St John's and Clare Hall. This direction was the reason for giving them the power which they possess in elections and other matters, by the charter and statutes.

Sir George died in 1749, and Sir Jacob in 1764, and (the other devisees having previously died without issue) upon this event the foundation ought immediately to have been carried into execution. But the estates were in the possession of Lady Downing, and afterwards of her devisees, without any real title; and when the University sued in Chancery for the establishment of the College, the party in possession resisted the suit in that court. In 1769, a decree was obtained in favour of the foundation.

The persons named as trustees in the founder's will having died in his lifetime, the execution of the trusts devolved upon the heirs at law; who after combating a long series of opposition and litigation, and overcoming obstacles of various descriptions, preferred a petition to the Crown for a Charter; and at length, in 1800, the Privy Council decided to recommend the foundation to his Majesty.

¹ He was installed a Knight of the most Honourable Order of the Bath, June 30, 1732.

On the 22d of September, 1800, the Great Seal was affixed to the Charter by Lord Loughborough. By this Charter the College is incorporated, with all the privileges belonging to any College in the University, and endowed with the estate devised by the founder, with a power to hold landed property (in addition thereto) to the value of £1500 per annum.

The Charter directs statutes to be framed for the government of the College, which was done in July 1805, and shortly afterwards the stipends of the members began to be paid.

By the statutes, no beneficial leases of the College estates are allowed, nor any fine to be taken for a grant or renewal. It is also provided that no new foundation shall be ever engrafted on this College, which shall be inconsistent with the Charter and Statutes. But the College may accept any additions to their property in augmentation of the number or value of their present appointments, or to be applied in any other manner consistent with their present constitution.

There is also a power given to the four electors and the Master to alter the statutes, on application by a certain portion of the College.

The members appointed in the Charter were, Francis Annesley, LL.D. *Master*: Edward Christian, M.A. and Barrister, *Law Professor*: Busick Harwood, M.D. *Professor of Medicine*: John Lens, Sergeant at Law, and M.A., William Meeke, Barrister, and M.A., and William Frere, B.A., *Fellows*.

The late Mr John Bowtell, of this town, who gave by his will a considerable property to charitable uses, bequeathed to Downing College a collection of books, manuscripts, fossils, and antiquities, with a request that the book-cases containing them might be placed in the college library. Among the manuscripts is a History of the Topography and Antiquities of this town, prepared for publication by Mr Bowtell.

A piece of land nearly thirty acres having been purchased for the site, and for grounds and walks, on the 18th of May, 1807, the first stone was laid; since which time the building has proceeded at intervals, at the expence of above £60,000. In 1821, buildings sufficient for opening the College, and comprising nearly two sides of a large court, were completed; and in May, 1821, undergraduates were admitted to reside and keep Terms.

MONDAY, *February* 13. 9...11½.

Into LATIN ALCAICS :

LET us quit the leafy arbour,
And the torrent murmuring by ;
Sol has dropped into his harbour,
Weary of the open sky.

Summer ebbs ;—each day that follows
Is a reflux from on high,
Tending to the darksome hollows
Where the frosts of winter lie.

He who governs the creation,
In his providence, assigned
Such a gradual declination
To the life of human kind.

Yet we mark it not ;—fruits redden,
Fresh flowers blow, as flowers have blown.
And the heart is loth to deaden
Hopes that she so long hath known.

Be thou wiser, youthful Maiden !
And when thy decline shall come,
Let not flowers, or boughs fruit-laden,
Hide the knowledge of thy doom.

WHAT though no weeping loves thy ashes grace,
Nor polish'd marble emulate thy face !
What though no sacred earth allow thee room,
Nor hallow'd dirge be mutter'd o'er thy tomb ?

Yet shall thy grave with rising flow'rs be drest,
 And the green turf lie lightly on thy breast:
 There shall the morn her earliest tears bestow,
 There the first roses of the year shall blow;
 While angels with their silver wings o'ershade
 The ground now sacred by thy relics made.

It is observed of this competition, that it was carried on without bribery or tumult. As the competitors were supposed to be all of the Senatorian party, the Senators thought their interest secure whichever of the candidates should prevail. And as the Senatorian party divided upon the occasion, the influence of Cæsar and Pompey easily cast the balance on the side of Sulpicius and Marcellus. Cato, during the competition, continued in the same habits of friendship as usual with both; and when the choice was decided in their favour, instead of withdrawing from public view, as was common under such disappointments, he went to the field of Mars as usual from the assemblies of the people, stript and went to exercise, and continued from thenceforward to frequent the Forum in his common undress. To those who condoled with him, or pressed him to continue his suit for another year, as he had done when first disappointed of the Prætorship, he made answer, That he thought it was the part of a good man to undertake the public service, whenever he was intrusted with it, and to make his willingness known, but not to court the public for employments as a favour to himself. "The people," he said, "at the time that they refused me the Prætorship, were under actual violence : in this case, they have made a free choice, and it appears that I must either violate my own mind, or renounce their goodwill. My own mind is of more consequence to me than their favour; but, if I retain my character, I shall not be so unreasonable as to expect consideration from persons to whom it is not agreeable."

O VENERABLE synod, whose decrees
Have called us forth, to vanquish, or to die,
Thrice hail. Whate'er by valour we obtain
Your wisdom must preserve. With piercing eyes
Each Grecian state contemplate, and discern
Their various tempers. Animate the cold,
And watch the faithless: some there are, betray
Themselves and Greece; their perfidy prevent,
Or call them back to honour. Let us all
Be linked in sacred union, and the Greeks

Shall stand the world's whole multitude in arms.
 If for the spoil, which Paris bore to Troy,
 A thousand barks the Hellespont o'erspread :
 Shall not again confederated Greece
 Be roused to battle, and to freedom give,
 What once she gave to fame. Behold we haste
 To stop the invading tyrant. Till we bleed,
 He shall not pour his millions on your plains.
 But as the gods conceal, how long our strength
 May stand unconquered, or how soon must fall,
 Waste not a moment, till consenting Greece
 Range all her free-born numbers in the field.

Into GREEK PROSE:

IN harmony the very image and character even of virtue and vice is perceived, the mind delighted with their resemblances, and brought by having them often iterated into a love of the things themselves. For which cause there is nothing more contagious and pestilent than some kinds of harmony; than some nothing more strong and potent unto good. And that there is such a difference of one kind from another we need no proof but our own experience, inasmuch as we are at the hearing of some more inclined unto sorrow and heaviness; of some, more mollified and softened in mind; one kind apter to stay and settle us, another to move and stir our affections; there is that draweth to a marvellous grave and sober mediocrity, there is also that carrieth as it were into ecstasies, filling the mind with an heavenly joy and for the time in a manner severing it from the body. So that although we lay altogether aside the consideration of ditty or matter, the very harmony of sounds being framed in due sort and carried from the ear to the spiritual faculties of our souls, is by a native puissance and efficacy greatly available to bring to a perfect temper whatsoever is there troubled.

HOOKE.

THE influence of Pericles was grounded partly indeed on the measures by which he courted popular favour—which would have been equally agreeable if they had been proposed by any other man—but still more on the rare qualities of his genius and his character: on his eloquence, his military talents, his political experience, his prudence, his integrity, his serenity and greatness of soul. It was thus that he was enabled permanently to control the Assembly, and sometimes successfully to resist its declared wishes. No

man ever appeared after him at the head of affairs who combined so many claims to general confidence and respect. But with regard to the demagogues who succeeded him in the period which we are now reviewing, it is clear that, with one exception, none of them possessed any personal influence, or was indebted for the degree of favour he enjoyed to any other instruments than the arts with which he flattered the passions of the people.

CAMBRIDGE CAMDEN SOCIETY.

THE CAMBRIDGE CAMDEN SOCIETY was instituted in May, 1839, in order to promote "the study of Ecclesiastical Architecture and Antiquities, and the restoration of mutilated Architectural remains."

It has endeavoured to fulfil the objects for which it was founded by affording opportunities for the mutual study of Ecclesiological subjects among its resident members, and information to such as are non-resident by the circulation of Papers read at the meetings of the Society; by the dissemination of a variety of publications, of which some are intended chiefly for the use of Members, while others are addressed more generally to influential classes immediately connected with the preservation, restoration, and building of churches; by making such occasional grants in aid of particular restorations as the funds may admit of; and by cultivating a good understanding and encouraging combined action with similar Societies founded for similar objects in other places*.

LAWS.

1. The object of the Society shall be to promote the study of Ecclesiastical Architecture and Antiquities, and the restoration of mutilated Architectural remains.

2. The Society shall consist of a President, Vice-Presidents, and Ordinary Members, who are or have been Members of the University, or who, not being, or not having been, Members of the University, shall be approved of by the Committee.

3. The names of Candidates shall be proposed in the form following:—

I, the undersigned, do hereby recommend _____, of _____ College, to be a Member of the *Cambridge Camden Society*, believing him to be disposed to aid its designs.

(Signed) _____

_____ Collegc.

Smith, Payne and Smith, London, "to the Cambridge Camden Society's account with Messrs. Mortlock, Cambridge."

and shall be suspended (for at least a week) in the Society's Rooms; and the Candidates so proposed shall be ballotted for at the next General Meeting. One black ball in five to exclude.

4. Honorary Members may be elected in the same manner, having been first recommended by the Committee.

5. The Chancellor of the University, the High Steward, and such of their Lordships the Bishops, and of the Heads of Houses, as shall signify their pleasure to become Members of the Society, shall be admitted as Patrons without ballot.

6. Every Member shall pay an annual subscription of one guinea, to be due on the First of January in each year. It shall be competent to any Member to compound for all future subscriptions by one payment of ten guineas.*

7. If any Member's subscription be in arrears for one year, he may be removed from the Society, after due notice, at the discretion of the Committee. No Member shall be considered entitled to his privileges as a Member, whose subscription is in arrear.

8. The affairs of the Society shall be conducted by a Committee, composed of the President, Vice-Presidents, and six Ordinary Members, who shall be elected at the Anniversary Meeting in the Easter Term of each year, and of whom three at least shall have been Members of the Committee of the preceding year.

9. The Committee shall elect out of their own body, so appointed, a Chairman, Treasurer, and two Secretaries: and may subsequently add to their number†.

10. Two Ordinary Members, not being members of the Committee, shall be chosen annually by the Society at the same time with the Committee, to audit the Society's Accounts.

11. The Society shall meet twice a Term: the days of meeting to be appointed, at the beginning of each Term, by the Committee.

12. The chair shall be taken at half-past seven by the President, or in his absence by one of the Vice-Presidents, or other

* This Law only applies to Members elected after January 1st, 1842.

† The President, and such of the Vice-Presidents as are pleased to attend, are members of the Committee.

13. The day of meeting may be changed, or a special meeting called by the Committee, due notice being given.

14. The officer in the chair shall be sole interpreter of the laws, and shall have unlimited authority on every question of order.

15. The Secretaries shall have charge of the records of the Society, and shall keep a minute-book containing the reports of the Meetings, and particulars relative to all matters of interest to the Society.

16. No motion or communication shall be laid before the Society until it has been approved by the Committee. No alteration shall be made in any Law of the Society, without notice having been given at the previous Meeting.

17. The Society invites its members to examine every church in their power, to furnish reports and drawings thereof to the Secretaries, and to contribute original papers on any subject connected with its designs.

18. The Society shall from time to time admit such Associations, formed on Church principles for the study of Ecclesiastical Architecture and Antiquities, as shall desire it, to the privilege of attending the meetings of the Society and purchasing its publications on the same terms as are granted to its Members.

N.B. Members of the Oxford Society for promoting the Study of Gothic Architecture, of the Exeter Diocesan, Lichfield, Durham, Yorkshire, and Bristol Architectural Societies, are admitted to attend the meetings of the Cambridge Camden Society, and have the privilege of purchasing the publications of the Society on the same terms as are granted to the Members of the Society.

This is the First edition of the authorised translation now in use, commonly called KING JAMES'S BIBLE. In consequence of several objections having been made to the Bishop's Bible at the Conference held at Hampton Court in 1603, King James in the following year gave orders for the undertaking of a new version, and fifty-four learned men were appointed to this important undertaking. This edition of the Bible, printed in 1611, is the result of their labours. For a further account of it, see LEWIS'S HISTORY OF THE TRANSLATIONS OF THE BIBLE; SELDEN'S TABLE TALK; HORNE'S INTROD., &c.

- 111 BIBLIA GERMANICA.—Die erste Niedersächsische oder sogenannte Cölnische Bibel, 2 vols. in 1, *printed in double columns, with 57 lines in a full page, having neither signatures, catchwords, place, or date, but printed at Cologne, by BARTH. DE UNKEL, about 1478-80; good copy, quite perfect, in the original binding*, 20l. large folio
- This early edition of the Scriptures in *Low-German*, (though EBERT says that the dialect is properly more *Flemish* than pure *Low-German*,) is of very great rarity, even in Germany. In this country, we believe, the *only copy* besides the one now described, appears in a bookseller's catalogue, lately published, marked 30l.; it is illustrated throughout with fine large woodcuts, in some of which are rude representations of the cathedral and other buildings at Cologne.
- 112 BIBLIA HUNGARICA, with the Psalms set to music, *hfbd. neat*, 14s. 8vo. *Ultraj.* 1765
- 113 BIBLIA SACRA, tradotta in lingua ITALIANA, e commentata da Giov. Diodati, *neat, (best edition,)* 1l. 4s. folio, *Genev.* 1641
- J. Parkhurst's copy, with his autograph and MS. note.
- 114 — *good copy, in calf*, 1l. 8s. folio, *ib.* 1641
- 115 BIBLIA SACRA LATINA, cum Præfatione Hieronymi. This is an exceedingly rare edition, without date, place, or name of printer, but printed at STRASBOURG BY HENRY EGGESTYN, about 1468, in his smaller type. This copy commences with the book of Proverbs, and terminates with the twenty-first chapter of the Apocalypse: a few leaves in the Gospels are neatly supplied in manuscript; *in the original binding*, 2l. 2s. folio
- 116 — cum Epistolis S. Hieronymi, et Canonibus Evangelistarumque Concordantiis et Menardi Epistola, *very fine large copy, most of the leaves uncut, in the original binding, with illuminated capitals*, 5l. 5s. folio, *Nurembergæ, Antonius Koberger*, 1477
- This is the *second* edition of the Latin Bible printed by Koberger; but the Epistle of the Monk Mesnard, and the Canons of Eusebius, have been added to this edition.
- 117 — aliud exemplar, *good sound copy, (one leaf slightly imperfect,)* 3l. 3s. folio, *ib.* 1477

- 118 BIBLIA SACRA LATINA, cum Præfatione Hieronymi et Canonibus Evangelistarumque Concordantiis, &c. *with illuminated capitals; in hogskin, with clasps, fine copy, 4l. 4s.*
large folio, *Coloniæ, Conradus de Homborch, 1479*
A very rare edition not mentioned by any of the Bibliographers: it is not to be found in the valuable and extensive collection of Bibles in the possession of H. R. H. the Duke of Sussex.
- 119 — cum Glossa majori et minori, 4 vols. *a very beautiful copy, in the original binding (but wanting the third vol.) 5l. 5s. imp. folio,*
Sine loco aut anno aut typographo (Venet. circa 1480)
The copy belonging to the Duke of Sussex is likewise very imperfect.
This Bible is printed in two columns. The Text in a large type; the smaller Gloss in a smaller letter under the text, and the larger Gloss round it.
“Le Long minutely collated this edition from a copy he met with in the Library of the Doctors of the Sorbonne. It is distinguished from all others by having what is termed the Ordinary Gloss; a Commentary selected from the Fathers and other writers, and the original of which is attributed to Walafrid Strabo, a writer of the 9th century.—There is also an interlineary Gloss, of which Anselm, a scholar and deacon of Laon, in France, who flourished at the end of the 11th and beginning of the 12th century, is supposed to be the author.—There are no titles to this edition of the Bible, which Le Long and Masch describe as the first and only one of its kind, and it is of *extremely rare occurrence.*”—*Bibliotheca Sussexiana.*
- 120 — Textus Biblie cum Glosa ordinaria, NICOLAI DE LYRA postilla Moralitybus ejusdem PAULI BERGENSIS additionibus et MATH. THORING replicis, 3 vols., *a remarkably fine copy of this beautiful edition of the Vulgate, rough leaves, in the original binding, which is in the finest preservation, with brass edges and clasps, many of the capitals are beautifully illuminated, 6l. 6s. .. folio, Impressum est Venetiis, per Franc. de Hailbrun, 1482*
Walchius says, the Commentaries of De Lyra not only manifest industry, but display considerable erudition, and deservedly place their author in the first rank of the Biblical Expositors of the day. In explaining the literal sense of the Holy Scriptures, he excelled most of his contemporaries.
- 121 — cum pleno apparatu summariorum concordantiarum, et quadruplicis repertorii sive indicis numerique folior. impressa, *in the original binding, 1l. 1s.*
